About Us

CapitaLand Malaysia Trust (CLMT) is a Real Estate Investment Trust (REIT) listed on the Main Market of Bursa Malaysia Securities Berhad since 16 July 2010. CLMT's primary objective is to invest, on a long-term basis, in a geographically diversified portfolio of quality income-producing real estate assets across Malaysia, focusing on retail, industrial and logistics properties. As at 31 December 2025, CLMT's market capitalisation stood at approximately RM2.1 billion with total assets valued at around RM5.6 billion.

CLMT's portfolio comprises six retail properties and nine industrial and logistics properties with a combined net lettable area of approximately 4.7 million sq ft. Its retail assets are strategically located in four key urban centres. In Penang, these include Gurney Plaza and a significant interest in Queensbay Mall. In the Klang Valley region, CLMT holds a majority interest in Sungei Wang Plaza in Kuala Lumpur as well as 3 Damansara in Petaling Jaya and The Mines in Seri Kembangan. On the east coast, CLMT owns East Coast Mall in Kuantan, Pahang.

CLMT's industrial properties, located within the Johor-Singapore Special Economic Zone in Johor, consist of the Iskandar Puteri Facilities within Nusajaya Tech Park in Iskandar Malaysia and the Senai Airport City Facilities. Its logistics properties include Valdor Logistics Hub located in one of Penang's key industrial hubs, Glenmarie Distribution Centre within Hicom-Glenmarie Industrial Park in Shah Alam, Selangor and Synergy Logistics Hub in Elmina Business Park, Sungai Buloh, Selangor.

CLMT is managed by CapitaLand Malaysia REIT Management Sdn. Bhd., a wholly-owned indirect subsidiary of CapitaLand Investment Limited, a leading global real asset manager with a strong Asia foothold.

Notes:

CLMT's interest in Queensbay Mall comprises:

- (i) Approximately 91.8% of the total strata floor area of retail parcels, and
- (ii) Approximately 98% of the car park bays.

CLMT's interest in Sungei Wang Plaza comprises:

- (i) Approximately 61.9% of the total strata floor area of retail parcels, and
- (ii) 100% of the car park bays.

Vision

To be Malaysia's leading diversified real estate investment trust through value creation and continuous innovation

Mission

To deliver long-term and sustainable distribution of income and potential capital growth to Unitholders

For Investors

Deliver sustainable total returns

For Tenants

Create profitable opportunities

For Shoppers

Create delightful shopping and lifestyle experiences

For Employees

Provide opportunities to realise personal potential and achieve professional growth

For the Community

Promote environmental sustainability, social responsibility and good corporate governance

Value Creation

Our Objective

The Manager's aims are to provide Unitholders with sustainable income growth through regular and steady distributions, and to create new value through proactive asset management and yield-accretive acquisitions, while maintaining an appropriate capital structure.

Our Strategies

Organic Growth

- Striking a balance between healthy occupancy rate and improving rents
- Forging close ties with tenants to improve tenant retention
- Optimising tenant mix for retail properties

Asset Enhancement Initiatives

- Reviewing space usage to optimise space productivity and income contribution
- Maximising return on investment through asset enhancement initiatives

Strategic Acquisitions

- Focused on retail, industrial and logistics properties in key urban centres in Malaysia with yield-accretive opportunities
- Seeking opportunities from both third parties and CapitaLand Group

Cost and Capital Management

- Improving overall cost and operational efficiencies through effective budgetary control
- Proactively managing and strengthening balance sheet ensuring its robust liquidity position and a diversified funding base

Investment Objective

The principal investment objective of CapitaLand Malaysia Trust (CLMT) is to invest, on a long-term basis, in a geographically diversified portfolio of income-producing real estate across Malaysia that are used for retail, commercial, office and industrial purposes or such other non-real estate investments as may be permitted under the Trust Deed¹, the Guidelines on Listed Real Estate Investment Trusts or by the Securities Commission Malaysia, with a view to providing Unitholders with long-term and sustainable distribution of income and potential capital growth.

The Manager believes that CLMT has made continued progress in growing its diversified portfolio to strengthen income resilience for the financial year ended 31 December 2025.

Future Prospects of the Market

The Manager views the Malaysian real estate sector to be resilient in the long-term and will continue to pursue the above-mentioned value creation strategies. For more information in the sectors in which CLMT currently invests in, please refer to the Independent Market Overview section on pages 188 to 208 of CLMT Annual Report 2025.

¹ The Trust Deed dated 7 June 2010 (as amended and restated on 13 July 2021) entered into between the Manager and the Trustee.

Portfolio Overview

▲ Gurney Plaza, Penang

▲ Queensbay Mall, Penang

▲ East Coast Mall, Kuantan

▲ The Mines, Seri Kembangan

▲ Sungei Wang Plaza, Kuala Lumpur

▲ 3 Damansara, Petaling Jaya

▲ Valdor Logistics Hub, Penang

▲ Glenmarie Distribution Centre, Shah Alam

▲ Synergy Logistics Hub, Sungai Buloh

▲ Iskandar Puteri Facilities, Johor Bahru

▲ Senai Airport City Facilities, Johor Bahru

Trust Structure

- ¹ The Manager holds a Capital Markets Services Licence issued by the Securities Commission Malaysia for the regulated activity of fund management in relation to asset management restricted to real estate investment trust.
- ² Knight Frank Property Management Sdn. Bhd. manages Gurney Plaza; CLMT's interest in Queensbay Mall; East Coast Mall; 3 Damansara; The Mines; Valdor Logistics Hub; Glenmarie Distribution Centre; Senai Airport City Facilities; Iskandar Puteri Facilities and Synergy Logistics Hub.
- ³ Nexcap Property Consultants Sdn. Bhd. manages CLMT's interest in Sungei Wang Plaza.

Organisation Structure

Salient Features

Fund Name	CapitalLand Malaysia Trust (CLMT)
Fund Type	Income
Fund Duration/ Termination Date	The earlier of the occurrence of any of the events listed in Clause 25.2 of the Trust Deed ¹ or the expiration of a period of twenty one (21) years after the death of the last survivor of the issue now living of his majesty, the current Yang di-Pertuan Agong of Malaysia; or until such further period as the laws permit.
Authorised Investments Limits	- At least 75% of CLMT's total asset value must be invested in real estate that generates recurrent rental income at all times; and - Such other investments or limits as may be permitted by Securities Commission Malaysia (SC) and/or the REITs Guidelines².
Distribution Policy	- Payout policy ratio: At least 90% of CLMT's distributable income of each financial year. - Semi-annual distribution payment for the six-month period ending 30 June and 31 December of each year.
Borrowing Limitations	Up to 50% of CLMT's total asset value at the time the borrowings or financing facilities or deferred payment arrangements are incurred.
Valuation/ Revaluation Policy	Annually by independent professional valuer; and when a real estate is to be acquired or disposed by CLMT.
Management Fee	- Base Fee: up to 1% per annum of the value of Deposited Property³ (FY 2025 actual: 0.29%) - Performance Fee: up to 5% per annum of Net Property Income (before Management Fee) (FY 2025 actual: 4.75%). - Acquisition Fee: up to 1% of the acquisition price of any Authorised Investments directly or indirectly acquired by the Trustee on behalf of CLMT (FY 2025 actual: 1.0%). - Divestment Fee: up to 0.5% of the sale price (after deducting the interest of any co-owners or co-participants) of any Authorised Investments directly or indirectly sold or divested by the Trustee on behalf of CLMT.
Bursa Securities Stock Name/Code	CLMT (5180)
FTSE Bursa Malaysia Indices	- FTSE Bursa Malaysia Emas Index - FTSE Bursa Malaysia Small Cap Index - FTSE Bursa Malaysia Mid Cap Index - FTSE4Good Bursa Malaysia Index

¹ The Trust Deed dated 7 June 2010 (as amended and restated on 13 July 2021) entered into between the Manager and the Trustee.

² Guidelines on Listed Real Estate Investment Trusts.

³ As defined in the Trust Deed, the value of Deposited Property is equal to all the assets of CLMT (total asset value).

Milestones

January

- Declared the final income distribution of 2.29 sen per unit for the period from 1 July 2024 to 31 December 2024 (2024 Final Income Distribution), resulting in an annual income distribution per unit of 4.65 sen for the financial year ended 31 December 2024. The Distribution Reinvestment Plan (DRP) was applied to the entire 2024 Final Income Distribution.

February

- Announced the proposed acquisition of Senai Airport City Facilities comprising three units of single-storey detached factories, each annexed with a two-storey office building located within Senai Airport City, Johor for RM72.0 million.
- Conducted non-deal roadshows with existing and prospective investors pursuant to CLMT's FY 2024 financial results.

March

- 2024 Final Income Distribution was paid to Unitholders.
- All CapitaLand shopping malls participated in the global event, Earth Hour, by switching off façade lights and non-essential lighting for an hour on 22 March 2025, as part of its commitment to save the planet and showcase environmental stewardship.

April

- CLMT conducted an Annual General Meeting with all resolutions approved by Unitholders.

▲ AGM was held on 4 April 2025.

May

- Participated in UBS Property Day in Kuala Lumpur.
- Queensbay Mall was issued with a Green Mark Platinum Certificate by Building and Construction Authority.

June

- Re-fixed the coupon rate for CLMT MTN Berhad's unrated and secured Medium-Term Notes of RM300.0 million for the remaining tenure of one year.
- Re-fixed the interest rate of an existing secured term loan of RM57.0 million.
- CLMT was included as a constituent of the FTSE4Good Bursa Malaysia Index and obtained 4-star FTSE4Good ESG rating.

July

- Announced the first income distribution of 2.46 sen per unit for the period from 1 January 2025 to 30 June 2025 (2025 First Income Distribution).
- Announced an advanced income distribution of 0.47 sen per unit for the period from 1 July 2025 to 6 August 2025 (2025 Advanced Income Distribution).
- CLMT conducted a Unitholders' Meeting with all resolutions approved by Unitholders.
- CapitaLand received "Company of the Year" and "Long-Standing Excellence" awards in the shopping mall category for its #GivingBersama4.0 initiative at the Sustainability & CSR Malaysia Awards 2025.

▲ These accolades recognise CapitaLand's sustained efforts in uplifting communities.

- Obtained new secured and committed sustainability-linked facilities totalling RM230.0 million to fund the acquisitions of Synergy Logistics Hub, Senai Airport City Facilities and Iskandar Puteri Facilities.
- Converted RM50.0 million of existing uncommitted revolving credit facility into a sustainability-linked revolving credit facility.

August

- Completed a private placement of 409,836,000 new units in CLMT at an issue price of RM0.61 per unit to raise gross proceeds of approximately RM250.0 million. The proceeds were used to reposition and strengthen our balance sheet for future growth, allowing us to repay existing bank loans incurred in connection with the earlier acquisitions of industrial and logistics properties, including Senai Airport City Facilities, Iskandar Puteri Facilities, and Synergy Logistics Hub.
- 2025 First Income Distribution and 2025 Advanced Income Distribution were paid to Unitholders.
- Gurney Plaza was recognised as the Best Premium Lifestyle Shopping Mall at the Tourism Industry Award 2025, whereas Queensbay Mall awarded the Best Experiential Northern Region Shopping Mall.
- Converted RM998.8 million of existing secured term loans and revolving credit facilities into secured sustainability-linked loans.

September

- Completed the acquisition of Senai Airport City Facilities, comprising three freehold industrial properties located within Senai Airport City, for RM72.0 million.
- East Coast Mall achieved the Gold Standard in the Malaysia Tourism Quality Assurance assessment.
- Participated in CapitaLand Investment and REITs Corporate Day 2025 in Kuala Lumpur.

▲ The inaugural CapitaLand Investment and REITs Corporate Day in Kuala Lumpur.

October

- Launched CapitaPlus, a new platform that enhances shopper engagement, supports tenants' growth and enables agile retail strategies in a digital-first era.
- Completed the acquisition of Iskandar Puteri Facilities, comprising two semi-detached factories and one detached factory, with mezzanine offices and guard posts in Nusajaya Tech Park, Johor, for RM27.0 million.
- Renamed the Audit Committee to Audit and Risk Committee to better reflect its roles and responsibilities in assisting the Board in overseeing the risk management function.
- CLMT achieved its first 4-Star rating in the 2025 GRESB Real Estate Assessment, improved from its 3-Star rating last year.
- Glenmarie Distribution Centre attained its LEED (Leadership in Energy and Environmental Design) Gold Certification awarded by the U.S. Green Building Council.

▲ Glenmarie Distribution Centre is a LEED Gold-certified building.

- Senai Airport City Facilities achieved the Green Building Index certification from the Malaysia Green Building Confederation.

- CapitaLand Group, through its philanthropic arm, CapitaLand Hope Foundation, has contributed RM200,000 worth of daily necessities and educational supplies to approximately 2,250 beneficiaries through its #GivingBersama5.0 initiative.

▲ More than 210 staff volunteers contributed close to 1,740 volunteer hours for the #GivingBersama5.0 initiative.

November

- Participated in CapitaLand Investment and REITs Corporate Day 2025 in Bangkok, Thailand.
- Completed the acquisition of Synergy Logistics Hub, comprising an industrial building/warehouse with annexed office buildings equipped with an automated storage retrieval system located at Elmina Business Park, Selangor, for RM180.0 million.
- CapitaLand clinched the Silver award for the Employer of Choice Award (Private Sector) in 25th Malaysia-International Awards 2025.

December

- The existing noteholder of CLMT MTN Berhad's RM300.0 million unrated and secured Medium-Term Notes (MTNs) has offered to refinance and early refinance the MTNs upon maturity of the first RM100.0 million MTNs on 22 June 2026.
- CLMT retained its position as a constituent of the FTSE Bursa Malaysia Index including FTSE4Good Bursa Malaysia Index.
- Entered into a forward purchase agreement to acquire five high-specification industrial facilities in i-TechValley located within Iskandar Malaysia, Johor for RM220.8 million.

▲ Artist's impression of a 3-acre, 1.5-storey detached factory in i-TechValley.

Yong Su-Lin
Chief Executive Officer
Executive Non-Independent Director

Doubling Down on our Commitments

Dear Unitholders,

Guided by our proven two-pronged strategy of pursuing both organic and inorganic growth, FY 2025 was a banner year for CLMT. We expanded the number of properties in our portfolio by nearly 50% through yield-accretive industrial and logistics acquisitions. We also strengthened our income distribution, refined our retail tenant mix, and completed essential asset enhancements across our retail portfolio. Throughout these efforts, we remained steadfast in our commitment to delivering long-term, sustainable returns to our Unitholders.

A Sound Business Model

Our dual growth engines continued to drive our upward trajectory. On an organic basis, proactive asset management and active tenant engagement strengthened retail performance, resulting in positive overall rental reversions and improved occupancy. In parallel, our inorganic strategy expanded and diversified our industrial and logistics portfolio through disciplined acquisitions that

increased revenue and raised income contributions from yield-accretive assets. Together, these complementary engines enhance our portfolio's resilience and provide the execution power needed to sustain income growth in FY 2026 and beyond.

Steady Growth Momentum

Our disciplined focus made FY 2025 a significant milestone year and further strengthened our track record of year-on-year (YoY) growth since FY 2022, following CLMT's expansion of its investment mandate in 2021. Gross revenue rose to RM476.8 million from RM454.8 million in FY 2024, a 4.8% increase. NPI increased by 9.7% in FY 2025 to RM289.4 million from RM263.9 million the previous year. DPU rose from 4.65 sen in FY 2024 to 4.84 sen, a 4.1% jump.

In August 2025, we successfully completed a private placement of 409.8 million new units at an issue price of RM0.61 per unit. The placement was oversubscribed by both new and existing Unitholders, underscoring our

prudent capital management and enhancing CLMT's trading liquidity. The approximate gross proceeds of RM250.0 million from this equity fundraising (EFR) were primarily used to reposition and strengthen our balance sheet for future growth, allowing us to repay existing bank loans incurred from the acquisitions of industrial and logistics properties, including Senai Airport City Facilities, Iskandar Puteri Facilities, and Synergy Logistics Hub.

Our strong balance sheet and disciplined capital management enabled us to maintain a robust distribution yield of above 6.9% since FY 2022. In FY 2025, we paid three income distributions to Unitholders totalling RM151.6 million. These were (i) a final income distribution of 2.29 sen per unit for the period from 1 July 2024 to 31 December 2024, subject to our existing Distribution Reinvestment Plan (DRP); (ii) a first income distribution of 2.46 sen per unit for the period from 1 January 2025 to 30 June 2025; and (iii) an advanced income distribution of 0.47 sen per unit for the period from 1 July 2025 to 6 August 2025, made prior to the issuance of new units arising from the EFR exercise. A final income distribution of 1.91 sen per unit covering the period from 7 August 2025 to 31 December 2025 and subject to DRP, will be made by March 2026. Unitholders may elect to receive the distribution in cash or reinvest part or all of it into new units.

Expanding our Industrial and Logistics Footprint

In FY 2025, CLMT made significant strides in expanding our industrial and logistics portfolio, completing seven new property acquisitions totalling RM279.0 million—the largest addition to our portfolio since 2021.

These additions increased our assets under management (AUM) for our industrial and logistics portfolio to 7.9% of our total AUM, up from 2.8% in FY 2024, bringing our 2028 target asset composition of 20% well within reach. At year-end, our total portfolio AUM rose 7% YoY to RM5.5 billion, largely attributable to the completed acquisitions of Senai Airport City Facilities, Iskandar Puteri Facilities, and Synergy Logistics Hub. On a like-for-like basis, the overall portfolio valuation of the eight properties increased 1.5% YoY, driven by improved performance at the Penang and Kuantan malls.

Since entering Johor in 2024, we have continued to expand our presence within the state. Our first acquisition of the Iskandar Puteri Facilities, comprising three freehold factories in the Nusajaya Tech Park, was completed in October 2025. In addition, we have also completed the acquisition of Senai Airport City Facilities in September 2025, adding three more freehold industrial properties to our portfolio.

On the logistics front, we completed the acquisition of the Synergy Logistics Hub located in Bandar Elmina, Selangor in November 2025. This is CLMT's first modern automated logistics property.

In December 2025, we announced a forward purchase agreement to acquire five high-specification industrial facilities for RM220.8 million, positioning us well to capitalise on the rising demand for such facilities in Johor's industrial corridor. Completion of these facilities is expected to occur progressively from 1Q 2027 to 1Q 2028, with a projected first-year gross yield of approximately 7.3% upon realisation of a full year of operating income.

Hands-on Asset Enhancement

On the retail front, we reinforced our leadership position in Penang with the completion of an asset enhancement initiative (AEI) at Gurney Plaza, adding over approximately 2,700 sq ft of retail space. We also welcomed new tenants, including the Tesla Experience Centre, popular dining and beverage options Xiang Xiang Hunan Cuisine and Madam Kwan's, and lifestyle concept store Oh!Some.

▲ New food and beverage offerings at the alfresco dining area of Gurney Plaza.

Queensbay Mall continued to refresh its offerings, including fashion retailers such as MLB, Wilson, and Boarding Gate, as well as popular new food-service brands such as Oriental Kopi, Shabu-Yo, and 竹面馆 Zok Noodle House.

At East Coast Mall, we announced the grand opening of AEON's first full-scale supermarket in Kuantan. Spanning nearly 50,000 sq ft, the new addition further reinforces its position as the city's preferred shopping mall. We added popular Chinese chains such as Chagee and Mixue, and Indonesia's growing grab-and-go coffee chain Kenangan Coffee, plus new fashion and accessories brands such as New Balance, ASICS, and Sometime by Asian Designer.

▲ Idea Live Arena features approximately 5,000 seats and is equipped with state-of-the-art technology.

At 3 Damansara, we reconfigured over 21,000 sq ft of net lettable area on the ground floor, enhancing the alfresco dining experience and expanding our food and beverage offerings. New alfresco additions include Zai San Bei, a Chinese-style pub featuring live music. Other new F&B offerings include Ah Yip Herbal Soup and HWC Coffee. We introduced Idea Live Arena, an indoor international performance and event venue, and added active and family-oriented lifestyle offerings such as Time to Tennis and Lil' Ninjas Dojo.

At The Mines, we introduced several new and exciting activity-based offerings such as Kin+Zo Land, an indoor playland occupying close to 25,000 sq ft featuring farm-themed playground, go-kart track and party zones for birthdays and celebrations. We also completed an AEI which included creating specialised zones on Levels 3 to 5 for the largest Game On Theme Park in Malaysia, occupying over 60,000 sq ft and featuring more than 30 attractions including a 16-metre Ninja Challenge vertical attraction.

New tenants at Sungei Wang Plaza include Cold Storage supermarket, which replaced the former Giant supermarket, and new food and beverage offerings, including the popular Bungkus Kaw Kaw and 101 Grill & Bar.

Our malls launched two strategic marketing initiatives in 2025 to enhance the shopping experience, increase shopper loyalty and drive mall traffic. *CapitaPlus* is a digital rewards programme that integrates shopping, multi-rewards, and redemption into a single hub, delivering a rewarding experience for customers. The *Shop SMART Win smart* campaign, our largest consumer giveaway in Malaysia, with prizes worth more than RM400,000 including a smart EV, was successfully concluded.

▲ The convenient, full-scale AEON store elevates the grocery shopping experience at East Coast Mall.

Prudent Capital Management

Disciplined capital management is a cornerstone of CLMT's strategy and underpins our ability to deliver sustainable distributions to Unitholders while supporting future growth. In FY 2025, we continued to manage our balance sheet prudently, setting comfortable gearing thresholds to ensure capacity for future accretive acquisitions, AEIs, and resilience amid macroeconomic uncertainties.

Our total borrowings at the end of FY 2025 totalled RM2,194 million, with an average cost of debt of 4.34%, reduced from 4.51% in FY 2024 due to proactive capital management, and a well-spread debt maturity profile of 4.6 years. East Coast Mall, Sungei Wang Plaza, and 3 Damansara remained unencumbered.

A Continuing Commitment to Sustainability

CLMT reaffirmed its commitment to responsible growth, delivering long-term economic returns while contributing to the environmental and social well-being of the communities where we operate. CMRM's Board of Directors oversees CLMT's ESG initiatives and plays a vital role in setting our strategic direction and priorities. Our environmental, social, and governance (ESG) targets focus on improving portfolio resilience, optimising resource efficiency, enhancing the social well-being of our communities and upholding responsible business conduct and governance.

Environmental

- CLMT earned a 4-Star rating in the 2025 GRESB Real Estate Assessment, an improvement from 3-Star the previous year. We were also awarded an 'A' rating by Public Disclosure for strong transparency and ESG reporting standards.
- Glenmarie Distribution Centre received LEED (Leadership in Energy and Environmental Design) Gold Certification from the U.S. Green Building Council and Senai Airport City Facilities were certified with Green Building Index from the Malaysia Green Building Confederation.
- To encourage the adoption of sustainable tenant practices, we expanded the inclusion of green clauses in new and renewal retail leases, increasing coverage to 52%. Green clauses are also incorporated into new industrial and logistics leases.
- CLMT secured new sustainability-linked loans totalling RM230.0 million and converted RM1,048.8 million of existing facilities into sustainability-linked loans.

Social

- With support from CapitaLand Hope Foundation, CapitaLand's #GivingBersama5.0 initiative contributed RM200,000 in essential and educational supplies to nearly 2,250 underserved children and low-income families.
- CapitaLand earned the Silver Employer of Choice Award (Private Sector) at the 25th Malaysia International Awards 2025, recognising its human capital practices and workplace environment.

Governance

- We were included in the 2025 FTSE Bursa Malaysia Index. Our 4-star ESG score in the FTSE4Good Bursa Malaysia Index was 4.1, up from 3.9 the previous year.
- Women now make up ~71% of our Board, underscoring our commitment to Board-level gender diversity and governance oversight.

Meeting Challenges Head On

At the end of FY 2025, our proactive approach to asset and tenant management paid off, resulting in a 12.2% increase in overall portfolio rent reversions. Portfolio and retail occupancy rates improved to 94.9% and 93.7%, up from 92.8% and 92.0% at the end of FY 2024, respectively. On the industrial and logistics front, we have concluded a renewal at Valdor Logistics Hub with a 20.8% increase in rental. The entire industrial and logistics segment remains 100% occupied.

CLMT's robust performance in FY 2025 was achieved despite macroeconomic challenges, including shifting trade policies, tariff uncertainties and geopolitical tensions.

On 13 February 2026, Bank Negara Malaysia (BNM) announced that Malaysia's economy grew by 5.2% in 2025, beating full-year estimates of 4.0% to 4.8%, anchored by strong domestic demand and steady exports. BNM expects the growth momentum to continue in 2026 and additional growth will be further supported by various initiatives including Visit Malaysia Year 2026.

With a larger portfolio and more diversified, and resilient income streams, CLMT is entering 2026 on a stronger footing. Amidst challenges in the operating environment, we will sharpen our focus on operational excellence by retaining and attracting quality tenants, managing costs, and executing AELs well. Anchored by a quality, income-producing and geographically diverse portfolio, CLMT remains committed to delivering long-term, sustainable income distribution to Unitholders.

Acknowledgements

On behalf of the Board and Management, we extend our heartfelt appreciation to Dato' Jeffrey Ng (Dato' Ng Tiong Lip), who resigned from his position as Chairman and Non-Executive Independent Director on 1 January 2026. We also thank Non-Executive Non-Independent Director Mr Lim Cho Pin Andrew Geoffrey (who stepped down from the Board on 1 January 2026) for his invaluable inputs and contributions. We are pleased to welcome Ms Wong Kar Ling (Chief Strategy Officer at Ascott and Managing Director for Southeast Asia), who was appointed as a Non-Executive Non-Independent Director on 1 May 2025.

With the invaluable support of our management team and the sound stewardship of our Board of Directors, we will continue to strive to deliver sustainable results and create long-term value for our Unitholders.

In closing, we extend our sincere thanks to our tenants, shoppers, and business partners for their support. To our employees, we gratefully applaud their contributions in making 2025 another record year. To our Unitholders, we once again thank you for your unwavering trust and belief in CLMT.

Sincerely,

Tan Boon Peng

Financial Review

Gross Revenue

Gross revenue for FY 2025 amounted to RM476.8 million, reflecting an increase of RM22.0 million or 4.8% compared to the previous year. The increase was mainly due to higher revenue recorded by most of the properties within CLMT portfolio as a result of positive rental reversions, rental step-up and the commencement of rental income recognition from Glenmarie Distribution Centre, Senai Airport City Facilities, Synergy Logistics Hub and Iskandar Puteri Facilities.

Gross Revenue by Property	FY 2025 RM'000	FY 2024 RM'000	Change (%)
Gurney Plaza	166,184	163,189	1.8
Queensbay Mall	127,226	120,842	5.3
East Coast Mall	75,176	70,828	6.1
Sungei Wang Plaza	27,913	23,925	16.7
3 Damansara	23,602	26,739	(11.7)
The Mines	39,501	41,999	(5.9)
Valdor Logistics Hub	6,860	6,639	3.3
Glenmarie Distribution Centre	3,593	599	>100.0
Senai Airport City Facilities	2,361	-	N/A
Synergy Logistics Hub	3,399	-	N/A
Iskandar Puteri Facilities	940	-	N/A
CLMT Portfolio	476,755	454,760	4.8

Net Property Income

Net property income (NPI) for FY 2025 amounted to RM289.4 million, or 9.7%, higher than the NPI of RM263.9 million in FY 2024. The upswing in NPI was mainly driven by the increase in gross revenue across existing assets as mentioned above.

There was a decrease in operating expenses mainly due to lower utilities expenses which was partially offset by higher service charges imposed by the management corporations of Queensbay Mall and Sungei Wang Plaza.

Net Property Income by Property	FY 2025 RM'000	FY 2024 RM'000	Change (%)
Gurney Plaza	118,316	111,711	5.9
Queensbay Mall	90,542	88,080	2.8
East Coast Mall	50,520	45,317	11.5
Sungei Wang Plaza	1,348	(1,520)	>100.0
3 Damansara	1,855	3,063	(39.4)
The Mines	11,977	10,985	9.0
Valdor Logistics Hub	6,261	5,834	7.3
Glenmarie Distribution Centre	3,401	458	>100.0
Senai Airport City Facilities	1,161	-	N/A
Synergy Logistics Hub	3,225	-	N/A
Iskandar Puteri Facilities	836	-	N/A
CLMT Portfolio	289,442	263,928	9.7

Distributions

For FY 2025, CLMT declared a total distribution per unit (DPU) of 4.84 sen to Unitholders as shown below:

FY	Period	DPU (Sen)	Payment date
2025	1 January 2025 to 30 June 2025	2.46	19 August 2025
2025	1 July 2025 to 6 August 2025*	0.47	19 August 2025
2025	7 August 2025 to 31 December 2025	1.91	By 31 March 2026
Total		4.84	

* Represents an advanced income distribution prior to the completion of the equity fundraising undertaken to part finance the acquisitions of industrial and logistics properties.

For the final income distribution for period from 7 August 2025 to 31 December 2025, CLMT intends to apply the Distribution Reinvestment Plan (DRP) on the DPU of 1.91 sen where the Unitholders may elect to convert the income distribution received (net of withholding tax) into new CLMT units. The total DPU of 4.84 sen represents a payout of approximately 100% of CLMT's FY 2025 distributable income of RM149.2 million.

Five-Year Distribution History

Period	DPU (sen)	Distribution (RM'000)
FY 2025		
1 January 2025 to 30 June 2025	2.46	71,867
1 July 2025 to 6 August 2025	0.47	13,731
7 August 2025 to 31 December 2025	1.91	63,627
Total	4.84	149,225
FY 2024		
1 January 2024 to 30 June 2024	2.36	66,889
1 July 2024 to 31 December 2024	2.29	65,951
Total	4.65	132,840
FY 2023		
1 January 2023 to 9 March 2023	0.74	16,330
10 March 2023 to 30 June 2023	1.19	32,108
1 July 2023 to 31 December 2023	2.24	61,387
Total	4.17	109,825
FY 2022		
1 January 2022 to 30 June 2022	1.95	42,027
1 July 2022 to 31 December 2022	2.06	45,462
Total	4.01	87,489
FY 2021		
1 January 2021 to 30 June 2021	0.86	18,151
1 July 2021 to 31 December 2021	0.98	20,882
Total	1.84	39,033

Financial Position

The total assets for CLMT Group was RM5,620.8 million as at 31 December 2025, compared to RM5,268.0 million as at 31 December 2024. The increase of RM352.8 million primarily resulted from the acquisition of investment properties of RM284.4 million and net fair value gain of RM36.3 million recognised for CLMT's investment properties portfolio. Total gross borrowings increased by RM17.6 million to RM2,193.7 million as at 31 December 2025 mainly due to additional borrowings incurred for the acquisition of new assets.

Unitholders' fund of CLMT Group as at 31 December 2025 was RM3,184.9 million, an increase of RM302.0 million from 31 December 2024. The increase in Unitholders' fund was mainly attributable to fair value gain on investment properties, as well as additional units issued under equity fund raising exercise, Distribution Reinvestment Plan and as part satisfaction of Manager's management fee.

Capital Management

The Manager continues to rigorously monitor the cash position and borrowings of CLMT Group to strengthen its capital structure and competitive position. The Manager's capital management strategy involves adopting and maintaining an appropriate level of leverage to ensure optimal returns to Unitholders.

Borrowings

The Manager continues to diversify its funding sources and engage with bankers continuously. In FY 2025, CLMT Group secured additional sustainability-linked credit facilities totalling RM230.0 million to support CLMT's acquisitions and working capital needs. In addition, CLMT Group successfully converted its existing RM1,048.8 million credit facilities into sustainability-linked loans as part of its commitment towards responsible growth in creating long-term value for Unitholders. Furthermore, CLMT MTN Berhad also refixed its existing RM300.0 million unrated and secured Medium-Term Notes (MTNs) at a lower interest rate. The existing noteholder of the MTNs has offered to refinance and early refinance the MTNs upon maturity of the first RM100.0 million MTNs on 22 June 2026 for another five years.

The CLMT Group's initiative to manage interest rates with a high fixed rate to floating ratio has cushioned the adverse impact of the volatile interest rate environment. For the financial year ended 31 December 2025, the average interest rate of the Group remained low at 4.3% (FY 2024: 4.5%), with 84% of the total borrowings at fixed rates. The total gross borrowings of CLMT Group as of 31 December 2025 was RM2,193.7 million (FY 2024: RM2,176.1 million), which translates to a gearing of 39.0% (FY 2024: 41.3%).

Debt Profile

The debt maturity and diversified sources of funding profile of the CLMT Group as at 31 December 2025 were as follows:

Total Borrowings

(RM mil)

Diversified Funding Sources

(%)

Cash Flows and Liquidity

The Manager proactively monitors its cash and credit lines to ensure that adequate funding is available to fund business requirements and payment of income distributions to the Unitholders.

Cash and Cash Equivalents

As at 31 December 2025, the CLMT Group's cash and cash equivalents amounted to RM82.9 million, reflecting an increase of RM1.4 million compared to FY 2024. This was primarily due to net cash inflows attributable to operating activities.

Operations Review

Portfolio Lease Expiry Profile

CLMT's portfolio lease expiry was evenly spread out as at 31 December 2025, with 28.6% and 27.2% of the leases by gross rental income due for renewal in 2026 and 2027 respectively and the balance of 44.2% will be expiring from 2028 onwards. For the 2026 portfolio lease expiry profile of 28.6% as at 31 December 2025, 2.4% was made up by the lease expiry cases of anchor tenants¹. Majority of the tenancies for CLMT properties have three-year lease terms.

Portfolio Lease Expiry Profile

(as at 31 December 2025)

	Number of Leases	% of Gross Rental Income
2026	519	28.6
2027	428	27.2
2028 and beyond	449	44.2

Note: Excludes leases expiring on 31 December 2025.

Portfolio Lease Expiry Profile for 2026

(as at 31 December 2025)

Properties	Number of Leases	% of Gross Rental Income	% of Net Lettable Area
Gurney Plaza	131	9.7	4.7
Queensbay Mall	115	7.9	4.5
East Coast Mall	57	4.6	4.0
The Mines	107	3.1	4.8
Sungei Wang Plaza	67	1.1	2.2
3 Damansara	41	1.1	2.2
Valdor Logistics Hub	1	1.1	4.7
CLMT Portfolio	519	28.6	27.1

Note: No leases due for expiry in 2026 for Glenmarie Distribution Centre, Senai Airport City Facilities, Iskandar Puteri Facilities and Synergy Logistics Hub.

1 Anchor tenants are defined as follows:

- For retail tenants: >20,000 sq ft NLA and are of trades under the categories of "Supermarket", "Departmental Store" or "Leisure & Entertainment" trade, for example, cinemas, exhibition centre, etc.
- For industrial & logistics tenants: >20,000 sq ft NLA.

Portfolio 10 Largest Tenants

With a diversified trade mix from a total of approximately 1,407 tenants in CLMT's portfolio, no single tenant contribution is above 3.6%. Collectively, the 10 largest tenants accounted for about 17.4% of CLMT's gross rental income as at 31 December 2025.

10 Largest Tenants of CLMT

(as at 31 December 2025)

Tenant	Trade Sector	% of Gross Rental Income
Parkson Elite/Parkson	Departmental Store	3.6
Prott Sdn. Bhd.	Logistics	3.2
AEON	Departmental Store	2.5
Uniqlo	Fashion/Accessories	1.5
Padini Concept Store	Fashion/Accessories	1.5
MMP Logistic Sdn. Bhd.	Logistics	1.2
Golden Screen Cinemas	Leisure & Entertainment	1.2
Watsons	Beauty/Health	1.0
Single tenant in European luxury fashion trade sector	Logistics	0.9
MUJI 无印良品	Departmental Store	0.8
Total		17.4

Portfolio Trade Sector Analysis

CLMT's portfolio is well diversified with different trade sectors contributing to rental income. As at 31 December 2025, Fashion & Accessories is the largest contributor to portfolio gross rental income at 26.9% followed by the Food & Beverage and Beauty/Health trade sectors at 18.8% and 11.5%, respectively. The top three trade sectors accounted for 57.2% of the portfolio's gross rental income.

Portfolio Trade Sector Analysis

(% of Gross Rental Income)
(as at 31 December 2025)

Note: Others include toys & hobbies, books & stationery, gifts & souvenirs, value store, etc.

Portfolio Occupancy Rate

CLMT achieved improved portfolio occupancy rate driven by its effective and proactive asset management plans. The occupancy rate of CLMT's retail segment improved to 93.7% as at 31 December 2025, whilst industrial and logistics segment remained fully occupied. This resulted in CLMT's portfolio occupancy rate of 94.9% as at 31 December 2025.

Occupancy Rate (%)

As at 31 December	2025	2024
Gurney Plaza	99.9	99.9
Queensbay Mall	99.9	99.5
East Coast Mall	100.0	99.6
The Mines	85.0	79.4
Sungei Wang Plaza	88.9	86.4
3 Damansara	82.1	80.0
Retail	93.7	92.0
Valdor Logistics Hub	100.0	100.0
Glenmarie Distribution Centre	100.0	100.0
Senai Airport City Facilities	100.0	-
Iskandar Puteri Facilities	100.0	-
Synergy Logistics Hub	100.0	-
Industrial and Logistics	100.0	100.0
CLMT Portfolio	94.9	92.8

Portfolio Rental Reversion

On an average rent basis, the incoming rent for CLMT retail segment registered an increase of 12.0% against the average outgoing rent for FY 2025. The average rents for ex-Klang Valley malls namely Gurney Plaza, Queensbay Mall and East Coast Mall continued to remain resilient with positive reversion of 11.9%. For the Klang Valley malls, Sungei Wang Plaza recorded double digit positive reversion, whilst The Mines and 3 Damansara also recorded positive rent reversions as these malls continue to charter progress on their respective turnaround plans.

For industrial and logistics portfolio, Valdor Logistics Hub renewed a lease during the financial year at an average renewal rent of 20.8% higher against average outgoing rent.

Summary of Renewals/New Leases for FY 2025

	New Leases/ Renewals ³	Area (sq ft)	% of Total Net Lettable Area	Variance over preceding average rental ^{1,2,4}	Contribution % against total new rent
Retail	392	1,113,039	23.5%	12.0%	97.3%
Ex-Klang Valley	261	735,832	15.5%	11.9%	79.8%
Klang Valley	131	377,207	8.0%	12.2%	17.5%
Industrial and Logistics	1	135,000	2.9%	20.8%	2.7%
CLMT Portfolio	393	1,248,039	26.4%	12.2%	100.0%

Notes:

1. Excluding newly created and reconfigured area; and short-term leases below one year.
2. Excluding gross turnover rent component.
3. Majority of leases have rental escalation clause.
4. The % is computed based on the increase of the average rental of the renewed term over average rental of the preceding term.

Retail Shopper Traffic and Tenant Sales Performance

CLMT retail segment recorded annual shopper traffic of 71.6 million, registering a slight decrease of 0.4% YoY. Correspondingly, FY 2025 tenant sales per sq ft declined slightly at 1.0% YoY on the back of cautious consumer sentiment.

Shopper Traffic (Million)

Tenant Sales Per Sq Ft (RM)

* East Coast Mall shopper traffic data anomalies were rectified upon discovery which resulted in data correction from January 2024. As a result, normalised CLMT portfolio shopper traffic for FY 2024 should be 71.9 million instead of 73.3 million as previously reported.

Portfolio Valuation

CLMT conducted an independent valuation of its portfolio as at 31 December 2025 and the methodologies applied included Income Capitalisation Approach (Investment Method), Comparison Approach and Cost Approach. The CLMT portfolio was valued at RM5.5 billion, an increase of 7.0% YoY with unchanged capitalisation rates for the respective properties. The higher portfolio valuation was largely attributable to the acquisitions of new industrial and logistics assets namely Senai Airport City Facilities, Synergy Logistics Hub and Iskandar Puteri Facilities. On a like-for-like basis, overall portfolio value of eight properties increased by 1.5% YoY, contributed by uplifts from the Penang and Kuantan malls which have performed well in FY 2025.

The valuation for Gurney Plaza was conducted by Savills (Malaysia) Sdn. Bhd., whilst the valuations for Queensbay Mall, East Coast Mall, Sungei Wang Plaza and The Mines were conducted by PPC International Sdn. Bhd. The valuation for 3 Damansara was conducted by Henry Butcher Malaysia Sdn. Bhd. whilst Nawawi Tie Leung Property Consultants Sdn. Bhd. was the independent valuer for Valdor Logistics Hub, Glenmarie Distribution Centre, Senai Airport City Facilities and Iskandar Puteri Facilities. Synergy Logistics Hub was valued by JLL Appraisal & Property Services Sdn. Bhd.

CLMT aims to achieve a 20% asset under management composition for its industrial and logistics segment by 2028 from the current 7.9% as at 31 December 2025.

Portfolio Composition

(based on asset under management)
(as at 31 December 2025)

FY 2025 Fair Value Gains			36.3				

¹ Property yield is calculated by dividing annualised NPI for the period by the independent valuation of the property.

² Capitalisation rate refers to the reversionary capitalisation rate adopted by the independent valuers to derive the market value of each property.

³ Senai Airport City Facilities' property yield is not reflective of full and stabilised income due to staggered leasing with varying downtime, as well as one-off operating expenditure recorded in FY 2025.

Value Creation

CLMT is committed to delivering long-term sustainable returns to our Unitholders in line with our growth strategies to unlock and create value from our properties. CLMT also capitalised on inorganic opportunities to reinforce portfolio resilience.

Yield-accretive Acquisitions

▲ The acquisition of three freehold industrial properties in SAC marks CLMT's second foray into the industrial sector in Johor. SAC is a prominent integrated industrial development that supports Johor's rapidly growing high-technology manufacturing ecosystem.

▲ CapitaLand Malaysia REIT Management Sdn. Bhd.'s CEO, Yong Su-Lin on right with AME Elite Consortium Bhd's Group CEO, Dylan Tan on left.

Senai Airport City Facilities

On 5 February 2025, CLMT announced the acquisition of three freehold industrial properties in Senai Airport City (SAC), Johor via a conditional sale and purchase agreement signed between MTrustee Berhad (the Trustee of CLMT) and Rainbow Entity Sdn. Bhd., a subsidiary of Gromutual Berhad which is listed on Bursa Malaysia. The purchase consideration of RM72.0 million was arrived at on a "willing buyer, willing seller" basis based on the market value of RM72.5 million as appraised by Nawawi Tie Leung Property Consultants Sdn. Bhd. (Nawawi Tie Lung Property Consultants), an independent firm of registered valuers, in its valuation report dated 23 January 2025. CLMT completed the acquisition on 4 September 2025 and income contribution from these industrial properties commenced in 4Q 2025.

Five industrial facilities in i-TechValley, Iskandar Malaysia

CLMT announced a forward purchase to acquire five high-specification industrial facilities in i-TechValley, Iskandar Malaysia, Johor on 22 December 2025, via the signing of three conditional sale and purchase agreements between the Trustee and Greenhill SILC Sdn. Bhd. (Greenhill SILC) and two conditional sale and purchase agreements between the Trustee and Pentagon Land Sdn. Bhd. (Pentagon Land). Both Greenhill SILC and Pentagon Land are wholly-owned subsidiaries of Bursa Malaysia listed-AME Elite Consortium Berhad. The agreed value of RM220.8 million, negotiated on a "willing buyer, willing seller" basis, is at a discount of 0.6% to the independent market valuation of RM222.1 million appraised by Nawawi Tie Leung Property Consultants on 2 December 2025. The facilities are expected to be completed progressively from 1Q 2027 to 1Q 2028.

Equity Fundraising

On 8 August 2025, CLMT successfully completed a private placement exercise of 409.8 million new units at an issue price of RM0.61 per unit and raised a total gross cash proceeds of approximately RM250.0 million. This would reposition and strengthen our balance sheet for future growth, allowing us to repay existing bank loans incurred in connection with the earlier acquisitions of industrial and logistics properties, including Senai Airport City Facilities, Iskandar Puteri Facilities, and Synergy Logistics Hub. The placement exercise is in line with CLMT's prudent capital strategy to optimise financing ratio, providing financial headroom for future acquisitions while maintaining balance sheet flexibility.

Enhancing Property Value through Asset Enhancement and Leasing Strategies

As part of the strategy plan to drive organic business growth, CLMT embarked on value creation initiatives by way of asset enhancement initiatives (AEIs) and targeted leasing initiatives. In FY 2025, concerted asset enhancement and leasing efforts were deployed in several of CLMT's retail properties, with the aim to elevate the lifestyle and retail experience for our shoppers.

Asset Enhancement Initiatives to Elevate Mall Appeal

Gurney Plaza

Gurney Plaza successfully implemented reconfiguration exercises in the second and third quarters of the year, expanding the net lettable area on Level 2 and Level 7 by approximately 2,700 sq ft, while refreshing the tenant mix and optimising the layout within the zones to bolster the overall offering. The space on Level 7 has been revitalised and enhanced with improved brightness to elevate the overall ambience.

▲ New and refreshed offerings such as Popular, Kidster and Oh!Some now occupy Level 7.

3 Damansara

The mall also embarked on the next phase of its rejuvenation plans in the third quarter of 2025, involving the reconfiguration of over 21,000 sq ft of net lettable area on the ground floor of the mall. The AEI was completed in November 2025 and the mall expects to welcome more new food and beverage (F&B) brands at the alfresco dining area, enhancing the diverse mix of dining options alongside its existing established F&B tenants such as Zai San Bei and The Brew House.

▲ Zai San Bei and The Brew House offer alfresco dining at 3 Damansara.

Asset Enhancement Initiatives to Elevate Mall Appeal (continued)

▲ Game On Theme Park at The Mines is one of the largest indoor theme parks in Klang Valley and it features more than 30 attractions designed for all ages.

The Mines

A tactical AEI to transform The Mines' East Court into the largest Game On Theme Park (spanning over 60,000 sq ft) occupying Level 3 to Level 5, featuring a 16-metre vertical ninja challenge obstacle course, as well as over 30 other attractions including a water play zone that is unique to The Mines' outlet. The AEI to introduce more activity-based offerings was successfully completed in 4Q 2025, with Game On Theme Park opened in December.

Proactive Leasing Management to Improve Tenancy Mix

Gurney Plaza

Gurney Plaza further strengthened its tenancy mix by introducing new brands for food and beverage (F&B), such as the likes of Madam Kwan, Xiang Xiang Hunan Cuisine, ShanXin and Chagee's first Penang Flagship Store; beauty/health brands such as The Ordinary, Armani, Aesop expansion and Rituals, as well as other new brands like Tesla Experience Centre, Harvey Norman and New Balance.

▲ Tesla and APM Monaco are among the established new brands in Gurney Plaza.

Queensbay Mall

Queensbay Mall enriched its F&B offerings with Oriental Kopi, Shabu-Yo, Zok Noodle House (竹面馆), Souper Tang (汤师父), and Kenangan Coffee. The fashion line-up was strengthened with MLB, New Era, and Tiny Button London, complemented by sports and fitness brands Running Lab/LIV Activ and Wilson, as well as shoes and bags retailers Boarding Gate and Kipling. Other notable additions include Jo Malone, Rituals, Flying Tiger Copenhagen, Miniso, and Star Archery in leisure and entertainment.

▲ The addition of Oriental Kopi at Queensbay Mall proved to be a popular hit among shoppers.

Proactive Leasing Management to Improve Tenancy Mix (continued)

East Coast Mall

We upgraded the former hypermarket (AEON Big) to an AEON supermarket which offers a wide selection of fresh produce, AEON Delicatessen, Coco Cafe, and La Boheme bakery. Other new inclusions are Chagee, Mixue, New Balance, ASICS, Sometime by Asian Designer, Alha Alfa and Osmanli Oud.

▲ Thong Bowl was introduced in December 2025 and unlocked cravings for East Coast Mall shoppers.

The Mines

To complement the AEI of the largest Game On Theme Park, we also introduced other activity-based attractions in the same year, including Kin+Zo Land (approximately 25,000 sq ft), a farm-themed indoor children's playland with go-karting.

In addition, our retail mix has been strengthened with the signing of Jaya Grocer and Mr D.I.Y. Plus, which will anchor Level 1 of the South Court which are slated to open by mid-2026.

▲ Q Pocket is a variety chain store offering adorable toys and collectibles from different intellectual properties, home decorations, lifestyle accessories and much more.

Sungei Wang Plaza

We also upgraded the former supermarket space, transitioning from Giant to Cold Storage, now offering a curated range of imported selections alongside essential local favourites to better serve the daily needs for both local and tourist shoppers. New F&B additions include popular kopitiam concept Bungkus Kaw Kaw and 101 Grill & Bar, further enhancing the mall's dining variety.

▲ Cold Storage was launched on 30 October 2025 to refresh the grocery shopping experience at Sungei Wang Plaza.

3 Damansara

To further elevate the lifestyle experience, we introduced Idea Live Arena, a brand-new international entertainment and live performances event hall which spans ~61,000 sq ft on Level 2. Other new offerings include Impulse Gaming, a haven for gamers and collectors, and an expanded F&B mix featuring F&B including Ah Yip Herbal Soup, MIXUE, Gai Kitchen, The Meat Experts and Zai San Bei.

▲ Popular ice cream, fruit and bubble teas offerings, MIXUE opened to 3 Damansara's shoppers in August 2025.

Investor & Media Relations

We proactively maintain timely, objective and transparent communication with our stakeholders which are fundamental principles for nurturing alignment of expectations between us and our stakeholders.

Timely Disclosure of Information through Various Channels

To facilitate the prompt dissemination of material information, all announcements and relevant materials are published on Bursa Malaysia, in compliance with the requirements of Main Market Listing Requirements. The news and updates are also distributed to the media, where relevant, and uploaded on CLMT's corporate website, including news releases, quarterly financial announcements, investor presentations, annual reports and general meetings-related materials. Investors may also sign up for email alerts subscription to receive the latest business updates of CLMT. Feedback and enquiries can also be sent to the Manager through the "Ask-Us" link (ask-us@clmt.com.my) on the website.

Guided by our Unitholders' Communication and Investor Relations Policy, we advocate a regular and fair communication channel with our stakeholders. The policy is accessible on CLMT's corporate website (www.clmt.com.my).

Regular Engagement with Stakeholders

The senior management and Investor Relations & Sustainability (IR&S) team regularly engage with its stakeholders to provide updates on material information and ensure the investor community understands CLMT's business strategy, operational and financial development. Analyst and investor briefings are held quarterly to provide regular updates on CLMT's financial and operational performance and address their queries. These sessions are recorded and uploaded on CLMT's website, allowing accessibility to all stakeholders including the public. This approach ensures a transparent communication between CLMT and all stakeholders, thus enables them to make an informed investment decision accordingly. Internally, IR&S team provides regular updates to keep the Board and the senior management of the Manager informed about market perceptions, expectations and concerns on CLMT's performance.

Additionally, CLMT continues to voluntarily make announcements to share the details and rationale pertaining to its investment propositions of acquisitions. On 5 February 2025, CLMT announced the proposed acquisition of three industrial properties in Senai Airport City, Johor and the acquisition was completed on 4 September 2025.

Various platforms are utilised to facilitate effective engagement with the investment community and expand our reach to them, including physical meetings, virtual briefings, investor conferences, roadshows, property tours and general meetings. A total of six property tours were conducted in 2025 and detailed narrations in relation to the visited retail, industrial and logistics assets were provided during the tours to deepen visitors' understanding on the assets and prospect.

▲ Conducted property tours to logistics properties in April 2025 with investors.

▲ Conducted property tour to Johor industrial facilities with analyst and fund managers in September 2025.

As a member of the Malaysian REIT Managers Association (MRMA), CLMT actively engages and participates in discussions with government bodies, regulators and industry stakeholders on pertinent issues relating to the investability of M-REITs through MRMA.

General Meeting

CLMT's Annual General Meeting (AGM) and Unitholders' Meeting were held on 4 April 2025 and 22 July 2025 respectively. Unitholders were invited to submit substantial and relevant questions in advance and allowed to raise questions during the AGM and Unitholders' Meeting. Voting results showcasing all resolutions passed during these Meetings were announced to Bursa Malaysia, whereas meeting minutes and CLMT's responses to all the investors' questions were published to CLMT's website ensuring all stakeholders have equal access to the same information and clarifications.

Research Coverage

CLMT maintains close communication with sell-side research houses to ensure that their independent views follow the latest business developments of CLMT and are thereby accurately reflecting the intrinsic value of CLMT stock for investment community's evaluation. As at 31 December 2025, CLMT stock was covered by five equity research houses and here is a summary of the post-results coverage on the latest announced 4Q 2025/FY 2025 results:

Queensbay Mall

Located in Bayan Lepas – the heart of the high-tech Free Industrial Zone along the southeastern shorefront of Penang island, Queensbay Mall is easily accessible given its location which enjoys close proximity to two bridge connections (Penang Bridge and Sultan Abdul Halim Muadzam Shah Bridge) as well as the Penang International Airport. It is a free-standing eight-storey shopping centre with a lower ground floor and a lower ground mezzanine comprising five floors of retail space and car parks.

As one of the largest shopping malls on Penang island, Queensbay Mall houses international and home-grown brands including fashion, lifestyle, dining, entertainment, sports, electronics, home furnishing and a department store.

3 Damansara

3 Damansara is a four-storey shopping mall that is strategically located at the intersection of two major highways, being the Sprint Highway and Lebuhraya Damansara Puchong Highway, making it easily accessible from Kuala Lumpur and various parts of Petaling Jaya.

As a niche community mall within an integrated development, 3 Damansara is well positioned to serve the residents from the surrounding established mix of high density and affluent landed residential estates as well as the neighbouring office catchment.

Synergy Logistics Hub

Synergy Logistics Hub is a 40-metre-high, single-storey automated warehouse equipped with an automated storage and retrieval system (ASRS). ASRS is a computer-controlled system that employs cranes and robotics to efficiently automate the placement and retrieval of goods. By streamlining logistics operations, ASRS enables optimisation of warehouse space, enhances speed and accuracy, and reduces labour costs and human error. The property features 19 loading bays with hydraulic dock levellers and can handle over 30,000 pallets.

Strategically located with the Elmina Business Park, a 1,500-acre modern industrial and business park in Selangor, Synergy Logistics Hub offers excellent connectivity to major logistics routes in the Klang Valley, including the North-South Expressway, Guthrie Corridor Expressway, North Klang Valley Expressway, Damansara-Shah Alam Elevated Expressway, and Kuala Lumpur-Kuala Selangor Expressway.

Sustainability Management

About this Statement

In line with CapitaLand Investment's (CLI) sustainability focus, CapitaLand Malaysia Trust (CLMT) has been incorporating its environmental, social and governance (ESG) performance in its annual report. The report outlines CLMT's approach to integrating sustainability into its policies, structure, management, and operations. The report highlights the economic, environmental, social, and governance aspects of CLMT's operations. Through this report, CLMT hopes to share its sustainability commitment with its various stakeholders, including staff, investors, customers, business partners, supply chain partners and contractors, the community, and local authorities.

International Standards and Guidelines

This Sustainability Statement (Statement) is prepared in accordance with the Global Reporting Initiative (GRI) Standards 2021 and complies with the Bursa Malaysia's enhanced sustainability reporting requirements in the Main Market Listing Requirements to align with the National Sustainability Reporting Framework (NSRF)¹. The GRI Standards has been selected as it is an internationally recognised sustainability reporting framework that covers a comprehensive range of sustainability disclosures relevant to CLMT's business. This Statement also references the United Nations Sustainable Development Goals (UN SDGs). CLMT began aligning its climate-related disclosures with the Task Force on Climate-related Financial Disclosures (TCFD) recommendations in 2021, covering the four key areas of governance, strategy, risk management, and metrics and targets. With the TCFD recommendations now subsumed under the IFRS Foundation, we are preparing to incorporate the ISSB standards—specifically IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures, both of which are now effective. For CLMT, the application of the IFRS Sustainability Disclosure Standards is expected to commence for annual reporting periods beginning 1 January 2026.

Reporting Scope and Period

As a CLI-sponsored Real Estate Investment Trust (REIT), CLMT is managed externally by a wholly owned subsidiary of CLI which is CapitaLand Malaysia REIT Management Sdn. Bhd. (CMRM) (Manager). CMRM appoints external Property Managers who oversee the daily property operations. The Manager and Property Managers are responsible for the CLMT, property and portfolio operations of CLMT, and their respective teams are identified as employees of the CLMT.

This Statement covers CLMT's portfolio for the financial period from 1 January 2025 to 31 December 2025 unless otherwise indicated. As at 31 December 2025, CLMT's portfolio comprises 15 properties – six retail, six industrial and three logistics assets in Malaysia.

Taking guidance from the operational control as defined by the Greenhouse Gas (GHG) Protocol² Corporate Standard, the environmental performance of five retail properties which are under CLMT's operational control³ have been covered in this Statement. These properties are Gurney Plaza, Queensbay Mall, East Coast Mall, The Mines and 3 Damansara.

CLMT reports the energy and water consumption, waste generation and carbon emissions of the five retail properties, where available, while the other environmental metrics are being tracked and monitored internally. The Sponsor, CLI, is obtaining external assurance over its performance data and the Manager's performance data is included as part of the Sponsor's external assurance engagement.

As part of the efforts to improve Scope 3 GHG emissions, the Manager increased its data coverage to cover available data of 10 CLMT-owned but third-party operationally managed properties comprising Sungei Wang Plaza, Valdor Logistics Hub, Glenmarie Distribution Centre, Senai Airport City Facilities and Iskandar Puteri Facilities under category 13 (downstream leased assets – landlord and tenant emissions of owned properties not accounted for in Scope 1 and 2). This Statement also covers their consumption data for water and waste, as available, at the time of reporting.

¹ The NSRF was launched on 24 September 2024 by the Advisory Committee of Sustainability Reporting, an inter-agency committee which comprise representatives from Securities Commission Malaysia, Audit Oversight Board of the Securities Commission Malaysia, Bank Negara Malaysia, Companies Commission of Malaysia, Bursa Malaysia, and the Financial Reporting Foundation.

² This is developed by the World Resources Institute (WRI) and World Business Council for Sustainable Development (WBCSD), which sets the global standard on how to measure, manage and report greenhouse gas emissions.

³ This refers to CLMT-owned and CLI-operationally managed properties.

Independent Assurance

In strengthening the credibility of this Statement, this Statement has been subjected to the following:

- Independent assurance by KPMG PLT in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information (ISAE 3000 (Revised)) for selected indicators. It has been approved by the Board of Directors of the Manager.

The scope, subject matters and relevant conclusion(s) are provided below:

Type of Assurance	Subject Matter	Scope	Conclusion
Independent Assurance	Total Energy Consumption (within the organisation) (kWh)	The boundary covers Gurney Plaza, Queensbay Mall, East Coast Mall, The Mines and 3 Damansara only.	Based on the limited assurance procedures performed and evidence obtained, nothing has come to our attention that would cause us to believe that the Subject Matter for the financial year ended 31 December 2025 is not prepared, in all material respects, in accordance with the Applicable Criteria.
	Total Energy Intensity (within the organisation) (kWh/m ² /month)		

For the Independent Limited Assurance Report, please refer to pages 184 to 187 of CLMT Annual Report 2025.

CLI's Global Sustainability Report 2025, which also includes CLMT's properties and staff, is externally assured with reference to the International Standard on Assurance Engagements (ISAE) 3000. The CLI Global Sustainability Report 2025 will be published by 31 May 2026 on their website.

Feedback

The Manager welcomes feedback as it enables continual improvement in CLMT's sustainability policies, processes and performance. Please send your comments and suggestions to ask-us@clmt.com.my.

Sustainability Approach

Board Statement

CLMT is committed to growing in a responsible manner, delivering long-term economic value, and contributing to the environmental and social well-being of our communities. The material environmental, social and governance (ESG) factors have been identified with set targets for 2030, in alignment with the CLI 2030 Sustainability Master Plan (SMP), which was reviewed by the Board of the Manager of CLMT together with Management.

CLMT's ESG plan steers our efforts on a common course to maximise impact through building portfolio resilience and resource efficiency, enabling thriving and future-adaptive communities, and stewarding responsible business conduct and governance.

The Board of the Manager of CLMT is responsible for overseeing CLMT's sustainability efforts, and takes ESG factors into consideration in determining its strategic direction and priorities. The Board of the Manager of CLMT also approves the executive compensation framework based on the principle of linking pay to performance. The Manager's business plans are translated to both quantitative and qualitative performance targets, including sustainable corporate practices, and are cascaded throughout the organisation.

Sustainability Commitment

CLMT's sustainability targets and efforts are guided by CLI. The Manager and the Property Managers who oversee the operations of CLMT abide by CLI's sustainability framework, policies and guidelines, as well as ethics and code of business conduct. The CLI 2030 SMP serves as a strategic blueprint, outlining CLI Group's ambitious goals and directing its sustainability efforts towards a shared purpose. The CLI 2030 SMP will be reviewed regularly and adjusted where necessary, to complement CLI Group's business strategy and align with climate science.

For each of the three ESG pillars and their respective focus areas, specific pathways have been identified to achieve the sustainability objectives and strategies will be adapted as technologies and stakeholder expectations evolve and new climate innovations become available. For more information on CLI 2030 SMP, please visit

<https://www.capitaland.com/en/investment/our-impact/sustainability/cli-sustainability-master-plan-policies-and-guidelines.html>. Guided by the CLI 2030 SMP, CLMT is committed to reducing absolute Scope 1 and 2 emissions reduction targets aligned with a 1.5°C trajectory⁴ and aims to achieve Net Zero⁵ by 2050 for its Scope 1 and 2 emissions. Aligned with CLI, CLMT also aims to conduct a comprehensive review of its Scope 3 emissions to better track and disclose its material Scope 3 emissions, and is committed to developing Scope 3 emission goals aligned to science-based targets. Over the next decade, as part of CLI's roadmap to Net Zero, CLI and CLMT will prioritise the decarbonisation levers based on the carbon mitigation hierarchy (refer page 51), and in particular, continue to source globally for new ideas and technologies to achieve higher energy efficiency and intensify its renewable energy integration efforts.

CLI 2030 Sustainability Master Plan Focus Areas

⁴ This is using the absolute contraction approach.

⁵ This refers to net greenhouse gas emissions. For more information on greenhouse gases covered by the target, please refer to the GHG Emissions Data Methodology on page 218 of CLMT Annual Report 2025.

Carbon Mitigation Hierarchy

Group-wide Commitment and Involvement

CLI Board, Management and Staff

CLI's Group-wide sustainability management is under the purview of a CLI Board Committee – the Executive and Sustainability Committee (ESC), that is chaired by the CLI Chairman. The CLI ESC is responsible for overseeing CLI's sustainability strategies and goals, including providing guidance to management and monitoring progress against achieving the goals of sustainability initiatives. The CLI ESC is supported by the CLI Group Sustainability department and the various work teams to drive continued progress and improvement in ESG. The work teams comprise representatives from various CLI business units and corporate functions. Each business unit has its own Environmental, Health and Safety (EHS) Committee to drive initiatives in countries where it operates with support from various departments.

CLI Sustainability Management Structure

* Includes EHS Internal Audit and Environment Tracking System

** Including climate-related risks and opportunities

CLMT Sustainability Management Structure

CLMT Board, Management and Staff

The Board of the Manager recognises the importance of sustainability as a business imperative and ensures that sustainability considerations are factored into CLMT's strategy development. This enables CLMT to remain competitive and resilient in an increasingly challenging business environment.

The Board of the Manager considers sustainability issues as part of CLMT's strategic formulation, confirms the material ESG issues listed by the Manager and oversees the management and monitoring of the material ESG factors. The Board of the Manager determines CLMT's risk appetite, which guides the nature and extent of material risks that CLMT is willing to take to achieve its strategic and business objectives. The Manager conducts an annual Risk and Control Self-Assessment (RCSA) to assess and document ESG-relevant material risks. As part of the material risk issues being highlighted, climate change has been identified as critical. The Board is actively involved in discussions on climate-related initiatives and regularly reviews climate change risks as part of its Enterprise Risk Management (ERM) Framework.

The Board of the Manager is kept informed on a regular basis through the quarterly Board meetings on CLMT's sustainability management performance, key material issues identified by stakeholders, and the planned follow-up measures. The update covers various climate-related topics, including progress updates of the 2030 SMP, climate-related risks and opportunities, green capital expenditure, green ratings of properties, and performance metrics, as well as stakeholder expectations regarding climate change. The Board is also informed of any incidents relating to workplace safety, business malpractice and environmental impact, which may include climate-related damage or disruptions. As environmental impact factors are considered as part of the asset investment evaluation process and strategy, these are brought to the Board's attention when relevant.

A Sustainability department led by the CEO of the Manager drives CLMT's sustainability initiatives, and strategies directly to ensure greater focus on sustainability and climate-related matters. The CEO is responsible for CLMT's ESG performance and the Sustainability Department works closely with key members from various departments of the Manager including finance, investment and asset management, as well as operations department and technical teams of CLI in carrying out ESG strategies and relevant activities, abiding by CLI's sustainability framework and policies. The Property Managers have an EHS Committee and is supported by an Engineering, Systems and Sustainability team whose role includes integrating sustainability into operations.

To support oversight and management of key sustainability risks and opportunities, including those related to climate, selected sustainability targets are integrated into the CLMT Performance Unit Plan, Restricted Unit Plan and Balanced Scorecard framework to determine executive remuneration and KPIs.

Measured against Global Benchmarks

CapitaLand was one of the first companies in Singapore to voluntarily publish an annual Global Sustainability Report since FY 2009, and has had the entire report externally assured since FY 2010. Benchmarking against an international standard and framework that is externally validated helps CapitaLand to overcome the challenges in sustainability reporting that may arise from its portfolio of diverse asset types and geographical presence globally.

CapitaLand has been a signatory to the United Nations (UN) Global Compact since 2015 and is a signatory of the UN-supported Principles for Responsible Investment (UNPRI), as part of its commitment to invest responsibly.

CLI's global sustainability reporting (GSR) has evolved into a uniquely hybrid model using the Global Reporting Initiative (GRI) Standards and Greenhouse Gas (GHG) Protocol (operational control method) since 2009, GRESB since 2013, Value Reporting Foundation's Integrated Reporting Framework since 2015, UN Sustainable Development Goals (SDG) Reporting since 2016, Task Force on Climate-related Financial Disclosures (TCFD) framework since 2017, and Sustainability Accounting Standards Board (SASB) Standards since 2020.

CLI will continue to enhance its disclosures in accordance with these standards and work towards preparing for International Sustainability Standards Board's (ISSB) Standards relating to climate reporting. CLI's Global Sustainability Report (GSR) 2025 will be published by 31 May 2026 on their website. CLI's GSR will continue to be externally assured with reference to the International Standard on Assurance Engagements (ISAE) 3000, and will cover CLI's global portfolio and employees, including its listed Real Estate Investment Trusts (REITs) and business trusts – CapitaLand Integrated Commercial Trust, CapitaLand Ascendas REIT, CapitaLand Ascott Trust, CapitaLand China Trust, CapitaLand India Trust and CapitaLand Malaysia Trust, unless otherwise indicated.

CLMT is guided by externally validated international standards and frameworks in its sustainability reporting. This Statement is prepared in accordance with GRI Standards, in alignment with GRESB and incorporates elements of the International Integrated Reporting Commission framework, and references the UN SDGs. CLMT is progressively incorporating climate-related disclosures in alignment with the NSRF. In 2025, CLMT improved on its second GRESB Real Estate Assessment and has received a 4-Star rating, up from the previous 3-Star. As a testament to its efforts to enhance ESG standards and improve disclosures, CLMT continues to be listed in ESG indices. In the semi-annual review of the FTSE4Good Bursa Malaysia Index in December 2025, CLMT's 4-star ESG rating score recorded improvements.

Creating Value and Alignment to UN SDGs

As a CLI-sponsored REIT, CLMT's material ESG issues and the value created, aligned to CLI's 2030 SMP focus areas and commitments, are mapped to the International Integrated Reporting Commission framework's six integrated reporting Capitals – Environmental, Manufactured, Human, Social and Relationship, Organisational and Financial. This is further mapped against eight UN SDGs that are most aligned with CLI's 2030 SMP focus areas, and where CLI and CLMT can achieve the greatest positive impact.

Focus Areas	CLMT's Commitments	Capitals and UN SDGs
Environment (Build) Portfolio Resilience and Resource Efficiency		
Low Carbon Transition	- Transit to a low-carbon business, reduce energy consumption through improved energy efficiency and increase use of renewable energy - Green operational portfolio by 2030 - Strengthen portfolio's climate resilience by addressing climate-related risks and opportunities throughout the real estate life cycle - Influence supply chain to operate responsibly in the area of environmental management through CLI's Supply Chain Code of Conduct	Environmental Capital Manufactured Capital      
Water Conservation and Resilience	Reduce water consumption, reuse water and prevent water pollution	
Social (Enable) Thriving and Future-Adaptive Communities		
Human Capital	Adopt consistent, equitable, and fair labour policies and practices in rewarding as well as developing staff as staff can make a significant contribution based on their talent, expertise and experience, regardless of ethnicity, age or gender	Human Capital Social and Relationship Capital Manufactured Capital
Health and Wellness	Aim to provide a safe work environment that contributes to the general well-being of staff, tenants, contractors, suppliers and the communities that uses its properties	 
Customer and Supplier Partnerships	- Leverage CLI's Supply Chain Code of Conduct to influence supply chain to operate responsibly in the areas of human rights, and health and safety - Commit to activities that are aligned with its focus on community investment. Engage stakeholders to raise awareness in the areas of philanthropy, environment, health and safety, as well as promote sustainability with its tenants	 

Focus Areas	CLMT's Commitments	Capitals and UN SDGs
 Governance (Steward) Responsible Business Conduct and Governance		
Board Diversity	Guided by a Board Diversity Policy to ensure its Board comprises talented and dedicated Directors with a wide mix of expertise (including industry, domain and functional expertise), skills, experience (including international experience) and perspectives. This is with due consideration to diversity in gender, age, tenure, ethnicity and culture, and geographical background including nationality, as well as any other relevant aspects of diversity	Organisational Capital Human Capital 
Corporate Governance	- Commit to meeting high standards of risk management in the way it conducts its business. Staff are required to understand and be responsible for ensuring that risks are managed effectively in their day-to-day work - Require third-party service providers and vendors to adhere to anti-bribery and anti-corruption provisions - Leverage CLI's Supply Chain Code of Conduct to influence supply chain to operate responsibly in the area of anti-corruption	
 Economic (Steward)		
	Integrate ESG performance with financial metrics	Financial Capital

Stakeholder Engagement

Stakeholders are groups which CLMT's business has a significant impact on and groups who have a vested interest in its operations. Key stakeholders include CLMT staff, investors/Unitholders, tenants and shoppers, business associates, contractors and suppliers, and the local community. Other groups include regulators and key government agencies, non-governmental organisations (NGOs), representatives of the capital market and the media. They are mapped into categories based on their impact on CLMT. Through the various engagement channels, CLMT seeks to understand its stakeholders' views, communicate effectively with them and respond to their concerns.

Commitment to Stakeholders	Engagement Channel	Topics	Capitals
Employees (Staff) CLMT develops high-performing people and teams through rewarding opportunities	- Regular dialogue sessions with senior management - Regular staff engagement surveys - Recreation activities - Volunteer programmes	- Work-life balance - Remuneration and benefits - Staff welfare	- Human Capital - Social and Relationship Capital
Investors (Investors, analysts and media) CLMT delivers sustainable unitholder returns and builds a strong network of capital partners	- Annual general meetings - Quarterly financial results announcements - Media releases and interviews - Annual reports - Company website - Regular analyst and investor meetings - Responses to sustainability surveys	- Operational efficiency, monetary savings, cost avoidance - Return on equity, earnings, business strategy, market outlook - ESG risks and opportunities	- Organisational Capital - Financial Capital - Social and Relationship Capital
Customers (Tenants and shoppers) CLMT creates great customer value and experiences through high-quality products and services	- Tenants: surveys, green fit-out guide, green lease - Shoppers: mall campaigns, exhibitions, social media campaigns	- Facilities management - Customer experience	- Environmental Capital - Social and Relationship Capital
Community (Supply chain partners – contractors, vendors, suppliers)	- CLL's Supply Chain Code of Conduct - Environmental, Health and Safety (EHS) management system - Quarterly EHS monitoring - Vendor evaluation, events, meetings and training - Active engagement with supply chain	- Occupational health and safety practices - Workers' welfare and well-being - Environmental compliance	- Environmental Capital - Human Capital - Social and Relationship Capital
Community (Government/ national agencies, the community and NGOs)	- The Boards of industry body such as Malaysian REIT Managers Association (MRMA) - Senior management representation on MRMA - Participation in external conferences/ forums/workgroups/focus group discussions to express thought leadership, share experience and collaborate with government officials, business associations	- Stakeholder programmes to advocate sustainable tenant/ customer behaviours - Advocacy of best practices	Social and Relationship Capital

Materiality

In alignment with CLI, CLMT identifies and prioritises the management of material ESG issues that are most relevant and significant to the REIT and its stakeholders. It adopts a double materiality approach, considering issues which are material from either the impact perspective or financial perspective or both. This include potentially material ESG issues arising from activities across CLI and CLMT's value chain (including potential risks and opportunities in the immediate and longer-term).

In 2025, CLI revalidated its ESG factors materiality with two key ESG surveys, namely GRESB and S&P Global's Dow Jones Best-in-Class⁶. It also referenced ESG standards and frameworks including (i) GRI standards and SASB standards for real estate owners/developers and investment trust; (ii) International Sustainability Standards Board (ISSB) Standards (S1 and S2); (iii) UN Global Compact (10 Principles) & UN Principles for Responsible Investment; and (iv) SGX Core ESG metrics and EU Sustainable Finance Disclosure Regulation (SFDR) questionnaire key topics. For CLMT, we review various sources including investor questionnaires, and ESG surveys, benchmarks and frameworks such as GRESB to enhance our understanding of the industry's material ESG issues.

Pursuant to the ESG factor materiality review exercise for CLI, including its listed REITs and business trusts, minor edits were recommended and endorsed to its ESG material issues after mapping against key ESG surveys (GRESB, Dow Jones Best-in-Class), other standards/frameworks and investor surveys. The revisions are made to (i) Climate resilience (adaptation

and mitigation) to reflect investors' specific focus on CLI and CLMT's climate-related efforts; (ii) Waste management to include mention of circularity, which encompasses upstream activities, such as use of recycled materials; (iii) Including reference to Natural capital as the Taskforce on Nature-related Financial Disclosure (TNFD) is increasingly being referenced, as natural capital will form the next ISSB standard : ISSB S3 whereby CLI is working on this new framework; and (iv) Artificial intelligence (AI) has been potentially surfaced for the risks and opportunities that it poses where CLI will continue to monitor this development.

As a CLI-sponsored REIT, CLMT is guided by CLI's materiality assessment process, where the Manager conducts regular reviews, assessments and feedback process in relation to ESG topics. Identified material issues are reported in CLMT's corporate risk register through the annual Group-wide Risk and Control Self-Assessment (RCSA) exercise, which identifies, assesses and documents material risks and the corresponding internal controls to manage those risks. These material risks include fraud and corruption, environmental (e.g. climate resilience), health and safety, and human capital risks which are ESG-relevant. Identified material ESG issues are then prioritised based on the likelihood and potential impact of issues affecting the business continuity of CLMT. For external stakeholders, priority is given to issues important to the community and applicable to CLMT. In FY 2025, the material ESG topics that were identified were approved by the Board of the Manager. Please refer to the box below for CLI and CLMT's prioritisation of ESG material issues.

⁶ The identified material ESG factors also partially mapped to other standards, questionnaires, specific investor queries. S&P Global Corporate Sustainability Assessment (CSA) is one of the most comprehensive, transparent survey and GRESB is sought by investors.

Prioritisation of ESG Material Issues

Environment

Critical

- Climate resilience (adaptation and mitigation)
- Energy efficiency
- Water management

Moderate and Emerging

- Waste management/circularity
- Biodiversity/Natural capital

Social

Critical

- Occupational health and safety
- Human capital
- Stakeholder engagement^a
- Product and services^b
- Supply chain management
- Diversity (Board and staff)

Moderate and Emerging

- Human rights^c

Governance

Critical

- Risk management^d
- Business ethics

^a This includes green leases and tenant engagement on ESG matters.

^b This includes products and services promoting customer health and safety, and green-certified buildings.

^c This relates to CLI's zero tolerance stance towards child/forced labour and covers CLI staff and CLI supply chain.

^d This includes consideration of compliance, economic performance and cybersecurity.

(Note: Indicators like Economic Performance, Market Presence and Governance are not included as they are assumed to be material for all companies. Economic Performance/Market Presence have been challenged by external parties for not being ESG indicators, and thus not included as a factor.)

Environmental and Manufactured Capital

Targets and Performance

CLI's 2030 SMP outlines the targets and pathways for transition to a low-carbon business that is aligned with climate science. Targets related to the reduction of energy, water usage, carbon emissions and waste, as well as for the usage of renewable energy, are set for its operational portfolio. CLMT has incorporated some ESG KPIs, most of which are linked to remuneration for its staff, including senior management.

2025 Key Performance Indicators

Environmental (Build)	2030 Target	CLMT 2025 Performance
Low-carbon Transition	Achieve science-based target of reducing carbon emissions (Scope 1 and 2) by 46% from 2019 baseline	8.81% increase in absolute Scope 1 and 2 GHG emissions
	Reduce carbon emissions intensity by 72% per m ² from 2019 baseline	16.70% reduction in carbon emissions intensity
		Continue to enhance climate-related disclosures
	Reduce energy intensity by 15% per m ² from 2019 baseline	11.93% reduction in energy consumption intensity
	45% of total electricity consumption from renewable sources	0%
	Achieve a minimum green rating for all operating properties*	63% of CLMT portfolio by GFA are minimally BCA Green Mark certified or equivalent
Water Conservation and Resilience	Reduce water consumption intensity by 15% from 2019 baseline	13.75% reduction in water consumption intensity
Waste Management and Circular Economy	Reduce waste intensity by 20% from 2019 baseline	38.30% reduction in waste intensity
	Achieve 25% recycling rate in its day-to-day operations	4.13% recycling rate
Annual Target		
Sustainable Operation Excellence	ISO 14001 certification for its EMS	Achieved: Retained ISO 14001 certification in Malaysia
	Manage risks of environmental impact	CLI's Environmental Management System (EMS) is externally audited annually, providing assurance to top management and external investors on CLMT's compliance and alignment to best practices

* Refers to CLMT-owned and CLI-operationally managed properties only.

Commitment to Minimising Environmental Impact

CLMT is committed to minimising its environmental impact by building a resilient and resource-efficient portfolio. CLMT incorporates environmental sustainability throughout the life cycle of its real estate investments, from acquisition, design, procurement, construction, operations to asset enhancement/redevelopment stages. It closely monitors and takes actions to mitigate the environmental impact of its business operations. The efficient use of environmental resources, such as energy and water, contributes to the operational efficiency and long-term sustainability of CLMT, as well as enhances resilience to climate change.

CLMT's approach to identify and manage significant potential environmental impacts on its operations are guided by CLI's Environmental Management System (EMS). The EMS is integrated with CLI's Occupational Health and Safety Management System (OHSMS) to form CLI's Environmental, Health and Safety Management System (EHSMS). Operational issues pertaining to climate change, energy and water are also identified and managed through the EHSMS. The EHSMS is audited by a third-party accredited certification body to ISO 14001 and ISO 45001. ISO 14001 and ISO 45001 are internationally recognised standards for the environmental management and occupational health and safety management of businesses, respectively.

All staff are involved in reducing CLMT's environmental footprint and are encouraged to be forthcoming and to report all incidences of environmental-related issues and complaints, as well as incidences of non-compliances and non-conformities.

As a CLI-sponsored REIT, CLMT is committed to protecting the environment and upholding the occupational health and safety (OHS) of everyone in the workplace (this includes implementing the EHSMS). We regularly conduct the following:

- Carry out exemplary EHS practices to minimise pollution as well as health and safety risks
- Seek continual improvement on EHS performance
- Comply with relevant legislations and other requirements
- Implement CLI Sustainable Building Guidelines and OHS programmes

These policies are readily available to all staff, suppliers, service providers and partners.

CapitaLand Investment's Sustainable Building Guidelines (SBG)

The SBG is an in-house guide developed by CLI to ensure environmental considerations and targets for low carbon transition, waste management and circular economy, water conservation and resilience, accessibility, health and safety, and supply chain management are embedded and incorporated in all stages of its properties' life cycles. The risks and opportunities of climate change are identified right from the design stage and all EHS considerations are factored in all stages of the projects. The SBG is regularly reviewed to ensure continuous improvement, with a focus on four key objectives of minimising carbon footprint and energy consumption, water management, reducing generation of waste and promoting biodiversity in the life cycles of its properties.

CapitaLand Investment's Environmental and Social Impact Assessment (ESIA)

A key component of the SBG is the mandatory ESIA which CLMT conducts during the feasibility stage of any potential acquisitions or investments in operational assets and development projects as part of due diligence.

Environmental (including climate change) risks or opportunities related to the asset/project sites and its surroundings are identified. These are highlighted in the due diligence reports and plans and the aim is to integrate climate change resilience considerations into the design, development and management of its properties. The assessment also covers performance metrics such as energy efficiency, as well as climate transition and physical risk and opportunity considerations.

CapitaLand Investment's Environmental Tracking System (ETS)

CLMT has been tracking the energy and water usage, waste generation and carbon emissions at our operating properties via CLI's online ETS platform since 2009. The ETS has been used to survey the various initiatives implemented at CLMT's properties including efficiency and water efficiency measures, nature-related risks, as well as physical risks, including flood risk and water management initiatives.

As a cloud-based platform, the ETS facilitates benchmarking on consumption patterns and helps identify opportunities for further operational efficiency improvements. It allows each property to conduct analysis against set targets and past trends to understand consumption patterns and identify areas for improvement. The consolidated data is analysed at CLI, the business unit, REIT and business trust levels against reduction targets. This facilitates a better understanding of consumption patterns and identification of areas for eco-efficiency improvements for its portfolio. Regular desktop audits are conducted to ensure data completeness and accuracy. Mandatory audit clauses to evaluate on ETS and safety data were embedded into the annual EHS internal audit for CLI and its global portfolio, including CLMT properties.

Stepping Up Green Measures

Green Financing

Sustainable financing remains an integral lever in helping CLI and CLMT achieve the sustainability targets. As at 31 December 2025, CLMT has RM2,079 million in sustainability-linked facilities and the interest savings generated from these facilities could further support CLMT's sustainability initiatives such as certification of green buildings, continuous improvement in building energy efficiency and sustainable water management.

FY	Amount (RM mil)
2022	60*
2023	693
2024	50
2025	1,279

* Note: The facility limit has reduced to RM57 million in 2025.

Green Lease

Beyond operating environmentally sustainable properties, CLMT understands the vital role that end-users of its buildings play. Collaboration with tenants is becoming more important so as to influence and support their sustainability goals. In 2024, CLMT implemented a green lease programme at its retail properties in Malaysia, where minimum equipment and lighting efficiency requirements are stipulated to tenants. As at 31 December 2025, about 52% of CLMT's new and renewed retail tenants contracts (excluding Sungei Wang Plaza) featured green lease clauses. CLMT has also included green lease clause to new tenant contracts of its industrial and logistics properties.

A green lease is a lease agreement that incorporates clauses whereby the tenant and landlord undertake mutually agreed responsibilities or obligations in relation to sustainable operation or occupation of a premise. It encourages collaborative efforts between the tenant and landlord such as the adoption of environmental-friendly fittings and design in the property space, as well as sharing of environmental data.

Tenant Awareness

CLMT encourages its retail tenants to adopt a sustainable and environment-friendly mindset as part of a successful collaboration to achieve sustainability goals.

Green Fit-Out Guide

A green fit-out guide is given to new retail tenants to encourage adoption of environment-friendly fit-outs, lighting efficiency requirements and promote sustainable practices and behaviour.

Green Seminar

Gurney Plaza conducted a green seminar to its tenants and staff on 3 October 2025 to raise awareness on the value of environmental stewardship and sustainability in the workplace. Participants were encouraged to embrace sustainable practices in their daily worklife and the benefits of adopting green initiatives and sustainable practices in their business operations.

Supporting Low-Carbon Transportation

Understanding the needs of increasing environmentally conscious among our stakeholders, plans are underway to roll out more electric vehicle (EV) charging stations in our portfolio in collaboration with Malaysian Green Technology And Climate Change Corporation and other reputable EV charging solution providers.

Commitment to Net Zero by 2050 and Achieving Carbon Emissions Reduction Target in Line With 1.5°C Scenario

As a CLI-sponsored REIT, CLMT is aligned with CLI's science-based targets set out in the 2030 SMP to transit to a low-carbon business, improve resource use and enable a circular economy. CLI's Scope 1 and 2 carbon emissions reduction targets were validated by the Science Based Targets initiative (SBTi) to be in line with a 1.5°C trajectory¹, currently the most ambitious designation available through the SBTi process. This will translate to Net Zero by 2050. As part of the Group, CLMT is committed to working towards the long-term and annual targets under CLI's 2030 SMP.

CLI has completed a comprehensive review of its Scope 3 emissions to better track and disclose its material Scope 3 emissions, and is working towards developing Scope 3 emission goals aligned to science-based targets. CLMT continues to improve its efforts to better track and disclose its material Scope 3 emissions by working closely, especially with its tenants and suppliers. For this Statement, CLMT continues to report on four Greenhouse Gas Protocol's Scope 3 categories. Category 13 Downstream Leased Assets accounted for 77% of CLMT's Scope 3 emissions. This was followed by Category 3: Fuel and Energy-related Activities at 17%; Category 5: Waste Generated in Own Properties at 6%; and Category 6: Business Travel, which accounted for 0.1%.

CLMT 2025 Carbon Emissions Footprint²

¹ The carbon emissions reduction target in line with a 1.5°C trajectory was elevated from its target of a "well-below 2°C" trajectory set in 2020.

² For more information, please refer to the GHG Emissions Data Methodology on page 218 of CLMT Annual Report 2025.

CLMT 2025 Environmental Performance

Carbon Emissions (Scope 1 + 2) (t CO₂e)

* This is computed mostly from purchased electricity consumption under Scope 2, and some direct energy consumption under Scope 1, as defined by the Greenhouse Gas (GHG) Protocol (operational control approach) and using individual country CO₂ emission factors retrieved from the International Energy Agency (IEA) Statistics – CO₂ emission factors from fuel combustion.

Carbon Intensity (kg CO₂e/m²/month)

Energy Consumption* (Within the Organisation) ('000 kWh)

Energy Intensity* (Within the Organisation) (kWh/m²/month)

* These are the consumption and intensity derived from Gurney Plaza, Queensbay Mall, East Coast Mall, The Mines and 3 Damansara during the reporting period. Sungei Wang Plaza, Valdor Logistics Hub, Glenmarie Distribution Centre, Senai Airport City Facilities, Iskandar Puteri Facilities and Synergy Logistics Hub are not within the scope boundary as these assets are deemed as CLMT-owned but third-party managed properties (Scope 3).

* Data collection of the property's energy consumption and intensity are based on energy consumption invoices (reflecting landlord's portion) and meter reading reports. Consumption sources are mainly derived from electricity and fuel. The computation for energy intensity is based on the property's gross floor area (excluding car park area).

This has been externally assured by KPMG PLT. Please refer to pages 184 to 187 for the independent assurance report.

Water Usage ('000 m³)

Water Intensity (m³/m²/month)

Carbon Emissions Reduction

In 2025, CLMT's total Scope 1 and Scope 2 carbon emissions 44,200 tonnes CO₂e. It reduced its carbon emissions intensity to 7.48 kg CO₂e/m²/month, which translates to a 16.70% reduction compared to the 2019 baseline.

Scope 1 emissions refer to direct emissions from activities controlled by CLMT. CLMT's Scope 1 data is derived from usage of diesel on an ad hoc basis. Scope 2 emissions are indirect emissions associated with its consumption of purchased energy. CLMT's Scope 2 data covered the purchased energy consumption relating to the operations for landlord-controlled areas. Scope 3 emissions are indirect emissions from activities not controlled by CLMT and we recognise the importance of monitoring and addressing them. Aligned with CLI, CLMT aims to better track and disclose its other material Scope 3 emissions. Since 2024, CLMT has been disclosing emissions associated with properties which are not operationally managed by CLI as part of Scope 3 disclosures. Material Scope 3 categories are disclosed in this Statement.

Energy Efficiency

Emissions from CLMT's operational portfolio form the majority of its Scope 1 and 2 emissions. Improving energy efficiency is the most impactful and cost-effective way to mitigate those emissions.

In 2025, the total energy consumption of CLMT's properties was 71,570 ('000 kWh) and almost all of it was contributed by indirect energy consumption for the landlord-controlled areas in CLMT properties. CLMT reduced its energy intensity by 11.93% from base year 2019.

CLMT continues to implement various energy conservation measures, some of which are listed below. It also focuses on innovation to reduce energy consumption.

Focus	Initiatives
Lighting	• Installation of LED fittings with motion sensors at staircase • Lighting power budget of not more than 22 Watts per m² for tenanted areas • Implement sub-metering
Equipment	• Replace equipment with higher efficiencies
Central Air Conditioning (AC) System	• Monitor daily system performance with Measurement & Verification (M&V) System • Identify areas for improvement and to optimise the AC system without compromising thermal comfort • Perform preventive and periodic servicing and maintenance • Conduct energy audit periodically
Control, Metering and Monitoring	• Conduct energy audits at the properties to improve energy efficiency • Upgrading of existing Building Management System

Renewable Energy

Renewable energy is an essential lever in the transition to a low-carbon economy. In 2024, The Mines participated in the Corporate Green Power Programme (CGPP) and successfully obtained a quota allocation of 7.2 megawatts of renewable energy.

CLMT will continue to explore renewable energy options for its portfolio, including opportunities to purchase green power and carrying out feasibility studies to install solar panels at its properties.

On-site Solar Panels

CLMT completed the two-phase installation of a solar photovoltaic (PV) system at Glenmarie Distribution Centre in Shah Alam which has been fully operational since October 2025. Solar panels with a capacity of 308.4 kWp were installed on the building, producing approximately 403,713.62 kWh annually and carbon avoidance of about 249,374 kg CO₂e, which supports the building's energy requirements and lowers reliance on non-renewable sources. Through these features, an estimated of 586,345 kWh/year is mitigated during operation or a 73.41% reduction in energy consumption compared to a conventional building.

Green Buildings

Green building ratings and certifications help assure and demonstrate the quality of CLMT's properties. They serve as an external validation that key environmental aspects have been considered and incorporated in CLMT's operations and refurbishments. CLMT targets to green all its owned and CLI-operationally managed properties by 2030 with each property achieving a minimum certification level by a green rating system administered by a national government ministry/agency/the World Green Building Council. In 2025, 63% of CLMT's gross floor area (based on CLMT-owned and CLI-operationally managed properties) achieved a minimum green rating.

CLMT-owned and CLI-operationally Managed Property	Award Category	Year of Award
The Mines	BCA Green Mark Gold ^{PLUS}	2024
3 Damansara	BCA Green Mark Gold ^{PLUS}	2024
Queensbay Mall	BCA Green Mark Platinum	2025

In addition, CLMT also made efforts to green its recently acquired industrial and logistics properties.

CLMT-owned, Third-party Managed Property	Award Category	Year of Award
Glenmarie Distribution Centre	LEED Gold	2025
Senai Airport City Facilities	GBI-certified	2025

Water Conservation and Resilience

CLMT is committed to reducing total water consumption, reusing water and preventing water pollution. Water usage and discharge for each property are monitored and checked regularly. Water usage is also monitored closely so that any fluctuations or anomalies can be identified and acted upon promptly. For CLMT properties, water is withdrawn from local municipal sources, and used in building systems such as irrigation and air-conditioning.

In 2025, CLMT's operational properties' total water usage was about 817,386 m³. Most of its water usage comes from cooling towers, toilets, washing activities and landscaping.

CLMT reduced its water intensity measured in m³/m² by 13.75% from base year 2019. To reduce water consumption, recycled water such as harvested rainwater is used for the toilet flushing system and washing the car park.

Proper water management ensures minimal wastage and promotes responsible use of this precious resource and the following initiatives have been implemented to ensure efficient operations and minimise water wastage in its properties:

Focus	Initiatives
Consumption Reduction	- Flow regulators; self-closing delayed action faucets/ motion-activated faucets; dual flush/low flush toilets - Choice of local plant species and drought resistance plants; irrigate plants in the morning or late afternoon to minimise evaporation loss - Source water reduction measures through CSXC to test acoustic leak detection, chemical and non-chemical cooling tower blowdown water treatment, and irrigation demand reduction
Control, Metering and Monitoring	Water audit; sub-metering to track consumption and early leak detection
Recycling and Reducing Reliance on Potable Water	- Basin water recycling; condensate recovery - Rainwater harvesting for landscape irrigation

Waste Management and Circular Economy

CLMT is committed to managing and disposing waste generated at its properties responsibly. As waste generated at its operational properties is mostly from its tenants, shoppers and the general public, CLMT engages its stakeholders through various means to reduce and recycle waste. For instance, recycling bins are available at its properties for its tenants, shoppers and general public. The collection and disposal of waste at its properties are being carried out by licensed contractors.

CLMT implements waste management strategies as part of its EMS. However, data were not readily available or could not be easily consolidated due to local supply chain data tracking challenges. CLMT aims to improve tracking of waste data at its properties and will continue implementing measures to reduce waste generation from its day-to-day operations. It targets to reduce waste generation (kg/m²) by 20% from its 2019 baseline and achieve 25% recycling rate

by 2030. In 2025, CLMT collected 6,578 tonnes of non-recyclable waste and 283 tonnes of recyclable waste, achieving a recycling rate of 4.13%.

Fabric Recycling

In collaboration with Kloth Cares, several malls participated in a fabric recycling initiative organised by CLI, aimed to not only cull away fabric from harming the landfills, but to also inculcate responsible recycling practice among shoppers. Through the installation of the fabric recycling bins, the neighbourhood communities can recycle their old garments, clothing accessories, footwear and shoes, bags, household textiles, children's toys and other fabric remnants at The Mines, 3 Damansara and Gurney Plaza. All the collected fabric items will be segregated according to different material categories at a designated fabric recycling factory, while suitable ones will be given away to charity homes. Since the implementation of this recycling effort in 2023, we have collected approximately 35,000 kg of unwanted fabric items.

Biodiversity

CLMT is committed to preserving the biodiversity of its sites as well as the wider area wherever possible. CLMT's properties are located within urban and built-up areas. As CLMT does not have any properties located within protected areas, hence there is no material biodiversity risk identified.

CLI continues to monitor the applicability of nature-related disclosure guidelines under the Taskforce for Nature-related Financial Disclosures (TNFD) and CLMT will be guided in this respect.

Managing Climate-Related Risks and Opportunities

CLMT recognises the risks that climate change can have on its portfolio and the opportunities arising from it. It aims to better understand and respond to physical risks, such as extreme weather events and rising temperature, as well as transition risks towards a low-carbon economy. Aligned with its Sponsor, CLMT is focused on low-carbon transition to mitigate transition risks, and on climate change adaption to build portfolio resilience against the physical risks from climate change.

Climate Resilience-Climate-Related Disclosures

CLMT started to align its climate-related disclosures with the TCFD recommendations in the four key areas of governance, strategy, risk management and metric and targets since 2021. With the publication of the ISSB IFRS S2 Climate-related Disclosures, CLI and its REITs, including CLMT, strive to continuously enhance its climate-related disclosures as aligned with international best practices.

Climate Transition Plan-Governance

- The Board of the Manager has specific oversight on sustainability matters, including climate-related issues for CLMT. Please refer to page 52 of this Statement for more information on the CLMT Sustainability Management Structure.
- The CLMT Board has specific oversight on sustainability matters, including climate-related issues for CLMT. The CLMT Board is updated quarterly during Board meetings on relevant climate-related topics including CLMT's alignment progress with CLI 2030 SMP. Discussions on the green capital expenditure plan required to meet the 2030 SMP targets (which also includes the decarbonisation targets) are conducted during an ad hoc (Special Board) meeting annually. Performance against 2030 SMP targets and Balanced Scorecard targets, including decarbonisation targets, is tracked and reported to the CLMT Board.
- Securities Commission Malaysia and Bursa Malaysia have rolled out prescribed ESG onboarding programme on sustainability for directors of Public Listed Companies on Bursa Malaysia. As at 31 December 2025, all Directors of the Board of the Manager have completed the programme.

Climate Transition Plan-Strategy

- CLMT's strategy to identify and address climate-related risks and opportunities spans across its entire real estate life cycle.
- CLMT factors climate-related costs and opportunities in its evaluation of new investments or capital expenditure, quantifying it with a shadow internal carbon price which was implemented in 2021.
- All new investments undergo the ESIA to identify any environmental risks and opportunities. The assessment also covers performance metrics such as energy efficiency, as well as climate transition and physical risk and opportunity considerations.
- CLI and its REITs, including CLMT, conducted its climate scenario analysis in 2022 for its global portfolio to understand how the identified climate-related risks and opportunities could impact future operations. The most recent climate scenario analysis that was the widest in coverage and deepest in impact assessment considered scenarios based on the latest global and scientific developments (scenarios from 1.5°C to 3°C for current to long-term time frames). The analysis guides CLI and CLMT in making informed decisions for its business with significant risk exposure, building resilience and reducing vulnerability of identified properties. For FY 2025, CLMT has reaffirmed that the outcomes of its 2022 climate scenario analysis remain relevant to its current portfolio.

Climate Transition Plan-Risk Management

- Climate change risks and opportunities are identified and managed through CLI and CLMT's externally certified ISO 14001 EMS and ERM framework. This includes an annual Group-wide Risk and Control Self-Assessment exercise to identify, assess and document material risks including relevant ESG risks, along with their key controls and mitigating measures.

Climate Transition Plan-Metrics and Targets

- CLI's 2030 SMP outlines the targets and pathways for transition to a low-carbon business that is aligned with climate science. Targets to reduce energy and water usage and carbon emissions, as well as green certification targets are set for its operational assets.
- CLMT is aligned with its Sponsor's targets found within the 2030 SMP and sustainability and climate-specific performance metrics and targets are linked to the remuneration policies for members of senior management.

Human Capital

Targets and Performance

CLI's 2030 SMP outlined its 2030 targets and pathways to enabling thriving and future-adaptive communities. To ensure accountability, CLI, including CLMT, incorporated KPIs, most of which are linked to remuneration for its staff, including top management.

2025 Key Performance Indicators

Enable	2030 Target	CLMT 2025 Performance
Human Capital Development	At least 40% female representation in Senior Management Level	63% female representation in CLMT Senior Management level
	Staff engagement score of at least 80% (with at least 85% participation)	85% CLI Malaysia employee engagement score 94% CLI Malaysia employee participation rate
Customer & Supply Chain Partnerships	At least 85% of CLI's staff to attend one ESG training programme	100% of CLMT staff attended at least one ESG programme
	Achieve high-level customer satisfaction	Tenant satisfaction rate of 80% in Malaysia
	CLI's supply chain commits to abide by CLI Supply Chain Code of Conduct*	100%* of CLI's supply chain in Malaysia acknowledged to abide by the CLI Supply Chain Code of Conduct.
	Green leases for new and renewal of leases	52% of retail tenants (excluding Sungei Wang Plaza) have signed green leases - Introduced green clause for new industrial and logistics leases
Perpetual Target		
Human Rights	Zero tolerance of child/forced labour in CLI	Achieved - Zero child/forced labour
Community	Contribute to communities' social well-being through outreach initiatives by staff and CapitaLand Group's philanthropic arm, CapitaLand Hope Foundation (CHF)	- CapitaLand Group contributed RM200,000, through CHF, worth of essential and educational supplies to support ~2,250 beneficiaries from orphanage homes, schools and low-income families in Penang, Klang Valley, Pahang and Johor under the #GivingBersama5.0 initiative 212 CapitaLand staff in Malaysia tapped on the volunteer service leave to contribute 1,737 hours for the #GivingBersama5.0 initiative
Health & Well-being	Foster a safety culture with zero fatality (Staff and Contractor)	- Achieved - Zero CLI staff fatality and permanent disability - Achieved - Zero contractor staff fatality and permanent disability - Achieved - Retained ISO 45001 certification in Malaysia

* This represents the supply chain vendors that signed a maintenance contract with CLI-owned and operationally managed properties. This includes the supply chain complying with its code of conduct which is equivalent to or more stringent than the CLI Supply Chain Code of Conduct (CoC). The CoC does not apply to contracts with the government, inter-company, relating to property acquisitions/divestment transactions, etc.

Commitment to a Healthy and Safe Workplace

Safeguarding the Occupational Health and Safety (OHS) of our staff, tenants, supply chain partners, and the communities where we operate remain our highest priority. At CLMT, we adopt CLI OHS Management System (OHSMS) framework, which has been externally audited by a third-party accredited certification body to ISO 45001, an international standard that provides a framework for organisations to manage occupational health and safety risks and improve overall safety performance. The OHSMS framework involves identifying and reviewing material issues, developing action plans, setting policies, ensuring accountability within CLMT and engaging stakeholders. We also abide by CLI's Environmental, Health and Safety (EHS) Policy which outlines our commitment to managing OHS issues.

CLMT champions OHS with commitment from the senior management and staff participation through an integrated EHS Management System (EHSMS) as well as stakeholder engagement activities. The CEO is accountable for the OHS performance of CLMT. Supplementing this management system is the Board which reviews major OHS incidents and helps to reinforce a strong culture of safety. In CLMT, staff are required to take personal responsibility for their OHS and are encouraged to report OHS incidents. CLMT strives to reduce occupational injury rate with the aim to achieve zero work related injuries resulting in employee permanent disability or fatality by adopting stringent OHS practices.

CLI has an internal audit system to assure EHS conformance and effective implementation that is aligned with the ISO 14001 and ISO 45001 standards. Internal audits are scheduled at least once a year across 22 countries, including Malaysia, covering 50% of the sites in each country. In addition, external audits are scheduled annually with an accredited third-party certification body. The annual EHSMS audits assure top management, including the Board of the Manager of CLMT, and external investors of CLI and CLMT's EHS legal compliance and commitment to best practices.

OHS Risk Management

Identifying OHS hazards and assessing their risks are key components in CLI's OHSMS. Hazards Identification and Risk Assessments are reviewed annually, or following an incident, or a significant change in processes. OHS hazards are identified from the administration, development and operational functions of CLMT's businesses, and their risks are assessed. Examples of hazards include slip, trip and fall, fall from height and falling objects. CLMT has established Standard Operating Procedures (SOP) to minimise the occurrence of such hazards.

Since October 2020, the ESIA was made mandatory when evaluating new investments. The results of the ESIA enable CLMT's investment team to consider OHS risks and opportunities upfront and to identify early mitigating measures earlier in the investment evaluation process.

To further strengthen safety, CLI introduced the Global Safety Guidelines (GSG), built on its current safety processes. Aligned with CLI, new guidance was introduced as CLMT continually seeks to strengthen its safety processes and practices across all its properties.

Enhancing Workplace Safety Culture

First Aid Training

To facilitate the effective implementation of CLI EHSMS, training and awareness programmes are organised as part of the integrated EHSMS training for staff. New staff are briefed on CLI's EHS policy and the roles of each staff. Heads of departments in administration and operations, including heads of operating properties, and design managers, undergo more detailed training programmes. In 2025, about 100% of CLMT staff attended at least one EHS-related training amounting to more than 1,200 hours. These include first-aid, chemical handling, safety, electrical safety, ergonomics, EHS incident and emergency response training.

Fire Drill

As part of the CLI's OHSMS, emergency response procedures are in place to address potential OHS risks. Periodic briefings and biannual evacuation drills are conducted at CLMT properties to familiarise tenants with the emergency response actions.

Measuring our Safety Performance

CLMT's OHS performance monitoring extends to all staff (both full-time and part-time) and contractors involved in the daily operations. In 2025, there was one work-related injury involving CLMT staff. The impacted CLMT staff have recovered and returned to work. Lessons learnt were shared and corrective actions were implemented using the hierarchy of controls, which included refresher safety training and installation of additional warning signs. To continually lift OHS performance, CLMT continues to monitor its OHS performance, reinforce OHS standards, and improve its SOPs.

2025 CLMT Staff Safety Performance Results

* Absentee rate was based on medical leave taken by CLMT staff, regardless of whether it was a work-related illness or not.

Staff Wellness

CLMT aims to provide a work environment that is safe and contributes to the well-being of its staff. The Sponsor has in place the CapitaLand Wellbeing Strategy which includes three components focus on Positive Mental Health, a Healthy Workplace, and a Safe and Inclusive Workplace, where each affect and overlap the others. Through this, CLMT seeks to uplift staff work performance, and strengthen engagement and commitment to the Company. In 2025, four staff well-being programmes and initiatives were organised, with the participation of more than 200 staff attendees. These programmes and initiatives were aligned with the six dimensions of wellness (Mental Health, Physical Fitness, Career Wellness, Social Wellness, Financial Wellness) of the CLI Wellbeing Programme. CLMT also organised training sessions for change management resilience and mental wellness-related topics. More than 110 staff participants clocked in over 175 hours for the sessions.

Tenants and Community Wellness and Emergency Preparedness

Ensuring a safe and pleasant environment for occupants, CLMT made efforts to design properties where possible with features such as high-efficient air filters to reduce pollutants, sensors, and monitoring systems to track and maintain good indoor air quality.

Supply Chain Management

CLMT works closely with its supply chain (vendors/suppliers/contractors) who are committed to high quality EHS standards. To influence supply chain partners to operate responsibly in the areas of anti-corruption, human rights, health and safety, as well as environmental management, the CLI Supply Chain Code of Conduct form the basis of CLMT's engagement with them. Through a structured procurement process, contracts are awarded after rigorous tender selection that includes a balanced evaluation of financial and non-financial criteria, including safety requirements. Supply chain partners were appointed upon meeting these stringent environments, health and safety and other business-related requirements. Our contractor management guidelines require all supply chain partners to comply with local government and other legal requirements. Preference is given to companies certified in ISO 14001 and ISO 45001 or its equivalent. In 2025, 100% of CLMT's supply chain agreed to abide by the CLI Supply Chain Code of Conduct¹.

¹ An extract of the CLI Supply Chain Code of Conduct is available on <https://www.capitaland.com/en/about-capitaland/sustainability.html#tab-0-social>.

Social Integration

CLMT is dedicated to creating safe, accessible, vibrant, and quality properties that enrich the lives of stakeholders and the communities surrounding our properties. In line with this commitment, CLMT adheres to the CLI's SBG which incorporate social integration standards. The SBG ensures that the accessibility and usability criteria are considered from the onset of any project development.

Universal Design considerations ensure that the public areas of our properties are accessible and welcoming of people of all ages and abilities. These include:

- Wheelchair-accessible parking lots
- Barrier-free access from wheelchair-accessible parking spaces to lift lobbies
- Sheltered and barrier-free drop-off areas
- Amenities such as wheelchair-accessible restrooms, lifts, and nursing rooms

Human Rights

Aligned with CLI, CLMT has an integrated human capital strategy to recruit, develop and motivate staff. Key performance indicators (KPIs) for both the business and people development are in place to align staff's performance goals with business objectives. CLMT provides staff with the appropriate training opportunities to help them perform well in their job.

The Sponsor has a Social Charter² approved by top management which sets out commitments to support the

preservation of human dignity and self-respect of every individual, covering topics on human rights, child labour, forced labour, human trafficking, code of conduct, diversity and inclusion, no discrimination, and healthy work-life balance. Other human rights-related policies such as grievance handling and harassment policies are also in place. The Social Charter is applicable to all staff and guides the CLI, including CLMT, towards ensuring a supportive and respectful environment for individuals across all aspects of its business and operations. CLMT abides by the Sponsor's Social Charter practices for its business in Malaysia.

Anti-Child Labour and Anti-Forced Labour

CLMT upholds the Sponsor's commitment to be a workplace of choice for employees and adheres to its policies on non-discriminatory employment practices and equal remuneration. As a signatory of the United Nations Global Compact (UNGC), CLI is committed to the 10 principles in the areas of human rights, labour, environment and anti-corruption. These 10 Principles of the UNGC are derived from the Universal Declaration of Human Rights, the International Labour Organisation's Declaration on Fundamental Principles and Rights at Work, the Rio Declaration on Environment and Development, and the United Nations Convention against Corruption. We have adopted the five key principles of fair employment³ advocated by the Tripartite Alliance for Fair and Progressive Employment Practices. We also adopt a zero-tolerance stance regarding child labour, forced labour and unlawful discrimination, and had no reported incidents of such in 2025. There were no CLMT staff below the age of 16.

² CLI Social Charter is available on https://www.capitaland.com/content/dam/capitaland-sites/international/about-capitaland/sustainability/policies/EXTRACT_OF_CAPITALAND_SOCIAL_CHARTER.pdf

³ The five key principles of fair employment are:

- (i) Recruit and select staff based on merit, such as skills, experience and ability, regardless of age, race, gender, religion or family status.
- (ii) Treat staff fairly and with respect and implement progressive human resource management systems.
- (iii) Provide staff with equal opportunities for training and development based on their strengths and needs, to help them achieve their full potential.
- (iv) Reward staff fairly based on their ability, performance, contribution and experience.
- (v) Abide by labour laws and adopt Tripartite Guidelines which promote fair employment practices.

Diversity, Equity and Inclusion

CLMT embraces diversity, equity and inclusivity regardless of age, religion, gender, ethnicity, nationality and family status. We believe that staff can make significant contributions based on their talent, expertise and experience. Having a gender diverse mix of staff is also a target in the revised 2030 SMP.

We actively seek innovative, dynamic and talented individuals, both internally and externally, with the right level of experience to build bench strength as well as talent pipeline for leadership succession planning. This is managed through the recruitment of talents across different career stages, from entry-level graduates to mid-career professionals and industry veterans. CLMT's vibrant, motivated and qualified workforce had 70% aged 30 to 50 in 2025, consistent with the past three years.

CLMT Staff by Gender, Age and Ethnicity

Gender Diversity and Pay Parity

CLMT's workforce comprises almost equal proportion of males and females, at a ratio of 48:52. Over the past three years, female representation in the management has ranged between 59% and 63%. In 2025, about 62% of management were female whilst about 63% were in the senior management level.

CLMT hires and rewards men and women fairly based on merit, ability, and experience for comparable roles across the organisation's hierarchy. Its hiring and incentive system focuses on performance and is gender-agnostic. Staff pay is benchmarked against the market based on job roles using gender-neutral pay surveys provided by independent remuneration consultants. For the 2025 exercise, no major pay gap was found⁴.

CLMT Staff by Seniority and Gender

⁴ The average gender pay gap (comparison is for base salary and other cash incentives) is about 8% in favour of females at Non-Executive and 12% in favour of males at Executive levels, and 13% and 5% in favour of males at management and senior management levels respectively.

Job Creation and Employment

CLMT is committed to providing meaningful jobs and talent mobility where employees are given opportunities to rotate across different job functions, subject to skills/competency requirements and business needs. Subject to business needs and work performance, employees who are able and willing can continue their employment beyond the statutory retirement age of 60. CLMT continues to employ these individuals at their last drawn salary if their work scope and responsibilities remain unchanged under its re-employment policy. In 2025, four employees aged 60 and above were rehired post-retirement.

In 2025, new hires represented 14% of the total headcount and 8% of the positions opened for recruitment were filled by internal candidates.

New Hires by Gender, Age and Ethnicity

In 2025, the turnover rate was 13% and there were no major layoffs in CLMT. 50% of staff have been with CLMT for more than five years. We also interview resigning staff as part of its continuing efforts to improve CLMT's retention policies and initiatives.

Voluntary Turnover by Gender and Age

Talent Management

We seek innovative, dynamic and talented staff to take CLMT into its next phase of growth and adopt a multi-pronged approach to manpower planning, i.e. developing internal talent and hiring young talent, mid-career professionals and industry veterans. CLMT continuously builds its management bench strength by identifying high potential talent as part of its regular succession planning process.

The Manager's Nominating and Remuneration Committee (NRC) regularly reviews the succession plans for the key positions including Chief Executive Officer and other key management personnel. On an annual basis, CLMT identifies and reviews suitably qualified candidates internally and externally who could be considered for key positions when the need arises in the immediate, medium, and long-term. CLMT also utilises a People Analytics Tool to offer insights into staff demographics, talent identification, promotion and transfer anomalies, staff performance, hiring and predictive attrition for better decision-making.

Positive Work Environment

CLMT is committed to providing a positive and vibrant workplace that promotes personal development, good health and well-being, and fulfilling careers to attract, motivate and retain talent. Initiatives such as flexible hours and work arrangements, comprehensive medical benefits, and employee engagement programmes to foster a culture of high performance and work-life harmony are implemented whilst part-time employees are also entitled to the same benefits as their full-time colleagues, on a prorated basis. We leverage CLM's robust performance management system to ensure that all employees receive regular performance and career development reviews.

All staff are entitled to family event leave. CLMT also provides paid leave for employees to care for their loved ones, including children, spouses, parents, parents-in-law, or siblings. These initiatives are over and above the local legal requirement. To encourage staff to give back to the community, CLMT also provides three days of Volunteer Service Leave for staff to participate in volunteering activities.

CLMT adheres to the respective social security contributions and the Employees Provident Fund (EPF) is a compulsory pension scheme for all Malaysians introduced by the Government to enforce savings by salaried workers for a more secure retirement. Under the EPF scheme, CLMT and its staff make monthly contributions to the staff's EPF account in accordance with the prevailing regulations. These contributions demonstrate CLMT's commitment to responsible business practices and ensuring its staff's financial security.

Aligned with CLM, CLMT continues to provide its staff with proactive measures such as flexible working time and

arrangements to empower staff with the autonomy of managing their schedules to achieve work-life harmony. Hybrid staff town hall meetings are also held where staff can hear directly from top management and at the same time have their questions answered. Various mental health awareness programme and initiatives continue to be organised to support staff well-being.

Fair Remuneration

Employment contracts with clearly stated terms and conditions are signed for all confirmed employees. This allows them to understand both their rights and obligations, as well as those of the Company, thus minimising potential employment disputes in the future. Key employment terms specified in the employment contract include the job title and description, duration of employment, working hours, salary and statutory contributions/deductions, leave entitlements, probation and notice periods, and insurance and medical benefits, etc.

We engage external independent remuneration consultants to benchmark the compensation packages against the relevant talent markets. Salaries are reviewed against the benchmarks, and each employee's specific job scope and responsibilities are considered. All regular full-time employees will undergo an annual performance review where there is an open discussion on the employee's performance, areas for improvement, developmental needs and career plans.

To reward and motivate employees, CLMT has a comprehensive and competitive compensation package and benefits programme. We observe a pay-for-performance philosophy that rewards superior performance, which aligns employee and unitholder interest to deliver business results. Sustainability targets were integrated into CLMT's Performance Share Plan, Restricted Unit Plan and Balance Scorecard framework to determine individual remuneration outcomes (financial and non-financial). CLMT's overall annual performance bonus pool is determined based on its achievement against a holistic set of quantitative and qualitative targets in the Balanced Scorecard dimensions of Financials, Execution, Future Growth, Talent Management and Sustainability (including Environment, Social, Governance and Workplace factors).

The amount of performance bonus awarded to employees are further based on their relative contributions and individual performance. The performance bonus consists of both cash and unit-based awards upon reaching a certain amount of threshold. The unit-based awards will vest over three years. The performance and remuneration of key management executives are based on both quantitative and qualitative targets within the Balanced Scorecard framework, including their efforts in building management bench strength and talent.

Upskilling the Workforce

To build a future ready workforce that is knowledgeable, competent, and adaptable, staff are equipped with the appropriate training to acquire the relevant knowledge and expertise to contribute effectively to CLMT's performance. Employees' training and development needs are discussed at the annual performance reviews with their immediate superiors and updated throughout the year. CLMT invested close to RM400,000 in 2025 towards learning and development, delivering over 7,000 hours of training and the average training hours completed by each staff for the year was about 26 hours.

In 2025, employees actively participated in various trainings and about 100% of staff attended at least one ESG training. CLMT employees who are also licensed representatives under the Securities Commission Malaysia (SC)'s Capital Markets Services Licence, recorded average of 28 training hours per employee, which was above the minimum requirement by the SC.

Learning and Development

In 2025, all CLMT employees completed at least one learning session with various talks and briefings organised to enhance employees' knowledge and stay current on latest trends.

Cultural Alignment Workshops

During the year, a series of Cultural Alignment Workshops were conducted by CLMT to strengthen shared values, reinforce desired behaviours, and deepen employees' understanding of the organisation's purpose and strategic priorities. These workshops provided a structured platform for open dialogue, reflection, and alignment across functions and levels,

enabling employees to translate core values and cultural beliefs into daily actions. Through facilitated discussions and practical case scenarios, participants gained greater clarity on how cultural alignment supports collaboration, performance excellence, and long-term sustainability, reinforcing a unified organisational culture across the business.

Artificial Intelligence Programmes

CLMT advanced its Artificial Intelligence (AI) programmes to enhance operational efficiency, support data-driven decision-making, and strengthen workforce capabilities. Targeted initiatives focused on building AI awareness, upskilling employees in relevant digital competencies, and piloting practical use cases across business functions. These programmes enabled employees to better leverage emerging technologies to improve productivity, optimise processes, and deliver value responsibly, while reinforcing the Group's commitment to innovation, governance, and long-term sustainable growth.

Staff Engagement

CLMT actively engages staff through various avenues, including formal and informal sessions, such as one-to-one catch-ups, luncheons and team bonding sessions. As a CLI-sponsored REIT, CLMT practises an open-door policy, allowing all staff to obtain a fair review and a prompt response to problems or concerns relating to any aspect of their employment. This includes harassment, grievance handling and whistle-blowing policies applicable to all staff. Staff can also raise their concerns to a higher level of management or to the Human Resource department, providing them with a confidential avenue for feedback on any work-related matters. All new hires must undergo an orientation programme that assimilates them to Sponsor's business operations, strategy, core values and management philosophy.

Employee Engagement Survey

In 2025, CLI launched its regular Company-wide Employee Pulse Survey (EPS) to measure staff well-being, amongst other factors. This survey was conducted through a third-party vendor to ensure confidentiality and to obtain authentic responses from its staff. CLMT staff participated in the EPS and secured a staff participation rate of 94%. CLMT achieved a staff engagement score of 85%, which was higher than the 2024 survey performance. With the detailed findings from the survey, the HR Business Partner has been working closely with the CEO to address the key issues within CLMT.

Social and Relationship Capital

CLMT's social and relationship capital are built through its community efforts. Over the long-term, this strengthens its social license to operate and ability to deliver sustainable value to its stakeholders.

Stakeholders are groups that CLMT's business has a significant impact on, and those with a vested interest in its operations. Key stakeholders include staff, investors/Unitholders, customers, business associates, contractors and suppliers, and the local community. Other stakeholders include regulators and key government agencies, non-governmental organisations (NGOs), representatives of the capital market and the media.

CLMT seeks to understand its stakeholders' views, communicate effectively with them and respond to their concerns through various engagement channels. The following sections outline areas that are of interest to its different stakeholders.

Stakeholder Engagement

Staff

CLMT actively engages its staff through various avenues, including regular staff communication sessions held by senior management, to facilitate effective exchange of information and ensure alignment of business goals and objectives across all levels of the workforce.

CLMT advocates staff volunteerism as an integral part of building a caring and inclusive community. It grants staff up to three days of Volunteer Service Leave (VSL) per calendar year and staff are encouraged to contribute their time and talent for approved charitable causes with the CapitaLand Group's philanthropic arm, CapitaLand Hope Foundation or on their own. Staff who utilise all three days of VSL are eligible to nominate a registered charity to receive a donation from CHF, as part of its recognition and appreciation for staff volunteers. In 2025, 212 CapitaLand staff in Malaysia tapped on the VSL to contribute 1,737 hours for the #GivingBersama5.0 initiative.

Investors

CLMT maintains high levels of engagement with its Unitholders and the investor community at large, to provide timely access to accurate information. This helps them to make sound judgements about the REIT, developing trust and confidence in CLMT. CLMT manages this engagement via multiple touchpoints.

In November 2025, CLMT had a one-on-one ESG engagement with an investor to share on its sustainability journey and progress towards its 2030 SMP targets. The investor provided feedback on our sustainability strategies and practices.

For more information on our investor engagement efforts, please refer to Investor & Media Relations section on pages 32 to 33 of CLMT Annual Report 2025. CLMT's Investor Relations policy provides more information on its communications framework, and the policy is available on its website at www.clmt.com.my.

Stakeholder Engagement (continued)

Customers

CLMT strives to create meaningful relationships with its customers. To maintain the relevance of its malls, CLMT conducted a tenant satisfaction survey for six of its retail properties in 2025, with an overall participation rate of 92%. CLMT garnered feedback on a range of matters from cleanliness, security, maintenance, mall ambience to the adequacy of car park lots. On an average, 80% of the respondents rated CLMT with Average or Good performance. The survey is useful in providing specific and actionable feedback, which allows us to better address our tenants' needs and concerns. The feedback obtained is reviewed and the relevant follow-up actions are taken to improve the experience and service levels to its tenants and shoppers.

CLMT is committed to fostering strong relationships with our stakeholders through diverse programmes designed to engage and enrich their experience whenever they visit our malls. These initiatives include informative knowledge-sharing sessions on health and well-being. On 12 April 2025, Gurney Plaza hosted the Colours of Autism event in conjunction with World Autism Day with Prospect Rainbow, offering a meaningful and learning experience. The event aimed to raise awareness and promote inclusivity for individuals on the autism spectrum.

Government Agencies and Regulators

CLMT participates in stakeholder consultations organised by key government agencies to provide feedback on proposed regulatory changes that may impact the REIT's business. This allows us to plan and prepare ahead for any upcoming updates to regulations. Through our active participation in the Malaysian REIT Managers Association (MRMA), proactive engagements are held regularly with government bodies, regulators and industry stakeholders to enhance regulatory framework and tax structures, amongst others, for the Malaysian Real Estate Investment Trust (M-REIT) industry. Engagement with the regulators and relevant industry bodies have also allowed CLMT to better manage the latest industry challenges, placing us in a better position to leverage existing and future opportunities for growth.

CLMT is committed to regulatory compliance. Procedures are in place to ensure that its activities and operations comply with existing regulatory requirements through regular monitoring, evaluation and audit of the EHS management systems.

Stakeholder Engagement (continued)

Supply Chain Management

CLMT adopts CLI's Supply Chain Code of Conduct, which sets out the requirements for responsible behaviours in the areas of business integrity and ethics such as anti-bribery and corruption, labour laws and human rights, health and safety, as well as environmental management. In addition to complying with local regulations and other legal requirements, all CLMT suppliers and service providers must acknowledge and adhere to the Code of Conduct and are subject to penalties in the event of any breaches or failure to remedy any breaches. 100% of our suppliers with new or renewal contracts have signed CLI's Supply Chain Code of Conduct in 2025.

The vendors are also briefed on CLI's Environmental, Health and Safety (EHS) policy to ensure that they are trained and qualified on EHS measures. CLMT continues to screen its supply chain to ensure that relevant business and ESG risks are being managed appropriately. We identify critical suppliers as high-spend suppliers, non-substitutable suppliers or critical business component suppliers such as term contractors providing facility maintenance and property management services.

A high proportion of goods and services are sourced locally for CLMT. In 2025, about 98% of the appointed supply chain providers were from Malaysia.

Government Agencies and Regulators

CLMT actively invests into the local communities in which it operates, by identifying suitable causes with local stakeholders and involving staff.

In 2025, CapitaLand Group, with the support from its philanthropic arm, CapitaLand Hope Foundation (CHF), has contributed RM200,000 worth of daily necessities and educational supplies to support ~2,250 underserved children and low-income families in Malaysia under its #GivingBersama5.0 initiative. The community initiative, which is part of CapitaLand's annual #GivingAsOne global campaign, aims to support beneficiaries from orphanage homes, schools and low-income families in Penang, Klang Valley, Pahang and Johor.

CapitaLand staff volunteers came together to support close to 680 low-income families and 220 underserved children in collaboration with Unit Mutiara Food Bank (Penang) and the Jabatan Kebajikan Masyarakat Malaysia offices in Kuala Lumpur, Kuantan, and Johor.

Organisational Capital

2025 Key Performance Indicators

	2030 Target	CLMT 2025 Performance
Corporate Governance	Ensure sustainability targets are integrated into CLI Performance Share Plan and Balanced Scorecard framework to determine executive remuneration and KPIs	- Under CLMT's Balanced Scorecard framework, its strategy and goals are translated to performance outcomes comprising both quantitative and qualitative targets in various dimensions including sustainability and these are cascaded down throughout the organisation. - For more information regarding remuneration, please refer to the Corporate Governance section of CLMT Annual Report 2025.
	At least 85% staff to attend 1 compliance-related training	100% of CLMT staff attended FBC and whistle-blowing training. 98% of CLMT staff attended Cybersecurity training.
Transparent Reporting	ESG reporting aligned and externally assured to international standards	- CLMT's sustainability reporting is prepared in accordance with the Global Reporting Initiative Standards 2021 and the Bursa Malaysia's enhanced sustainability reporting requirements in the Main Market Listing Requirements to align with the NSRF. CLMT's statement also references the United Nations Sustainable Development Goals and aligns its climate-related disclosures with IFRS S2 Climate-related Disclosures progressively. - The statement has been subjected to independent assurance by KPMG PLT in accordance with International Standard on Assurance Engagements (ISAE) 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information (ISAE 3000 (Revised)) for selected indicators.
ESG Risk Management	- Identify, assess, and manage sustainability risks and opportunities - Ensure sustainability risks and opportunities are managed in line with overall risk appetite and strategy	- Annual group-wide RCSA exercise requires business units and corporate functions to identify, assess and document material risks which include ESG-related risks and opportunities, along with their key controls and mitigating measures. - CLI's revised 2030 SMP was launched in May 2023 after a regular review to ensure that it remains relevant to CLI's business strategy, including CLMT, and is aligned with climate science. - CLMT's performance against CLI 2030 SMP targets and Balanced Scorecard targets is tracked and reported to CLMT Board at least annually.

Corporate Governance

CLMT embraces the tenets of sound corporate governance including accountability, transparency and sustainability. The Manager of CLMT is committed to enhancing value for its stakeholders with the appropriate people, processes and organisational structure to achieve operational excellence, pursue CLMT's long-term strategic ambitions in order to general sustainable returns for Unitholders.

The Board of the Manager is responsible for and plays a key role in setting CLMT's corporate governance standards and policies. This sets the tone from the top and underscores the importance of strong corporate governance within CLMT. For more information on our corporate governance practices, please refer to Corporate Governance section on pages 85 to 109 of CLMT Annual Report 2025.

Maintaining Diversity on the Board

The Board of the Manager embraces diversity and has in place a Board Diversity Policy which provides for the Board to comprise talented and dedicated Directors with a diverse mix of expertise (including industry, domain and functional expertise), skills, experience and perspectives, with due consideration to diversity factors, including but not limited to, gender, age, ethnicity and professional background.

With respect to female representation, the Manager's Nominating and Remuneration Committee (NRC) notes the Malaysian Code on Corporate Governance (MCCG) 2021 target of women making up 30% of the Boards and Bursa Malaysia's requirement for all public listed companies to appoint at least one women director. Currently, the proportion of female representation in the Manager's Board composition has increased to 71% (or five female Directors out of a total of seven Directors) following the resignations of Dato' Ng Tiong Lip (Dato' Jeffrey Ng) and Lim Cho Pin Andrew Geoffrey on 1 January 2026.

Enhancements of Policies

During FY 2025, CLMT has revised and enhanced the Whistleblowing Policy and Conflicts Management Policy, which were overseen and approved by the Audit and Risk Committee (ARC), to ensure these policies remain relevant and aligned with industry best practices in Malaysia. The full policies and guidelines are published on CLI intranet and accessible by all CLMT employees.

In 2026, there will be a CLI group-wide enhancement of policies which has commenced progressively which apply across CLI and its subsidiaries entities, including the Manager. The Manager will adopt and implement these group-wide policies, with appropriate alignment to local legal and regulatory requirements to ensure consistency with CLI Group standards while maintaining full compliance with applicable local laws, regulations and guidelines.

Fraud, Bribery and Corruption Risk Management Framework

CLMT adopts a zero-tolerance stance against any Fraud, Bribery and Corruption¹ (FBC) in the conduct of its business activities and expects all its employees to be committed to the highest standards of integrity in their work and business dealings. The FBC Risk Management Framework has been set in place to manage FBC risks in an integrated, systematic and consistent manner.

1 (a) Fraud is the use of deception with the intention of obtaining an advantage, or avoiding an obligation or causing loss to another party. Fraud can be perpetrated by employees, third parties or a collusion between employees and third parties.
 (b) Bribery and Corruption is the offering, promising, giving, accepting or soliciting of an undue advantage of any value (which could be financial or non-financial), directly or indirectly, and irrespective of location(s), in violation of applicable law. These are usually made as an inducement or reward for a person acting or refraining from acting in relation to the performance of that person's duties.

Together with various CLI's policies and procedures, the FBC Risk Management Policy is published on CLI's intranet and is accessible by staff. Collectively, the CLI policies and procedures in place and implemented aim to help detect and prevent FBC by:

- Offering a fair compensation package to staff, based on practices of pay-for-performance and promotion based on merit, and providing various healthcare subsidies and financial assistance schemes to alleviate the common financial pressures faced by staff.
- Documenting policies and work procedures which incorporate internal controls to ensure that adequate checks and balances are in place. Periodic audits are also conducted to evaluate the efficacy of these internal controls.
- Building and maintaining the right organisational culture through its core values, and educating staff on business conduct and ethical values.

In addition, the Manager also adopts the following CLI policies and guidelines, which call upon staff to observe ethical principles in the conduct of business activities which include:

- Abiding by CLI's Ethics and Code of Business Conduct Policies which deal with matters such as confidentiality, conduct and work discipline, corporate gifts and concessionary offers. Including policies and guidelines on how to handle workplace harassment and grievances². This policy also stipulates that donations are not to be made to any political causes through CLI/CLMT and/or the CapitaLand Group's philanthropic arm, CapitaLand Hope Foundation CHF;
- Abiding by the Anti-Money Laundering and Countering the Financing of Terrorism Policy;
- Acting professionally and with integrity;
- Practising fair competition;
- Honouring contractual commitments made;
- Not making inaccurate or misleading statements;

- Making decisions or representations only when duly authorised;
- Ensuring appropriateness of frequency and venue when conducting business activities;
- Maintaining security and confidentiality of data and information; and
- Not manipulating business relationships for personal gains or interests.

CLMT adopts CLI's zero-tolerance policy on FBC, which extends to CLMT's business dealings with third parties (including contractors, subcontractors, consultants, agents, representatives and others performing work or services for or on behalf of CLMT). Pursuant to this policy, it requires that certain agreements entered with CLMT to incorporate anti-corruption provisions.

A localised whistleblowing policy and other procedures, including grievance handling, are in place to provide staff and external parties who have dealings with the CLMT, with a well-defined, accessible and trusted channel to report grievances, suspected FBC, dishonest practices or other improprieties in the workplace. It also allows for the independent investigation of any reported incidents and determination of appropriate actions for follow-up. The objective of the whistleblowing policy is to encourage the reporting of such matters – that staff or external parties making any report in good faith will be able to do so with confidence, that they will be treated fairly, and to the fullest extent possible, be protected from reprisal if any. The Board, with the assistance of the ARC, is responsible for the oversight and governance of FBC Risk Management. In conjunction with the assessment by the ARC, the Board assesses the adequacy and effectiveness of the internal controls (including financial, operational, compliance and information technology controls) and risk management systems established by management to manage risks. CLMT's anti-corruption policies and procedures are communicated to all Board members through various formats including Board induction training. Directors also refresh their knowledge annually through their approval of the Corporate Governance Statement.

² This includes the Securities Dealing Policy which sets out prohibitions against dealings in CLMT's securities (i) while in possession of material unpublished price-sensitive information, (ii) during the one month preceding, and up to the time of announcement of the CLMT's results for the full financial year. Directors and/or employees are also required to refrain from dealing in securities of CLMT and other relevant listed entities in the CLI Group if they are in possession of unpublished price-sensitive information of CLMT and other listed entities by virtue of their status as Directors and/or employees. As and when appropriate, they would be issued an advisory to refrain from dealing in the relevant securities. Under the policy, Directors and employees are also discouraged from trading on short-term or speculative considerations. They are also prohibited from using any information with respect to other companies or entities obtained in the course of their employment, in connection with securities transactions of such companies or entities.

Substantiated cases are reported on a quarterly basis to the ARC and shared with the risk champions. Actions taken can include termination of employment contract, and/or reporting to the appropriate external authorities. In 2025, there were no substantiated cases. In addition, there were no cases involving anti-competition or money laundering behaviour reported. CLMT made no payment and donation to politicians or political parties as it expects to be judged on its own merits. CHF's constitution also states that no grant or assistance shall be given in aid of any political organisation or purpose.

Other Ethical Management Issues

CLMT is committed to best practices and complies with the relevant legislations and requirements. Marketing activities relating to shopping malls and office spaces, such as advertisements and promotions (A&P), are generally guided by external A&P consultants, and are in compliance with local marketing requirements as stipulated by CLMT and CLI.

Training

CLMT has implemented initiatives to ensure that all staff understand the sponsor, CLI's, core values and principles, in shaping the way CLI works and functions. This is a compulsory component in the onboarding training for new employees as part of the CLI Immersion Programme (CIP), an employee orientation for new employees from various countries. For existing employees, there are dedicated training courses conducted where specific examples and applications of CLI core values in the workplace are shared.

- CLMT staff received FBC and whistleblowing training covering topics such as ethics and code of conduct, anti-corruption, preventing and detecting fraud, money laundering, profiling and investigation techniques, and professional judgement and obligations relating to whistleblowing. In addition, CLMT also arranged for a training session by the Malaysian Anti-Corruption Academy in May 2025 to increase awareness and understanding of the employees and management on these topics.

- About 98% of CLMT staff attended cyber awareness training to acquire and refresh their knowledge on how to detect potential cyber breaches, especially critical given their increased reliance on digital services.

▲ Hybrid training session by an officer from the Malaysian Anti-Corruption Academy in the office of CMRM in May 2025.

Enterprise Risk Management (ERM)

The Board oversees risk governance and ensures that senior management maintains robust risk management and internal control systems to safeguard the interests of CLMT and its stakeholders. Assisted by the ARC and Senior Management, the Board approves CLMT's risk appetite (risk tolerance) that determines the nature and extent of material risks CLMT is willing to take to achieve strategic objectives. The Board also regularly reviews CLMT's risk profile, material risks and mitigation strategies, and ensures the adequacy and effectiveness of the risk management framework and policies. The management team supports the Board and ARC to ensure effective risk governance and oversight. They are responsible for directing and monitoring the implementation of risk management practices throughout CLMT, which includes tracking risk exposure using key risk indicators.

Annually, a Group-wide RCSA exercise is conducted to identify, assess and document material risks which include ESG-related risks, along with their key controls and mitigating measures. One of the key material risks identified was climate-related risk, encompassing both physical and transition risks. Material risks and their associated controls are consolidated and reviewed at management level before they are presented to the ARC and the Board. For more information on CLMT's risk management, please refer to the Risk Management section on pages 118 to 122 of CLMT Annual Report 2025.

Data Privacy, and Cybersecurity

CLMT is dedicated to safeguarding personal data and ensuring compliance with Malaysia's Personal Data Protection Act (PDPA). In line with our commitment to transparency and security, we have in place effective data protection measures to secure the personal information of our stakeholders, along with robust audit practices to ensure compliance to regulations and policies.

The following demonstrate the Manager's commitment to regulatory compliance and best practices in data protection, technology risk management, governance and cybersecurity, including periodic review of the framework and continuous improvement of policies and standards.

Cybersecurity Awareness Education

1. Cybersecurity Training Programmes

We have introduced comprehensive training sessions to educate employees on Cybersecurity best practices, fostering a culture of heightened data protection awareness.

2. Ongoing Learning Initiatives

Our continuous educational efforts have been intensified to keep employees informed about the latest IT security trends, evolving phishing tactics, and safe practices for email and Internet use.

Data Security Controls & Measures

1. Technology Risk Management and Cybersecurity Infrastructure and Technologies

We have put in place the appropriate technology risk management and cybersecurity infrastructure, implementing advanced encryption methods and intrusion detection systems to provide protection against unauthorised access.

2. Comprehensive Vulnerability Assessments

We conduct frequent and thorough evaluations of our IT systems to proactively identify and address potential risks, ensuring the resilience of our data protection and technology risk mechanisms.

3. Access Controls Policies

We have data access policies, ensuring that sensitive information is handled exclusively by authorised personnel, thereby maintaining data integrity and confidentiality.

Establishing Data Breach Response Protocols

1. Developed Response Plan

We have a comprehensive plan to manage data breaches effectively, including immediate containment, thorough assessment, and mitigation steps to minimise impact.

2. Regulatory Compliance

Our protocols ensure adherence to PDPA and technology risk management requirements, facilitating timely reporting of breaches to regulators and affected individuals, as may be required.

3. Regular Reviews and Updates

We periodically assess and update our response plan and policies to ensure its effectiveness and alignment with current best practices.

Financial Capital

CLMT's key financial objective is to provide Unitholders with long-term and sustainable income distributions and potential capital growth through investing in and managing a portfolio of assets. For more information on CLMT's financial performance in FY 2025, please refer to the Financial Highlights (pages 10 to 11), Financial Review (pages 21 to 22) and Financial Statements (pages 124 to 172) sections of CLMT Annual Report 2025.

CLMT's capital management strategy involves adopting and maintaining an appropriate level of leverage to ensure optimal returns to Unitholders. CLMT has actively pursued new ways to enhance its financial resilience with a strong emphasis on sustainable finance, reinforcing CLMT's commitment to responsible growth. For information on its capital management initiatives, please refer to the Capital Management section of on page 23 of CLMT Annual Report 2025.

CLMT has secured new sustainability-linked loans of RM230.0 million and converted RM1,048.8 million of the existing facilities into sustainability-linked loans in FY 2025. These sustainability-linked loans are tied to CLMT's ESG achievements which enables CLMT to achieve savings from the reduced interest rates on its sustainability-linked loans. The savings would be redeployed to support CLMT's ESG initiatives, spurring better sustainability outcomes. As at 31 December 2025, the total outstanding sustainability-linked loans were RM1,731.1 million, accounting for about 79% of its total borrowings.

Corporate Governance

Our Governance Framework

Our Role

We, CapitaLand Malaysia REIT Management Sdn. Bhd. (Manager), as the manager of CapitaLand Malaysia Trust (CLMT), set the strategic direction of CLMT and its subsidiaries (collectively, CLMT Group) and make recommendations to MTrustee Berhad (Trustee), in its capacity as trustee of CLMT on any investment or divestment opportunities for CLMT Group and the enhancement of the assets of CLMT Group in accordance with the stated investment strategy for CLMT. The research, evaluation and analysis required for this purpose are coordinated and carried out by us as the Manager.

As the Manager, we have general powers of management over the assets of CLMT Group. Our primary responsibility is to manage the assets and liabilities of CLMT Group for the benefit of the unitholders of CLMT (Unitholders). We perform this with a focus on generating rental income and enhancing asset values over time so as to maximise returns from the investments and ultimately, the distribution and total returns to Unitholders.

Our other functions and responsibilities of the Manager include:

- (a) using our best endeavours to conduct CLMT Group's business in a proper and efficient manner in the best interests of the Unitholders;
- (b) preparing annual business plans for review by the Directors of the Manager, including forecasts on revenue, net income and capital expenditure, explanations on major variances against previous years' financial results, written commentaries on key issues and underlying assumptions for rental rates, operating expenses and other relevant assumptions;

- (c) ensuring compliance with relevant laws and regulations, including but not limited to the Companies Act 2016, the Capital Markets and Services Act 2007 (CMSA), the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (Bursa Securities) (Listing Requirements), the Securities Commission Malaysia's (SC) Guidelines on Listed Real Estate Investment Trusts (REITs Guidelines), Licensing Handbook, written directions, notices, codes and other applicable guidelines issued by SC and/or Bursa Securities and the tax rulings issued by the Inland Revenue Board of Malaysia on the taxation of CLMT and its Unitholders as well as any updates and amendments to such relevant laws and regulations;
- (d) attending to all regular communications with Unitholders; and
- (e) supervising the property managers which perform the day-to-day property management functions (including leasing, marketing and promotion, operations, coordination and other property management activities) for CLMT Group's properties.

The Manager also considers sustainability issues (including environmental and social factors) as part of its responsibilities. CLMT's environmental, sustainability and community outreach programmes are set out on pages 48 to 84 of this Annual Report.

CLMT, constituted as a trust, is externally managed by the Manager. The Manager appoints experienced and well qualified personnel to run its day-to-day operations. The Manager was appointed in accordance with the terms of the trust deed constituting CLMT dated 7 June 2010 (as amended, supplemented or restated from time to time) (Trust Deed²). The Trust Deed outlines certain

¹ The Audit Committee was renamed to Audit and Risk Committee with effect from 22 October 2025.

² A copy of the Trust Deed will be available for inspection at the principal place of business of the Manager during ordinary business hours. Prior appointment with the Manager is required. Please contact the Manager via email at ask-us@clmt.com.my.

Corporate Governance

circumstances under which the Manager can be removed, including by notice in writing given by the Trustee upon the occurrence of certain events, or by resolution passed by a simple majority of Unitholders present and voting at a meeting of Unitholders duly convened and held in accordance with the provisions of the Trust Deed.

No public sanction or penalty was imposed on the Manager by the relevant regulatory bodies during the financial year ended 31 December 2025 (FY 2025).

The Manager is a wholly owned subsidiary of CLI Asset Management Pte Ltd, which in turn is a wholly owned subsidiary of CapitaLand Investment Limited (CLI). CLI holds a significant indirect unitholding interest in CLMT. CLI is a leading global real estate investment manager, with a vested interest in the long-term performance of CLMT. CLI's significant indirect unitholding in CLMT demonstrates its commitment to CLMT and as a result, CLI's interests is aligned with that of other Unitholders. The Manager's association with CLI provides the following benefits, among other things, to CLMT:

- (a) strategic pipelines of property assets through, amongst others, CLI's access to the development capabilities of and pipeline investment opportunities from CapitaLand Group's development arm;
- (b) wider and better access to banking and capital markets;
- (c) fund raising and treasury support; and
- (d) access to a bench of experienced management talent.

Our Corporate Governance Framework and Culture

The Manager embraces the tenets of sound corporate governance, including accountability, transparency and sustainability. It is committed to enhancing long-term Unitholder value. The Board of Directors (Board) is responsible for setting the Manager's corporate governance standards and policies which sets the tone at the top.

This Corporate Governance Statement (Statement) sets out the corporate governance practices for FY 2025, benchmarked against the Malaysian Code on Corporate Governance 2021 (Code) issued by the SC.

Throughout FY 2025, the Manager has generally applied the principles and practices of corporate governance laid down by the Code and substantially achieved the intended outcome outlined in the Code. Where there are deviations,

appropriate explanations are provided in this Statement. This Statement also sets out additional policies and practices adopted by the Manager which are not provided in the Code.

In FY 2025, CLMT delivered significant progress across financial performance, operational excellence, sustainability initiatives, and environmental, social, and governance (ESG) commitments. Please refer to the 2025 Highlights section on pages 8 to 9 of this Annual Report for more details.

Principle A: Board Leadership and Effectiveness

I. Board Responsibilities

Board's Duties and Responsibilities

The Board's primary responsibility is to foster CLMT's success so as to deliver sustainable value over the long-term. It provides overall guidance to the management team (Management), led by the Chief Executive Officer (CEO). The Board works with Management to achieve CLMT's objectives and long-term success and Management is accountable to the Board for its performance. Management is responsible for the execution of the strategy for CLMT and the day-to-day operation of CLMT's business.

The Board establishes goals for Management and monitors the achievement of these goals. It ensures that proper and effective controls are in place to assess and manage business risks and compliance with requirements under the Listing Requirements, REITs Guidelines as well as any other applicable guidelines prescribed by Bursa Securities, SC or other relevant authorities and such other applicable laws.

Written Board approval limits have been established, which are communicated to Management through the CLI Group's³ intranet, setting out matters which require its approval, including written financial approval limits for matters such as capital expenditure, investments, divestments and bank borrowings. The Board delegates authority for transactions below those limits to Board Committees and Management for operational efficiency.

The goals and achievements of CLMT are set in the Balance Scorecard approved by the Board and are measured at the end of each financial year. The Board also receives periodic reports on the risks, compliance, conflicts of interest or potential/perceived conflicts of interest, if any and internal controls managed and applied by Management for CLMT and the Manager.

³ CLI Group refers to CLI and its subsidiaries.

Directors are fiduciaries and are obliged at all times to act objectively in CLMT's best interests. This sets the tone at the top on the desired organisational culture and ensures proper accountability within the Manager. The Board has adopted a Code of Business Conduct and Ethics for Board of Directors (Board Code) which provides for every Director to adhere to the highest standards of ethical conduct and to avoid conflicts of interest. Each Director is required to disclose to the Board his/her interests in CLMT's and the Manager's transactions (or potential transactions), and any other potential/perceived conflicts of interest, recuse himself/herself from deliberations and abstain from voting on such transactions. In FY 2025, every Director complied with this policy, and such compliance has been recorded in the minutes of meeting or written resolutions. The Board Code is published on CLMT's website at www.clmt.com.my (Website).

Board Committees

The Board has established various Board Committees to assist in the discharge of its functions. These Board Committees are the Audit and Risk Committee (ARC) (previously known as the Audit Committee (AC)), Nominating and Remuneration Committee (NRC) and the Executive Committee (Exco).

Each Board Committee has clear written terms of reference (setting out their composition, authorities and duties) and operates under delegated authority from the Board with the Board retaining overall oversight. The decisions and significant matters discussed at the respective Board Committees are reported to the Board on a periodic basis, and minutes of such meetings are circulated to all Board members. The composition of the various Board Committees as at the date of this Statement is set out in the table below.

Board Members	Audit and Risk Committee	Nominating and Remuneration Committee	Executive Committee
Tan Boon Peng, Chairman	-	-	-
Yong Su-Lin, CEO	-	-	M
Foo Wei Hoong	C	M	-
Tan Ming-Li	M	C	-
Datin Hayati Aman Binti Hashim	M	-	-
Goh Gek Hiang (Wu Yuxian)	-	M	C
Wong Kar Ling	-	-	M

Denotes: C - Chairman M - Member

Meetings of Board and Board Committees

Board and Board Committee meetings are planned and scheduled prior to the start of each financial year. The Constitution of the Manager (Constitution) permits the Directors to participate via audio or video conference. If a Director is unable to attend a Board or Board Committee meeting, he or she may provide his or her comments to the Chairman or the relevant Board Committee Chairman ahead of the meeting, and these comments are taken into consideration in the deliberations. The Board and Board Committees may also make decisions by way of written resolutions. In addition to scheduled meetings, the Board may also hold ad hoc meetings as and when required by business imperatives.

There is active interaction between the Management and the Board, and Management provides updates to the Board at Board meetings on the progress of the CLMT Group's business and operations (including market developments and trends, business initiatives, budget and

capital management) and challenges CLMT faces. The Directors and Management have separate, independent and unfettered access to each other at all times for any information they may require.

Management provides the Board with complete, adequate and timely information prior to Board and Board Committee meetings and on an ongoing basis to enable the Directors to make informed decisions and discharge their duties and responsibilities and facilitate focused discussions and active participation.

At Board and Board Committee meetings, all Directors actively participate in discussions, engaging in open and constructive debate and will review and challenge Management on its assumptions and recommendations. No individual Director influences or dominates the Board's discussion and decision-making process.

The Company Secretary of the Manager works with the Chairman and Management to ensure that Board meeting materials and agendas are provided to each Director at

Corporate Governance

least seven (7) days before the date of the Board meetings so that they can familiarise themselves with the matters prior to the Board meetings. Meeting materials for Board Committee meetings are circulated in advance of the meetings in accordance with the Terms of Reference of the respective Board Committees. Agendas for Board and Board Committee meetings are prepared in consultation with the Chairman and the chairmen of the respective Board Committees. This provides assurance that there is time to cover all relevant matters during the meetings. The Directors are entitled to access to independent professional advice where required, at the Manager's expense.

The Manager practices timely circulation of the minutes of the Board and Committee meetings after each meeting.

These minutes accurately reflect the deliberations and decisions of the Board and Board Committees, including whether any Director abstained from voting or deliberating on any matter.

During FY 2025, a total of six (6) Board meetings, four (4) AC/ARC meetings, one (1) NRC meeting and four (4) Exco meetings were held. In addition, strategic engagement sessions involving the Board and senior management, focusing on strategy and investment matters, were convened during the year. The company secretary was in attendance at all meetings. The Directors' meeting attendance record for the Board and Board Committees in FY 2025 is set out in the table below.

Attendance Record of Meetings of Unitholders, Board and Board Committees in FY 2025¹

Board Members	Board	Audit and Risk Committee	Nominating and Remuneration Committee	Executive Committee	AGM	Unitholders' Meeting

N.A.: Not Applicable.

- ¹ All Directors are required to attend Board and/or Board Committee meetings called, in person or via audio or video conference, unless required to recuse.
- ² Redesignated as the Chairman of the Board and ceased as Chairman of the NRC with effect from 1 January 2026.
- ³ Appointed as a Director and a Member of the Exco with effect from 1 February 2025.
- ⁴ Appointed as Chairman of the NRC with effect from 1 January 2026.
- ⁵ Redesignated as Chairman of the Exco and appointed as Member of the NRC with effect from 1 January 2026.
- ⁶ Appointed as a Director and a Member of the Exco with effect from 1 May 2025.
- ⁷ Resigned as a Director and a Member of the Exco with effect from 1 February 2025.
- ⁸ Resigned as a Director with effect from 1 January 2026.
- ⁹ Resigned as a Director and relinquished his position as Chairman of the Exco and a Member of the NRC with effect from 1 January 2026.

Directors' Development

The Manager has a training framework to equip Directors with the necessary knowledge and skills to understand CLMT Group's business and discharge their duties and responsibilities as Directors (including their roles as

executive, Non-Executive and IDs). Newly appointed Directors who have no prior experience as a director of a listed issuer will undergo training on the roles and responsibilities of a director of a listed issuer as prescribed by the Bursa Securities. The cost of trainings of all Directors are borne by the Manager.

Each newly appointed Director is provided with a letter of appointment and a copy of the Director's Manual (containing a broad range of information relating to a Director's roles and responsibilities and the Manager's policies). All Directors, upon appointment, undergo an induction programme which focuses on orientating the Director to CLMT Group's business, operations, policies, strategies, and financial and governance practices.

Directors are provided with opportunities for continuing education in areas such as Directors' duties and responsibilities, laws and regulations, risk management and accounting standards, industry-related matters and sustainability so as to be updated on matters that enhance their performance as Directors or Board Committee members. Directors may also request for specific training in any other area or recommend specific training and development programmes to the Board. In addition, the Board assesses the training needs of each Director through the annual Board effectiveness evaluation questionnaire. Findings from these evaluations are reviewed by the NRC, which identifies the relevant training and development areas and recommends targeted programmes.

In FY 2025, the training and professional development programmes for the Directors included seminars and training sessions conducted by experts and senior business leaders on macroeconomic and market updates as well as insights in Malaysia's retail and industrial real estate sectors.

As at the date of this Statement, all the Directors have attended the Mandatory Accreditation Programme (MAP) Part I and Part II. Training programmes, seminars and conferences attended by the Directors during the FY 2025 are set out on pages 108 to 109 of this Annual Report.

Chairman and Chief Executive Officer

The roles of the Chairman and the CEO are held by separate individuals to ensure a clear division of responsibilities between the leadership of the Board and Management, such that no individual has unfettered powers in decision making.

The Chairman leads the Board and plays a pivotal role in promoting open and constructive engagement and dialogue among the Directors as well as between the Board and the Management at meetings. The Chairman also presides over general meetings of Unitholders where he fosters constructive dialogue between the Unitholders, the Board and Management. The Chairman provides oversight to the CEO, who has full executive responsibilities to manage CLMT Group's business and to develop and implement policies approved by the Board. The separation of the responsibilities of the Chairman

and CEO and the resulting clarity of roles facilitate robust deliberations on CLMT Group's business activities and ensure an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision-making.

In line with the above, the Chairman's key responsibilities include:

- (i) providing leadership to the Board so that the Board can perform its responsibilities effectively;
- (ii) leading the Board in the adoption and implementation of good corporate governance practices in the Manager;
- (iii) overseeing the Board agenda and facilitating communication between Management and Board members for delivery of information required at each Board meeting;
- (iv) leading all Board meetings and discussions;
- (v) encouraging active participation and allowing dissenting views to be freely expressed;
- (vi) managing the interface between Board and Management; and
- (vii) ensuring appropriate steps are taken to provide effective communication with stakeholders and that their views are communicated to the Board as a whole.

The Chairman is not a member of the ARC, NRC and Exco of the Manager to ensure the objectivity of the Chairman is not impaired particularly during deliberation on the recommendations put forth by the Board Committees. During the FY 2025, the Board was led by Dato' Ng Tiong Lip (Dato' Jeffrey Ng) as Chairman of the Board. Effective 1 January 2026, Mr Tan Boon Peng (Mr Patrick Tan) assumed the role of Chairman of the Board, succeeding Dato' Jeffrey Ng who resigned from the Board.

The separation of the roles and responsibilities between the Chairman and the CEO and the resulting clarity of roles provide a healthy professional relationship between the Board and Management, facilitates robust deliberations on CLMT Group's business activities and the exchange of ideas and views to help shape CLMT's strategic process thus ensuring an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision-making.

As the roles of the Chairman and the CEO are held by separate individuals who are unrelated, and the Chairman is an ID, no senior independent director has been appointed. Moreover, the Board has a strong independent element as four out of seven directors (including the Chairman) are Non-Executive IDs.

Company Secretaries

The Board is supported by two (2) suitably qualified and competent company secretaries who keep themselves abreast of relevant developments and undertake continuous professional development. The Company Secretary has oversight of corporate secretarial matters and advises the Board and Management on good governance practices. The Company Secretary attends all meetings of the Board, Board Committees and Unitholders' and assists the Board in ensuring that procedures are duly followed. The Company Secretary also facilitates the administration work relating to Directors' professional development. The appointment and the removal of the company secretaries is subject to the Board's approval.

Board Charter

The Board Charter has been established to clearly outline the roles and responsibilities of the Board to ensure that principles and practices of good corporate governance are applied by the Board. The Board's duties and responsibilities as outlined in the Board Charter include, among others, the following:

- (a) approving the strategies and objectives for CLMT Group and monitoring the progress thereof;
- (b) approving the financial plan (including annual budgets and capital management plans) and monitoring the financial performance of CLMT Group;
- (c) approving corporate and financial restructuring, mergers, major acquisitions and divestments;
- (d) approving the risk appetite of CLMT Group and reviewing the adequacy and effectiveness of the risk management and internal control systems;
- (e) considering sustainability issues as part of CLMT Group's strategic formulation;
- (f) reviewing and approving the appointment of directors and their remuneration;
- (g) reviewing the appointment of and succession planning for the CEO;
- (h) overseeing the overall remuneration policy and compensation framework, and the compensation package for the CEO;
- (i) overseeing leadership development and succession planning;
- (j) reviewing and assessing from time to time any real, potential or perceived conflict of interest involving Directors, CEO, key senior management of the Manager and Directors and CEO of the Trustee;

- (k) overseeing and according sufficient priority and resources to manage technology risk management including approving and establishing technology risk management framework, risk appetite and risk tolerance statement and ensuring the technology risk management framework and policies are robust and sound; and
- (l) appointing and removing the company secretary.

The Board has reserved authority over specified matters including material acquisitions, investments and divestments, issue of new Units in CLMT, income distributions and other returns to Unitholders, and matters involving conflicts of interest relating to a controlling Unitholder or a Director. Meanwhile, authority for transactions below the Board's approval limits is delegated to the relevant Board Committees and Management to optimise operational efficiency.

The Board Charter is reviewed at least once every two years to reflect changes to the Board's policies, procedures and processes as well as any regulatory development that may have an impact on the discharge of the Board's duties and responsibilities. The Board Charter is published on the Website.

Code of Business Conduct

The Manager adheres to an ethics and code of business conduct policy that addresses, amongst others, confidentiality, conflict of interest, conduct and work discipline, corporate gifts and concessionary offers. Clear policies and guidelines on how to handle workplace harassment and grievances are also in place. These policies and guidelines are reviewed periodically and published on CLI Group's intranet, which is accessible by all employees of the Manager.

Whistleblowing Policy

The Manager has a Whistleblowing Policy, which provides the Manager's employees and parties who have dealings with the Manager with well defined, accessible and trusted procedures to report any suspected fraud, corruption, dishonest practices, misconduct, wrongdoing and/or other improprieties relating to the Manager and its officers, and provides for independent investigation of any reported incidents made in good faith and appropriate follow up action. It ensures that any reports in good faith will be treated fairly and the whistleblower's identity will be kept confidential, unless disclosure is required by law. The Manager is committed to ensuring protection of the whistleblower against detrimental or unfair treatment.

The ARC is responsible for oversight and monitoring of whistleblowing and reviews all whistleblowing complaints

at its scheduled meetings. Independent, thorough investigation and appropriate follow up actions are then taken. The outcome of each investigation is reported to the ARC. A copy of the Whistleblowing Policy is available on the Website and made available to all the Manager's employees on CLI Group's intranet.

Fraud, Bribery & Corruption Risk Management Framework

The Manager is committed to doing business with integrity and has a zero-tolerance stance against fraud, bribery and corruption, which extends to its business dealings with third parties. The Manager's employees adhere to CLI's Fraud, Bribery and Corruption Risk Management Policy (FBC Policy). The FBC Policy works with various other policies and guidelines to guide its employees to maintain the highest standards of integrity in their work and business dealings. This includes clear guidelines for the giving and receipt of corporate gifts and concessionary offers. The FBC Policy also provides for certain agreements to incorporate anti bribery and anti-corruption provisions.

These policies aim to detect and prevent fraud in three ways. First, the Manager offers fair compensation packages, based on practices of pay-for-performance and promotion based on merit to its employees. The Manager also provides healthcare subsidies and financial assistance schemes to alleviate the common financial pressures its employees may face. Second, clearly documented policies and procedures incorporate internal controls which ensure that adequate checks and balances are in place. Periodic audits are also conducted to evaluate the efficacy of these internal controls. Finally, the Manager seeks to foster the right organisational culture through its core values and good business conduct and ethical values in its employees.

The Manager's zero tolerance stance on fraud, bribery and corruption is also reinforced by Management during regular staff communication sessions. Employees are provided with training on these policies and guidelines, which are also accessible on CLI Group's intranet. All employees of the Manager are required to pledged annually that they will uphold the Manager's core values and not engage in any corrupt or unethical practices.

The FBC Policy is reviewed periodically to ensure its continued relevance, appropriateness and effectiveness in enforcing the principles highlighted therein, as well as compliance with the prevailing laws relating to corruption and bribery in Malaysia. Compliance with the policies and procedures, as guided by the Guidelines on Adequate Procedures issued pursuant to Section 17A(5) of the Malaysian Anti-Corruption Commission (Amendment)

Act 2018, is closely monitored, both on an ongoing basis and in conjunction with the annual assessment of the CLMT Group's corruption risks. The annual risk assessment is carried out to identify the corruption risks to which the CLMT Group may be exposed to and the appropriateness of the mitigation measures established to minimise the exposure to these risks. A copy of the FBC Policy is available on the Website.

Anti-Money Laundering and Countering the Financing of Terrorism Measures

The Manager abides by the Anti-Money Laundering, Anti-Terrorism Financing and Proceeds of Unlawful Activities Act 2001 (AMLATFA) and the SC's Guidelines on Prevention of Money Laundering and Terrorism Financing for Capital Market Intermediaries. Under these guidelines, the main obligations of the Manager are evaluation of risk, customer due diligence, suspicious transaction reporting, record keeping, screening of employees and Capital Markets Services Representative's Licence (CMSRL) holders as well as ongoing training. The Manager has a policy on the prevention of money laundering and terrorism financing which include enhanced due diligence checks on counterparties which involve in suspicious of money laundering or terrorism transactions. As part of its business operational practices, the Manager performs due diligence checks on its counterparties in order to ensure that it is able to detect any suspicious money laundering and terrorist financing activities and it does not enter into business transactions with terrorist suspects or other high-risk persons or entities.

Under this policy, all relevant records or documents relating to business relations with the CLMT Group's customers or transactions entered into must be retained for a period of at least seven years following the termination of such business relations or the completion of such transactions.

Periodic training is provided to its Directors, employees and CMSRL holders to ensure that they are updated on applicable regulations, prevailing techniques and trends and the Manager's measures to combat money laundering and terrorism financing.

Global Sanctions Compliance

The Manager has a policy to comply with the applicable United Nations sanctions as adopted and enforced under Malaysian law. The policy sets out the sanctions risk appetite and the risk management framework aligned with Malaysia's regulatory obligations including AMLATFA, which mandates asset freezing, reporting of terrorist property, and adherence to targeted financial sanctions.

Enhancement of Global Policies in 2026

For 2026, CLI has issued new policies on anti-bribery and corruption, third party due diligence and intends to update these existing related policies progressively. These policies will apply across CLI and its subsidiaries entities, including the Manager. The Manager will adopt and implement these Group-wide policies, with appropriate alignment to local legal and regulatory requirements to ensure consistency with Group standards while maintaining full compliance with applicable local laws, regulations and guidelines.

Information Technology and Cyber Security Policies

The Manager adopted a comprehensive suite of information technology and cyber security-related policies (collectively, IT and Cyber Security Policies) on 24 July 2024 to establish a robust framework for managing technology risks. The IT and Cyber Security Policies aim to safeguard the confidentiality, integrity and availability of the Manager's information assets and IT systems, while effectively managing technology risks. The technology risk management framework aligns with the Guidelines on Technology Risk Management issued by the SC, which came into effect on 19 August 2024, demonstrating the Manager's commitment to regulatory compliance and best practices in technology governance, including periodic review of the framework and continuous improvement of policies and standards.

Sustainability

CLI 2030 Sustainability Master Plan (SMP) outlines the sustainability targets and clear pathways across its portfolio. The SMP is a strategic blueprint outlines goals and directs sustainability efforts towards a common purpose on three key pillars of ESG. The SMP is regularly reviewed where necessary to ensure it remains relevant in terms of complementing CLI Group's business strategy and alignment with climate science. As a CLI-sponsored Real Estate Investment Trust, CLMT's sustainability targets and efforts are guided by CLI.

To ensure the sustainability practice becomes an integral part of the organisational activities, the Board, had approved the sustainability performance and the achievement of set targets as part of CLMT's Balanced Scorecard (BSC) and these are cascaded down throughout the organisation from the Board through senior management to employees. Sustainability goals are part of the BSC for measuring performance which include measurements that track progress towards sustainability targets for CLMT.

The Manager seeks to understand its stakeholders' views, communicate effectively with them and respond to their

concerns. This is conducted through company disclosures and various engagement channels including dialogues, participation at conferences, member representations in industry-related associations, benchmarking and responding to sustainability surveys.

The Manager is committed to maintaining close stakeholder engagement and communication with key stakeholders which include staff, investors/Unitholders, customers, business associates, contractors and suppliers, and the local community. Other stakeholders include regulators and key government agencies, non-governmental organisations (NGOs), representatives of the capital market and the media.

The Board is mindful of the importance for its members to have an adequate understanding of the industry issues that may pose threat to the sustainability of the business, and they should possess the appropriate skills and experience to manage these risks. Whenever required, the Directors will undergo education programmes, such as through internal workshops and training to be apprised of changes to emerging sustainability issues including climate-related topics and their impacts on the Group.

The Board effectiveness evaluation questionnaire had been updated to include questions on the Board's oversight of ESG and sustainability-related performance measures. The Board concluded that ESG practices will remain one of the areas requiring ongoing focus and dedicated attention for continuous improvement.

To strengthen its sustainability stewardship, the Manager has formalised a Sustainability department, which is helmed by Ms Jasmine Loo, and supported by various Heads of Department of the Manager, and the Heads of Department of the operations and technical teams of CLI. The Sustainability department regularly updates the Board on various climate-related topics, such as the 2030 SMP, climate-related risks and opportunities, green capital expenditure, green ratings of properties, and performance metrics, including carbon emissions data, progress towards reduction targets, and stakeholder expectations regarding climate change.

II. Board Composition

Nominating and Remuneration Committee

The NRC is entrusted to assist the Board in, inter alia, matters relating to the nomination of members of the Board and Board Committees, the review of the performance of the Board, Board Committees and individual directors, the independence of IDs, oversight of leadership development and succession planning, and the remuneration framework for Directors and key management personnel (KMP), including the CEO.

At present, the NRC comprise three Non-Executive Directors, two of whom are IDs. The NRC is chaired by Ms Tan Ming-Li (Ms Tan), a Non-Executive independent director, succeeding Mr Patrick Tan, who relinquished his position as Chairman of the NRC following his appointment as Chairman of the Board effective 1 January 2026. The roles and responsibilities of the NRC are governed by its Terms of Reference (NRC TOR), a copy of which is available on the Website.

A summary of key activities undertaken by the NRC in discharging its duties during the financial year under review is set out below:

- (a) assessed the performance of the Board, Board Committees and individual Directors based on the results of the duly completed Board Evaluation Questionnaire;
- (b) assessed the independence of all Non-Executive IDs;
- (c) reviewed the structure, size and composition of the Board and Board Committees;
- (d) reviewed the payment of Non-Executive Directors' Fees;
- (e) reviewed the extension of Mr Patrick Tan's term in office for an additional year, in line with the Manager's established guideline that an ID may serve for an initial two three-year terms, with any extension subject to Board approval, and recommended to the Board for approval;
- (f) reviewed the proposed appointment of Ms Yong Su-Lin (Ms Yong) as Chief Executive Officer and recommended to the Board for approval;
- (g) reviewed the granting of award of CLMT Units to eligible participants in accordance with CMRM's Restricted Unit Plan 2023 and CMRM's Performance Unit Plan 2023;
- (h) reviewed CLMT's BSC for FY 2025 and the achievements against the FY 2024's BSC;
- (i) reviewed and proposed the appointment of Ms Wong Kar Ling (Ms Wong) as Non-Executive Non-Independent Director and as Member of the Exco to the Board for approval;
- (j) reviewed the Board Evaluation Questionnaire for FY 2025; and
- (k) reviewed and proposed the changes in Exco, NRC and Board composition to the Board for approval.

Board Independence

At present, the Board has a strong independent element as four out of seven Directors, including the Chairman, are Non-Executive IDs. Other than the CEO, Non-Executive Directors make up the rest of the Board. None of the Directors have served on the Board for nine years or longer. Profiles of the Directors are provided in the Board of Directors section on pages 16 to 19 of this Annual Report.

The Board, through the NRC, reviews the size and composition of the Board and Board Committees regularly, to ensure that they are appropriate to support effective deliberations and decision making, and the composition reflects a strong independent element and diversity of thought and background. The review takes into account the scope and nature of CLMT Group's operations, external environment and competition.

The Board, through the NRC, assesses annually (and when circumstances require) the independence of each Director in accordance with the Listing Requirements, REITs Guidelines and the guidance in the Code. There is also a rigorous process to evaluate the independence of each ID. As part of the process:

- (a) each ID discloses his or her business interests and confirms, upon appointment as well as on an annual basis, that there are no relationships which interfere with the exercise of his or her independent business judgement in the Unitholder's best interests, and such information is then reviewed by the NRC; and
- (b) the NRC also considers the IDs' conduct and contributions at Board and Board Committee meetings, in particular, whether he or she has exercised independent judgement in discharging his or her duties.

Thereafter, the NRC's recommendation is presented to the Board for its endorsement. Each ID must recuse themselves from the NRC's and Board's deliberations on their own independence. The NRC also reviews the independence of an ID when there is a change in their circumstances and makes recommendations to the Board. IDs are required to report to the Manager any changes which may affect their independence.

The outcome of the assessment in the review of the independence of the IDs for FY 2025 is set out below.

Mr Patrick Tan, Mr Foo Wei Hoong (Mr Foo), Ms Tan and Datin Hayati Aman Binti Hashim (Datin Hayati) have confirmed that they do not have any relationships which

could interfere with the exercise of their independence and have therefore demonstrated independence of character and judgement in the discharge of their responsibilities as Directors of the Manager during the financial year. The Board, based on the assessment conducted by the NRC, is of the view that these Directors have exercised independent judgement in the discharge of their duties and responsibilities. The Board therefore determined that Mr Patrick Tan, Mr Foo, Ms Tan and Datin Hayati are IDs.

The Board is of the view that as at the last day of FY 2025, Mr Patrick Tan, Mr Foo, Ms Tan and Datin Hayati were able to act in the Unitholders' best interests in respect of the period in which they served as directors in FY 2025. Based on the assessment, other than Ms Yong⁴, Ms Goh Gek Hiang (Wu Yuxian) (Ms Patricia Goh)⁵ and Ms Wong⁶, all members of the Board are considered to be IDs.

Board Diversity

The Board embraces diversity and has a Board Diversity Policy which provides for the Board to comprise talented and dedicated Directors with a diverse mix of expertise, experience, perspectives, skills and backgrounds, with due consideration to diversity factors, including diversity in business or professional experience, age and gender.

The Board values the benefits that diversity can bring to the Board in its deliberations by enhancing decision-making capacity, avoiding groupthink and fostering constructive debate, which contributes to the effective governance of CLMT's business and long-term sustainable growth.

As at the date of this Statement, the Board comprises Directors who are professionals with varied backgrounds, expertise and experience in areas such as investment, fund management, real estate, accounting and finance, banking, and legal. The Board has five (5) female Directors out of seven (7) Board members, representing 71% of the Board's composition, exceeding the Code's recommendation of at least 30% women directors. As for senior management, Management had achieved its goal of having at least 30% female representation in the senior management positions.

The NRC has reviewed the structure, size and composition of the Board and Board Committees and is of the opinion that the current structure, size and composition of the Board and Board Committees is appropriate with an appropriate balance and diversity of skills, knowledge, experience, gender, age and tenure, taking into account the Board Diversity Policy and Fit and Proper Policy adopted by the Manager and in line with the requirements under the

Listing Requirements, REITs Guidelines, and the Code, as well as the CLMT Group's business needs and plans, for effective decision-making and constructive debate.

Fit and Proper Policy

The Board adopted the Directors' Fit and Proper Policy in line with Paragraph 15.01A of the Listing Requirements which outlined the fit and proper criteria for the appointment and re-appointment of Directors on the Board of the Manager and its subsidiaries. The said policy is devised to ensure that each of the Directors has the character and integrity; experience and competence; and time commitment to effectively discharge his or her role as a Director of the Manager and its subsidiaries. A copy of the Directors' Fit and Proper Policy is available on the Website.

Although the appointment and re-appointment of Directors of the Manager are not subject to the approval of the Unitholders of CLMT, the Board has established a formal and transparent process for these appointments. The NRC assists the Board in reviewing and recommending all nominations for the appointment and re-appointment of Directors. In evaluating Board candidates, the NRC considers candidates based on merit, objective criteria and the benefits of diversity on the Board while ensuring that appointees have sufficient time to devote to their roles. Prior to the appointment as a Director, the proposed appointee is required to disclose any existing business interests that may result in a conflict of interest/potential conflict of interest and to report any future business interests that could give rise to such conflicts. The NRC also oversees the appointment of members to the various Board Committees.

During the year under review and up to the date of this Statement, there were several changes to the composition of the Board and Board Committees. Ms Yong assumed the role of CEO and Non-Independent Executive Director, succeeding Mr Tan Choon Siang who resigned from both positions effective 1 February 2025. Ms Wong was appointed to the Board and as a member of Exco effective 1 May 2025. Following the resignation of Dato' Jeffrey Ng and Mr Lim Cho Pin Andrew Geoffrey (Mr Andrew Lim) as Directors of the Manager effective 1 January 2026, Mr Patrick Tan was redesignated as Chairman of the Board in place of Dato' Jeffrey Ng and ceased to be the Chairman of the NRC. Ms Tan was appointed as Chairman of the NRC in place of Mr Patrick Tan, while Ms Patricia Goh was redesignated as Chairman of the Exco and appointed as a member of the NRC in place of Mr Andrew Lim.

⁴ Ms Yong is considered non-independent by virtue of her employment as CEO of the Manager.

⁵ Ms Patricia Goh is considered non-independent by virtue of her employment with CLI Group.

⁶ Ms Wong is considered non-independent by virtue of her employment with CLI Group.

The NRC reviewed the experience, skills, expertise and time commitment of the Directors, including the newly appointed Directors, Ms Yong and Ms Wong prior to their appointment, to assess their suitability to serve on the Board and relevant Board Committees. The NRC was satisfied that they met the criteria set by the Board and would be able to contribute effectively. Based on the recommendation of the NRC, the Board subsequently reviewed and approved the appointment of Ms Yong and Ms Wong as Directors of the Manager as well as the changes to the composition of the Board Committees.

Board Composition and Renewal

The Board, through the NRC, strives to ensure that there is an optimal blend of backgrounds, experience, skills and expertise relevant to the evolving needs of the CLMT Group's business, and that each Director brings an independent and objective perspective to enable balanced and well-considered decisions to be made in the interests of the CLMT Group.

There is a structured process for determining Board composition and for selecting candidates for appointment as Directors. The NRC considers different time horizons for purposes of succession planning. The Board, through the NRC, evaluates the Board's competencies on a long-term basis and identifies competencies which may be further strengthened in the long-term to achieve CLMT's strategy and objectives.

As part of medium-term planning, the NRC seeks to refresh the membership of the Board progressively and in an orderly manner, whilst ensuring continuity and sustainability of corporate performance. The NRC also considers contingency planning to prepare for sudden and unforeseen changes. In reviewing succession plans, the NRC has in mind CLMT's strategic priorities and the factors affecting the long-term success of CLMT. The NRC aims to maintain an optimal board composition by considering the trends affecting CLMT, reviewing the skills needed and identifying gaps, including considering whether there is an appropriate level of diversity of thought. The process ensures that the Board has capabilities and experience which align with CLMT's strategy and the operating environment, and includes the following considerations: (a) the current size of the Board and Board Committees, composition mix and core competencies, (b) the candidate's/Director's independence, in the case of an ID, (c) the composition requirements for the Board and relevant Board Committees (if the candidate/Director is proposed to be appointed to any Board Committee), and (d) the candidate's/Director's age, gender, track record, experience and capabilities and such other relevant factors as may be determined by the Board, which would

provide an appropriate balance and contribute to the collective skills of the Board.

The Board supports continuous renewal for good governance and has guidelines which provide for IDs' tenure of no more than a maximum of two three-year terms, with any extension of tenure beyond six years to be reviewed on a yearly basis up to a period of nine years (inclusive of the initial two three-year terms served) by the NRC. Board succession planning is part of the NRC's annual review of the Board's composition as well as when a Director gives notice of his/her intention to retire or resign. The annual review takes into account, among others, the requirements in the Listing Requirements and the Code, feedback from any Board member and the diversity factors stated in the Board Diversity Policy and Directors' Fit and Proper Policy. The outcome is reported to the Board. The Board strives for orderly succession and continually looks to fill future gaps in competencies and to renew the Board in a progressive manner, whilst ensuring continuity and sustainability of corporate performance.

The NRC identifies and recommends suitable candidates to the Board for Board appointments. Searches for possible candidates are conducted through contacts and recommendations. The Board may engage external consultants to ensure a diverse slate of candidates. Candidates are identified based on CLMT's need, taking into account skill required and the requirements in the Listing Requirements, REITs Guidelines and the Code, and assessed against a range of criteria including their demonstrated business sense and judgement, skills and expertise, and market and industry knowledge (and may include financial, sustainability or other competency and business background) with due consideration to diversity factors in the Board Diversity Policy and Directors' Fit and Proper Policy. The NRC also considers the candidate's alignment with CLMT's strategic directions and values, ability to commit time and potential to complement the expertise and experience of existing Board members, as well as any qualitative feedback from Directors and Management from its annual Board evaluation exercise.

Board Performance

The Manager believes that annual self and peer assessment as well as evaluation of Board performance enables the Board to reflect on its effectiveness, including the quality of its decisions, and for Directors to consider their performance and contributions. The process helps identify key strengths and areas for improvement which are essential to effective stewardship of CLMT.

The NRC recommends for the Board's approval, the process and objective performance criteria, and the Board undertakes an annual evaluation of the effectiveness of

Corporate Governance

the Board, Board Committees and individual Directors. The criteria for the evaluation are guided by the Corporate Governance Guide issued by Bursa Malaysia Berhad. As part of the process, a questionnaire is sent to the Directors. The evaluation results are aggregated and reported to the NRC, and thereafter the Board. The findings are considered by the Board and follow up action is taken where necessary. For FY 2025, no independent experts were appointed to assist in the evaluation process of the Board and Board Committees.

For Board and Board Committees, the evaluation categories covered in the questionnaire include Board structure, Board strategy, performance and governance, Board functions and practices, ESG or sustainability and Board Committees' effectiveness. As part of the questionnaire, the Board also considers whether the creation of value for Unitholders has been taken into account in the decision-making process.

For individual directors, the self-assessment evaluation covered in the questionnaire assesses the fit and proper criteria of a director, focusing on areas in fitness and propriety; contribution and performance; and calibre and personality. Meanwhile the peer assessment evaluation covered categories including the director's duties, contributions, conduct and interpersonal skills, as well as strategic thinking and risk management.

For FY 2025, the outcome of the evaluation was satisfactory and the Board as a whole, each of the Board Committees and each individual directors received affirmative ratings across all the evaluation.

The Board believes that the performance evaluation should be an ongoing process and seeks feedback on a regular basis. The regular interactions between the Directors, and between the Directors and Management, also contribute to this ongoing process. Through such engagement, the Board benefits from an understanding of shared norms between Directors which contributes to a positive Board culture.

III. Remuneration

Remuneration Matters

All fees and remuneration payable to Directors, KMP (including the CEO) and staff of the Manager are paid by the Manager.

The Board, assisted by the NRC, has a formal and transparent procedure for developing policies on Director and executive remuneration, and for determining the remuneration packages of individual Directors and KMP. The NRC which comprises exclusively Non-Executive Directors, the majority of whom (including

the NRC Chairman) are IDs, has been tasked with duties and responsibilities to assist the Board in reviewing the appropriate framework and policies on matters relating to remuneration and compensation of the Board and KMP.

In FY 2025, Willis Towers Watson (WTW) was appointed as independent remuneration consultant to provide professional advice on the Board remuneration. WTW is not related to the Manager or any Directors, its controlling shareholder or its directors or CLI's related corporations.

Remuneration Policy and Framework

The remuneration policy and framework, which take reference from the compensation framework of CLI, are designed to support the implementation of CLMT Group's business strategy and deliver sustainable returns to Unitholders.

The Manager is an indirect subsidiary of CLI which also holds a significant stake in CLMT. This association facilitates the Manager in attracting and retaining better qualified management talent. It further provides an intangible benefit to the employees of the Manager by offering the depth and breadth of experience associated with an established corporate group and enhanced career development opportunities.

The Remuneration Policy has four key principles:

Business Alignment

- Focuses on generating rental income and enhancing asset value over time so as to maximise returns from investments and ultimately the distribution and total return to Unitholders.
- Provides sound and structured funding to ensure affordability and cost-effectiveness in line with performance goals.
- Enhances retention of key talent to build strong organisational capabilities.
- Strengthens alignment to ESG practices.

Fair & Appropriate

- Ensures competitive remuneration relative to the appropriate external talent markets.
- Manages internal equity such that remuneration is viewed as fair across the CLMT Group.
- Puts significant and appropriate portion of pay-at-risk, taking into account risk policies of the CLMT Group, symmetrical with risk outcomes and sensitive to risk time horizon.

Motivate Right Behaviour

- Pay-for-performance – align, differentiate and balance rewards according to multiple dimensions of performance.
- Strengthens line-of-sight by linking rewards with performance.

Effective Implementation

- Maintains rigorous corporate governance standards.
- Exercises appropriate flexibility to meet strategic business needs and practical implementation considerations.
- Facilitates employee understanding to maximise the value of the remuneration programmes.

Under the Remuneration Framework, a significant proportion of the KMP's, including the CEO's, total remuneration is in the form of variable compensation, awarded in a combination of short-term, deferred and long-term incentives, to ensure alignment of the CEO's and KMP's interests with those of the Unitholders, with an emphasis on linking pay to business and individual performance. Performance targets are hence set at realistic yet stretched levels each year to motivate a high degree of business performance with emphasis on both shorter-term and longer-term quantifiable objectives. There are four key components of the remuneration for the CEO and KMP:

(1) Salary:

Includes the base salary, fixed allowances and compulsory employer contribution to the employees' Employees Provident Fund. The base salary is remunerated based on

an employee's competencies, experience, responsibilities and performance. It is typically reviewed on an annual basis to ensure market competitiveness.

(2) Performance Bonus:

Using the BSC framework, the CLMT Group's strategies and goals are translated to performance outcomes comprising both quantitative and qualitative targets in the dimensions of REIT Performance, Preparing for Future, Manager's Financial Health and Sustainability. These BSC targets are approved by the Board and cascaded down throughout the organisation, thereby creating alignment across the CLMT Group. The performance measures and their relative weights in each dimension are reviewed annually to reflect the CLMT Group's business priorities and focus for the relevant year.

After the close of each financial year, the Board reviews the CLMT Group's achievements against the BSC targets and determines the overall performance taking into consideration qualitative factors such as the quality of earnings, operating environment, regulatory landscape and industry trends. In determining the payout quantum for each KMP, the NRC considers the overall business and individual performance as well as the affordability of the payout to the Manager.

The Performance Bonus is paid out in the form of a cash bonus and deferred Units awards upon total performance bonus meeting certain amount of threshold based on pre-determined percentage. Deferred Units awards are awarded pursuant to CapitaLand Malaysia REIT Management Sdn. Bhd. Restricted Unit Plan (RUP) and vests in three equal annual tranches without further performance condition. Recipients will receive fully paid Units, their equivalent cash value or combinations thereof. The Units awards ensure ongoing alignment between remuneration and sustainable business performance.

	REIT Performance	Preparing for Future
Key Objectives	This includes targets relating to profitability and distributions, investors' outreach and communication, capital structure, as well as financial and risk management.	This includes targets relating to asset performance and occupancy, assets enhancements, capital recycling and balance sheet's health.
	Manager's Financial Health	Sustainability
Key Objectives	This includes targets relating to Manager's financial viability and efficiency.	This includes targets relating to talent retention, succession planning, sustainable corporate practices and workplace safety.

(3) Long-Term Incentives:

The Manager has established the CapitaLand Malaysia REIT Management Sdn. Bhd. Performance Unit Plan (PUP) and RUP, together the "Unit Plans", to promote the alignment of Management's interests with that of Unitholders and CLMT's long-term growth and value. The obligation to deliver the Units is satisfied out of existing Units held by the Manager.

CLI has established Unit ownership guidelines for senior management to instil stronger identification with the long-term performance and growth of the Group. Under these guidelines, selected members of senior management of the Manager are required to retain a prescribed proportion of Units received under the Unit Plans worth up to at least one (1) year of basic salary.

Units vested pursuant to the Unit Plans may be clawed back in circumstances where the relevant participants are found to be involved in financial misstatement, misconduct, fraud or malfeasance, to the detriment of the CLMT Group.

CapitaLand Malaysia REIT Management Sdn. Bhd. Performance Unit Plan

Pursuant to the PUP, Units are awarded to senior management which are conditional on the achievement of targets relating to the following key measurements of wealth creation for Unitholders and commitment of the CLMT Group towards sustainability.

- (a) **Returns:** Relative Total Unitholder Return (TUR) of CLMT which is based on the percentile ranking of the TUR of CLMT relative to its Malaysian REIT peers;
- (b) **Portfolio Growth:** Net Asset Value per Unit; and
- (c) **Sustainability:** Percentage of gross floor area with green building certification.

The final number of PUP Units to be released will depend on the achievement of pre-determined targets over a three-year qualifying performance period. This serves to align Management's interests with that of Unitholders in the longer term and to deter short-term risk taking. No Unit will be released if the threshold targets are not met at the end of the qualifying performance period. If superior targets are met or exceeded, more Units than the baseline award can be delivered, up to a maximum of 200% of the baseline award. The NRC has the discretion to adjust the number of Units released taking into consideration other relevant quantitative and qualitative factors. Recipients will receive fully paid Units, their equivalent cash value or combinations thereof, at no cost.

In respect of the Unit awards granted pursuant to the PUP in FY 2024 and FY 2025, the qualifying performance period has not ended as at the date of this Statement.

CapitaLand Malaysia REIT Management Sdn. Bhd. Restricted Unit Plan

Pursuant to the RUP, deferred Units from the Performance Bonus awards vest in three equal annual tranches without further performance conditions with the first tranche delivered in the same year as the year of award. As part of FY 2025 Performance Bonus, deferred Units will be awarded in FY 2026 pursuant to the RUP, which will vest in three equal annual tranches without further performance conditions, with the first tranche to be delivered in FY 2026.

(4) Employee Benefits:

The benefits provided are comparable with local market practices.

Remuneration of Key Management Personnel

Each year, the NRC evaluates the extent to which each of the KMP has delivered on the business and individual goals and objectives, and based on the outcome of the evaluation, approves remuneration for the KMP. In such evaluation, the NRC considers whether the level of remuneration is appropriate to attract, retain and motivate the KMP to successfully manage CLMT Group for the long-term. The CEO does not attend discussions relating to his/her own performance and remuneration.

In determining the remuneration package for each KMP, the NRC takes into consideration appropriate compensation benchmarks within the industry, so as to ensure that the remuneration packages payable to KMP are competitive and in line with the objectives of the remuneration policies.

While the disclosure of the top five KMP's remuneration component in bands of RM50,000 on a named basis would be in full compliance with Practice 8.2 of the Code, the Board has considered carefully and decided that such disclosure, including the disclosure of CEO's remuneration, would not be in the interests of the Manager or Unitholder due to:

- (a) the intense competition for talents in the REIT management industry, the Manager is of the view that it is in the interests of Unitholders not to make such disclosures so as to minimise potential staff movement and undue disruption to its CEO and key management team;

- (b) the need to balance the confidential and commercial sensitivities associated with remuneration matters, the Manager is of the view that such disclosures could be prejudicial to the interests of Unitholders;
- (c) the importance of retaining competent and experienced staff to ensure CLMT Group's stability and continuity of business operations, the Manager is of the view that such disclosures may subject the Manager to undue risks, including unnecessary CEO and key management turnover; and
- (d) there being no misalignment between the remuneration of the CEO, KMP and the interest of Unitholders. Remuneration of CEO and KMP is not borne by the REIT as they are paid out from the fees that the Manager receives.

In FY 2025, there were no termination, retirement or post-employment benefits granted to Directors, the CEO and other KMP. There was also no special retirement plan, 'golden parachute' or special severance package for any KMP.

There were also no employees of the Manager who were substantial shareholders of the Manager, substantial Unitholders of CLMT or family of a Director, the CEO, any substantial shareholder of the Manager or any substantial Unitholder of CLMT. "Family" refers to the spouse, parent, child including adopted child and stepchild, brother or sister (sibling) or spouse of the child or sibling of the individual.

Remuneration for Non-Executive Directors

The remuneration policy for Non-Executive Directors is based on a scale of fees divided into basic retainer fees for serving as Director and additional fees for serving on Board Committees. There were no attendance fees payable, save for in-person participation by Directors at Board and Board Committee meetings that require Directors to travel overseas. Directors' fees are paid to Non-Executive Directors on a current year basis.

The CEO, who is an executive Director, is remunerated as part of the KMP of the Manager and does not receive any Director's fees for his/her role as an executive Director. As for the Non-Executive Directors who are employees of the CLI Group, their Directors' fee are paid in cash to the Manager's sole shareholder, CLI Asset Management Pte Ltd.

The Non-Executive Directors' fee structure and Directors' fees are reviewed and benchmarked against Malaysian REIT and property peers annually, taking into account the effort, time spent and responsibilities on the part of the Non-Executive Directors in light of the asset class(es), complexity and geographic scope of CLMT Group's business. The remuneration of Non-Executive Directors is reviewed from time to time to ensure that it is appropriate to attract, retain and motivate the Non-Executive Directors to provide good stewardship of the Manager and CLMT Group. The Non-Executive Directors' remuneration (including any Unit awards granted under the RUP in lieu of cash) does not include any performance-related elements. The framework for the Non-Executive Directors' fees has remained unchanged from that of the previous financial year.

Effective from FY 2024, the Non-Executive Directors' fees are paid in cash (about 80%) and in the form of Units (about 20%), save that any Non-Executive Director who is (i) a public officer or hold other board appointments that necessitate them not to hold shares; (ii) being requested by their employers to be paid fully in cash; or (iii) stepping down from the Board during the financial year, the fees for the Non-Executive Director will be paid fully in cash. The Manager believes that the payment of a portion of the Non-Executive Directors' fees in Units will serve to align the interests of Non-Executive Directors with the interests of Unitholders and CLMT Group's long-term growth and value. The payment of Non-Executive Directors' fees in Units is satisfied from the Units held by the Manager. No individual Director is involved in any decision of the NRC and Board relating to his or her own remuneration.

In order to encourage the alignment of the interests of the Non-Executive Directors with the interests of Unitholders, Units delivered to the Non-Executive Directors as Directors' fee payment shall be held for a minimum period of one year.

Corporate Governance

The Non-Executive Directors' fees are paid by the Manager and the FY 2025 fees, together with a breakdown of the components, are set out below.

Non-Executive Directors' Remuneration Table for FY 2025

Non-Executive Directors	Components of Directors' Fees ^{1, 2} (RM)		
	Cash Component	Units Component ²	Total Remuneration
Dato' Jeffrey Ng Tiong Lip ³	218,000	N.A.	218,000
Tan Boon Peng	116,000	29,000	145,000
Foo Wei Hoong	164,800	41,200	206,000
Tan Ming-Li	124,000	31,000	155,000
Datin Hayati Aman Binti Hashim ⁴	155,000	N.A.	155,000
Lim Cho Pin Andrew Geoffrey ⁶	187,000	N.A.	187,000
Goh Gek Hiang (Wu Yuxian) ⁶	142,000	N.A.	142,000
Wong Kar Ling ^{5, 6}	97,288	N.A.	97,288
Aggregate of the remuneration for Non-Executive Directors			1,305,288

N.A.: Not Applicable

- Inclusive the attendance fees of RM3,000 per meeting for overseas-based Director who travel to Malaysia to attend the meeting in person.*
- Each Non-Executive Director (save for Non-Executive Directors who are employees of CLI Group or stepping down during the financial year or public officers or holding other board appointments that necessitate them not to hold shares or being requested by the director concerned to be paid fully in cash) shall receive up to 20% of his/her Director's fees in the form of Units (subject to truncation adjustments). The remainder of the Director's fees shall be paid in cash. No new Units will be issued for this purpose as these Units will be paid by the Manager from the existing Units it holds.*
- Dato' Jeffrey Ng resigned as Chairman of the Board with effect from 1 January 2026. Fees will be paid fully in cash.*
- Fees to Datin Hayati will be paid fully in cash due to considerations relating to her other concurrent board appointments.*
- Ms Wong was appointed as a Director and a Member of the Exco with effect from 1 May 2025. Fees are prorated accordingly.*
- For Non-Executive Directors who are management appointees of CLI, the Director fees are payable to CLI Asset Management Pte Ltd.*

Principle B: Effective Audit and Risk Management

I. Audit Committee

Audit and Risk Committee

The ARC comprises three (3) members, all of whom (including the ARC Chairman) are IDs. The Chairman of the ARC is not the Chairman of the Board. The ARC members bring recent and relevant managerial and professional expertise or experience in accounting, auditing and related financial management domains. The ARC does not comprise former partners of the external auditors (EA), Deloitte Malaysia PLT (formerly known as Deloitte PLT) (Deloitte), who (a) within a period of three (3) years commencing from the date of their ceasing to be partners of Deloitte; or (b) have any financial interest in Deloitte. This cooling-off requirement is also adopted as policy and codified in the ARC Terms of Reference, which stipulate a minimum three-year cooling-off period before any former partner of the EA firm may be appointed to the ARC.

The ARC has explicit authority to investigate any matter within its terms of reference. Management provides the fullest co-operation in providing information and resources to the ARC, and carrying out its requests. The ARC has direct access to the internal and external auditors and full discretion to invite any Director or KMP to attend its meetings. Similarly, internal and external auditors have unrestricted access to the ARC.

The ARC has established an External Auditors' Independence Guideline that considers among others:

- The competence, audit quality and resource capacity of the EA in relation to the audit;
- The nature and extent of the non-audit services rendered and the appropriateness of the level of fees; and
- The written assurance obtained from the EA confirming that they are, and have been, independent throughout the conduct of the audit engagement in accordance with the terms of all relevant professional and regulatory requirements.

The External Auditor's Independence Guidelines was last revised and adopted by the Board on 27 April 2023.

The ARC reviewed the nature and extent of non-audit services provided by the EA during FY 2025 and the fees paid for such services. The ARC also undertook a review of the independence of the EA, taking into consideration, among other factors, CLMT's relationship with the EA in FY 2025, as well as the processes and safeguards adopted by the Manager and the EA relating to audit independence. Based on the review and the results of the assessment by Management of the EA in FY 2025, the ARC is satisfied that the EA are adequately resourced, effective and independent, the latter of which was confirmed through the provisions of the EA's written confirmation of their independence to the ARC. The aggregate amount of fees paid and payable to the EA for FY 2025 was RM207,200, of which audit assurance fees amounted to RM141,700 and non-audit assurance fees amounted to RM65,500.

At present, there is a level of financial literacy amongst the ARC members who collectively have the appropriate competence and sufficient understanding of CLMT Group's business. The qualification and experience of the individual ARC members are disclosed in the profile of

Directors provided under our Board of Directors section in this Annual Report.

In FY 2025, the ARC held two (2) private sessions with the internal and external auditors, separately and without Management's presence, to discuss among others, the financial reporting process, the internal controls and risk management systems, and the significant comments and recommendations by the auditors.

In FY 2025, changes to accounting standards, accounting systems and accounting issues which have a direct impact on the financial statements were reported to and discussed with the ARC at its meetings.

Key Audit Matters

In the review of the CLMT Group's financial statements for FY 2025, the ARC discussed with Management the accounting principles applied and their judgement of items that might affect the integrity of the financial statements and also considered the clarity of key disclosures in the financial statements. The ARC reviewed, amongst other matters, the following key audit matter as reported by the EA for FY 2025.

Key Audit Matter	How this issue was addressed by the ARC
Valuation of investment properties	The ARC considered the valuation methodologies and key assumptions applied by the valuers for the investment properties in arriving at the valuations and also evaluated the valuers' objectivity and competency. The ARC reviewed the outputs from the valuation process of the investment properties and held discussions with Management and EA to review the valuation methodologies, focusing on significant changes in fair value measurement and key drivers of the changes including assessing the reasonableness of the capitalisation rates adopted by the valuers. The valuation of investment properties was also an area of focus for the EA. The ARC considered the findings of the EA, including their assessment of the appropriateness of valuation methodologies and the key assumptions applied in the valuation of investment properties. The ARC was satisfied with the valuation process, the methodologies used and the valuation of the investment properties. No significant matter came to the attention of the ARC during the review.

II. Risk Management and Internal Control Framework

The Manager maintains an adequate and effective system of risk management and internal controls (including financial, operational, environmental, compliance and information technology (IT) controls) to safeguard Unitholders' interests and CLMT Group's assets.

The Board has overall responsibility for the governance of risk and oversees the Manager in the design,

implementation and monitoring of the risk management and internal control systems.

Given the size and scale of CLMT Group's operations, there is no separate Risk Management Committee as the AC and Exco have been entrusted to assist the Board in carrying out the Board's responsibility of overseeing the risk management framework and policies for the CLMT Group and the members of the AC and Exco have the relevant skills and capabilities to do so.

Corporate Governance

The Board on 22 October 2025 resolved that all duties and responsibilities related to risk management be removed from the Exco, and that these duties and responsibilities have henceforth been assumed by the CEO and the CFO of the Manager. The CEO and CFO continue to provide assurance to the AC and the Board that CLMT's Group systems of risk management and internal controls are adequate and effective in addressing the risks which the Manager considered relevant and material to the current business environment. They, in turn obtain similar assurances from the respective departments/function heads. The AC was subsequently renamed the ARC on 22 October 2025.

The ARC, guided by its terms of reference (a copy of which is available on the Website), had during FY 2025:

- (a) made recommendations to the Board on CLMT Group's risk strategy, risk appetite and risk limits;
- (b) assessed the adequacy and effectiveness of the risk management and internal control systems established by the Manager to manage risks;
- (c) oversaw the formulation, updating and maintenance of an adequate and effective risk management framework, policies and strategies for managing risks that were consistent with CLMT Group's risk appetite and reported to the Board on its decisions on any material matters concerning the aforementioned;
- (d) made the necessary recommendations to the Board such that an opinion regarding the adequacy and effectiveness of the risk management and internal controls systems could be made by the Board in this Annual Report; and
- (e) considered and advised on risk matters referred to it by the Board or Management, including reviewing and reporting to the Board on any material breaches of the Risk Appetite Statement (RAS), any material non-compliances with the approved framework and policies and the adequacy of any proposed actions.

The Manager adopts an Enterprise Risk Management (ERM) Framework which sets out the required environmental and organisational components for managing risks in an integrated, systematic and consistent manner. The ERM Framework and related policies are reviewed annually.

As part of the ERM Framework, the Manager undertakes and performs a Risk and Control Self-Assessment (RCSA) annually to identify material risks along with their mitigating measures. The adequacy and effectiveness of the systems of risk management and internal controls are reviewed at least annually by Management, the ARC and the Board.

CLMT Group's RAS, which incorporates the CLMT's Group risk limits, addresses the management of material risks faced by CLMT Group. Alignment of CLMT Group's risk profile to the RAS is achieved through various communication and monitoring mechanisms (including key risk indicators set for Management) put in place across the various functions.

More information on the Manager's ERM Framework including the material risks identified can be found in the Risk Management section on pages 118 to 122 of this Annual Report.

The internal and external auditors conduct reviews of the adequacy and effectiveness of the material internal controls (including financial, operational, environmental, compliance and IT controls) and risk management systems. This includes testing, where practicable, material internal controls in areas managed by external service providers. Any material non-compliance or lapses in internal controls together with corrective measures recommended by the internal and external auditors are reported to and reviewed by the ARC. The ARC also reviews the adequacy and effectiveness of the measures taken by the Manager on the recommendations made by the internal and external auditors in this respect.

The Board has received assurance from the CEO and CFO that the systems of risk management and internal controls for the CLMT Group are adequate and effective to address the risks (including financial, operational, environmental, compliance and IT risks) which the Manager considers relevant and material to its current business environment. The CEO and CFO have obtained similar assurances from the respective risk and control owners who have responsibility regarding various aspects of risk management and internal controls.

Based on the ERM Framework established and the reviews conducted by Management, and both the internal and external auditors, as well as the assurance from the CEO and the CFO, the Board is of the opinion, that the system of risk management and internal controls (including financial, operational, environmental, compliance and IT risks) which the CLMT Group considers relevant and material to its current business environment as at 31 December 2025 is adequate. No material weaknesses in the systems of risk management and internal controls were identified by the ARC and the Board in the review for FY 2025.

The Board notes that the systems of risk management and internal control established by the Manager provide reasonable assurance that CLMT Group, as it strives to achieve its business objectives, will not be significantly affected by any event that can be reasonably foreseen or anticipated. However, the Board also notes that no system

of risk management and internal controls can provide absolute assurance in this regard, or absolute assurance against poor judgement in decision making, human error, losses, fraud or other irregularities.

Internal Audit

The Manager has an internal audit (IA) function supported by CLI's Internal Audit Department (CLI IA). The head of CLI IA is Dr Jenny Tan. CLI IA is independent of the activities it audits and has unfettered access to the CLMT Group's documents, records, properties and employees, including access to the ARC, and has appropriate standing with respect to the Manager. CLI IA's primary reporting line for CLMT Group is the ARC⁷.

The ARC monitors and assesses the role and effectiveness of the IA function through the review of the IA processes from time to time. The ARC also reviews to ensure that CLI IA is adequately resourced and skilled in line with the nature, size and complexity of the Manager and CLMT Group's business.

In respect of FY 2025, the ARC reviewed the IA function and is satisfied that the IA function is adequately resourced, effective and independent. In addition, CLI IA has passed the quality assurance review conducted by an external independent auditor.

CLI IA formulates its internal audit plan in consultation with, but independently of, Management. Its plan is submitted to the ARC for approval prior to the beginning of each financial year. CLI IA also reviews compliance with CLMT Group's policies, procedures and regulatory responsibilities, performed in the context of financial and operational and information system reviews.

During FY 2025, the ARC reviewed the results of audits performed by CLI IA based on the approved audit plan. All findings are reported to Management and the ARC, with emphasis on any significant findings. CLI IA also reviews the status of implementation of the audit recommendations, and reports the same to Management and the ARC. The ARC reviewed reports on whistleblower complaints reviewed by CLI IA to ensure independent and thorough investigation and adequate follow-up. The ARC also received reports on related party transactions (RPTs) reviewed by CLI IA that they were on normal commercial terms and are not prejudicial to the interests of CLMT and its minority Unitholders.

The total costs incurred for the internal audit function for FY 2025 amounted to RM385,746.

CLI IA

CLI IA employs suitably qualified professional staff with the requisite skill sets and experience, including IT auditors with the relevant professional IT certifications who are also members of the Information Systems Audit and Control Association (ISACA) Singapore Chapter, a professional body administering information systems audit and information security certifications that is headquartered in the United States of America. CLI IA provides training and development opportunities for its staff to ensure their technical knowledge and skill sets remain current and relevant. CLI IA is guided by the International Standards for the Professional Practice of Internal Auditing (Standards) developed by The Institute of Internal Auditors (IIA), and has incorporated these Standards into its audit practices. None of the CLI IA team members are related to the Management.

As of 31 December 2025, CLI IA staff strength is at 25 persons, including Head of CLI IA.

CLI IA is headed by Dr Jenny Tan. She has more than 15 years of experience in Internal Audit, Compliance and Group Finance. Dr Jenny Tan has a Doctor of Philosophy (PhD) from Singapore Management University, Masters of Professional Accounting (MPA) from University of Adelaide (Australia) as well as a Masters of Business Administration (MBA) from the University of Leicester (UK).

Principle C: Integrity in Corporate Reporting and Meaningful Relationship with Stakeholders

I. Engagement with Stakeholders

Timely Disclosure of Information

The Manager is committed to keeping all Unitholders, other stakeholders, analysts and the media informed of CLMT's performance and any changes in the CLMT Group or its business which is likely to materially affect the price or value of the Units, by posting announcements and news releases on Bursa Securities and the Website in compliance with regulatory requirements, on a timely and consistent basis.

In FY 2025, the Manager provided Unitholders with quarterly and full-year financial statements within the relevant periods under the Listing Requirements. Such financial statements were reviewed and approved by the Board before being announced on Bursa Securities and accompanied by news releases. In presenting the financial

⁷ While CLI IA's primary reporting line is to the ARC for the CLMT Group, the ARC does not determine the appointment, termination, or remuneration of the head of CLI IA, as such decisions are made at the CLI Group level.

Corporate Governance

statements to Unitholders, the Board sought to provide Unitholders with a balanced, clear and comprehensible assessment of CLMT and the CLMT Group's performance, position and prospects. In addition, the Manager also keeps CLMT's Unitholders, stakeholders and analysts informed of the performance and changes in the CLMT Group or its business which would likely materially affect the price or value of the Units. The Manager also conducts analysts' and media briefings, and uploads the briefing materials used on Bursa Securities.

The Manager has a formal policy on corporate disclosure controls and procedures to ensure that CLMT complies with its disclosure obligations under the Listing Requirements. These controls and procedures incorporate the decision-making process and an obligation on internal reporting of the decisions made.

Investor Relations

The Manager has an Investor Relations and Sustainability department which facilitates effective communication with Unitholders, investment community and the media. The Manager maintains the Website containing information on CLMT including its announcements and news releases, financial statements, investor presentations and annual reports of CLMT.

The Manager actively engages with Unitholders to solicit and understand their views, and has a Unitholders' Communication and Investor Relations Policy (IR Policy) to promote regular, effective and fair communication with Unitholders. The IR Policy, which sets out the mechanism through which Unitholders may contact the Manager with questions and through which the Manager may respond to such questions, is available on the Website. Unitholders are welcomed to engage with the Manager beyond general meetings by contacting the Investor Relations department whose details may be found on the Website under the heading Ask Us or email the Manager at ask-us@clmt.com.my.

More information on the Manager's investor and media relations initiatives can be found in the Investor & Media Relations section on pages 32 to 33 of this Annual Report.

Managing Stakeholder Relationships

The Board's role includes considering sustainability as part of its strategy formulation. The Manager adopts an inclusive approach for CLMT by considering and balancing the needs and interests of material stakeholders. The Manager is committed to sustainability and incorporates the key principles of environmental and social

responsibility, and corporate governance in CLMT's business strategies and operations. The Manager has arrangements to identify, engage and manage relationships with material stakeholder groups from time to time, and gathers feedback on the sustainability issues most important to them. The Manager also updates the Website with current information on its sustainability approach and stakeholder engagements, to facilitate communication and engagement with CLMT's stakeholders.

The rights of CLMT's creditors including lending banks, are protected with a well-spread debt maturity, healthy interest coverage ratio and gearing ratio below the regulated limit. Regular internal reviews are also conducted to ensure that various capital management metrics remain compliant with loan covenants.

II. Conduct of General Meetings

The Manager is committed to treating all Unitholders fairly and equitably. All Unitholders enjoy specific rights under the Trust Deed and the relevant laws and regulations.

General Meetings

CLMT encourages Unitholders' participation and voting at general meetings. Unitholders may download the annual report and notice of the general meeting from the Website and Bursa Securities and printed copies of the same are available upon request. More than the legally required notice period for general meetings is generally provided. Notices of the general meetings are also advertised in the press and announced to Bursa Securities via Bursa LINK. To safeguard the Unitholders' interests and rights, a separate resolution is proposed for each substantially separate matter to be approved at a general meeting, unless the issues are interdependent and linked to form one significant proposal. Where the resolutions are bundled, the reasons and material implications are explained in the notice of general meeting. The rationale and explanation for each agenda item which requires Unitholders' approval at a general meeting are provided in the notice of the general meeting or in the accompanying notes/circular (if any) issued to Unitholders in respect of the matter(s) for approval at the general meeting. This enables Unitholders to exercise their votes on an informed basis.

In FY 2025, CLMT held an Annual General Meeting (AGM) on 4 April 2025 (2025 AGM) and a Unitholders' Meeting on 22 July 2025 (Unitholders' Meeting) by way of physical meetings (collectively, the 2025 General Meetings). All Unitholders were given at least 28 days' notice prior to

the 2025 General Meetings, which is beyond the minimum requirement of 21 days. The notice includes details of the resolutions proposed along with any background information and reports or recommendations that are relevant.

Management made a presentation to Unitholders at the 2025 AGM to update them on CLMT Group's performance, position and prospects. Similarly, Management prepared a presentation to Unitholders to update them on CLMT's rationale for the proposed placement exercise and updates on ongoing acquisitions at the Unitholders' Meeting. The presentation materials were also made available to Unitholders on the Website and Bursa Securities after the meeting. Unitholders were informed of the rules governing general meetings and were given the opportunity to communicate their views and discuss with the Board and Management on matters affecting CLMT Group. Representative of the Trustee, all Directors (including the chairmen of the respective Board Committees), KMP and CLMT's EA were present throughout the 2025 AGM to address any queries from Unitholders. For the Unitholders' Meeting, representative of the Trustee, all Directors save for Ms Tan and Datin Hayati who were unable to attend due to unforeseen circumstances, KMP and principal advisor of CLMT were present to address any queries from Unitholders.

The upcoming AGM will be held on 8 April 2026. Full details of the resolutions can be found in the Notice of Annual General Meeting section on pages 234 to 238 of this Annual Report.

To ensure transparency in the voting process and better reflect Unitholders' interest, CLMT conducts electronic poll voting for all the resolutions proposed at general meetings. One Unit is entitled to one vote. Voting procedures and the rules governing general meetings are explained and votes cast on each resolution and the respective percentage are displayed on screen to Unitholders immediately after the scrutineer verified the voting results for each resolution at the general meetings. An independent scrutineer is appointed to validate the vote tabulation procedures. The results of the votes cast on the resolutions are announced on Bursa

Securities after the general meetings. Voting in absentia and by email may only be possible following a thorough assessment to ensure that the integrity of information and authentication of the identity of Unitholders through the web are not compromised.

At the 2025 General Meetings, electronic poll voting managed by the Poll Administrator, Boardroom Share Registrars Sdn. Bhd., were conducted for all the resolutions proposed at the meetings. The administrative details of the 2025 General Meetings as well as the detailed registration and voting procedures were shared with the Unitholders and the same were also published on the Website.

Unitholders were encouraged to pose questions in advance of the general meetings through a dedicated website managed by the Poll Administrator. Questions received from Unitholders prior to and during the 2025 General Meetings were displayed on the screen for all meeting participants during the meeting. The questions were duly addressed and responded by the Board and the Management.

Minutes of the general meetings, recording the questions raised and answers provided, are prepared and made available to Unitholders for their inspection upon request. The Minutes of the general meetings were also made available on the Website within 30 business days after the general meetings were held.

Additional Information

Dealing with Related Parties

Review Procedures for Related Party Transactions [including Recurrent Related Party Transactions (RRPT)]

The Manager has internal control procedures to ensure that all RPT and RRPT are in compliance with the Listing Requirements and REITs Guidelines. The Manager would have to demonstrate to the ARC that such RPTs and RRPTs are undertaken at arm's length, on normal commercial terms and are not prejudicial to CLMT and Unitholders' interests, which may include obtaining (where applicable) third party quotations or valuations from independent valuers (in accordance with the Listing Requirements and REITs Guidelines).

Corporate Governance

The procedures include the following:

RPT with percentage ratioⁱ	Approving Authority, Procedures and Disclosure
Below 0.25%	Audit and Risk Committee recommends to Board ⁱⁱ
0.25% or more	Audit and Risk Committee recommends to Board ⁱⁱ Immediate announcement
5% or more	Audit and Risk Committee recommends to Board ⁱⁱ Immediate announcement Independent Adviser Unitholders' Approval
25% or more	Audit and Risk Committee recommends to Board ⁱⁱ Immediate announcement Independent Adviser Principal Adviser Unitholders' Approval
RRPT with percentage ratioⁱ	Approving Authority, Procedures and Disclosure
Below 1%	Audit and Risk Committee (periodic review only)
1% or more	Audit and Risk Committee recommends to Board ⁱⁱ Immediate announcement

i The calculation is based on the total assets which are the subject matter of the transaction compared with the total assets of CLMT Group.

ii Board save for interested directors who shall abstain.

The Manager's internal control procedures are intended to ensure that RPTs are conducted on terms which are best available for CLMT and which are no less favourable to CLMT than arm's length transaction between independent parties.

The Manager maintains a register to record all related parties of CLMT and RPT entered into by CLMT (and the basis which they are entered into, including quotations obtained to support such basis). All RPTs are subject to reviews by the ARC, which in turn obtains advice from CLI IA, to ascertain that the guidelines and procedures established to monitor RPTs, including the relevant provisions of the Listing Requirements and the REITs Guidelines, as well as any other guidelines which may from time to time be prescribed by Bursa Securities, the SC or other relevant authority, have been complied with. The review includes an examination of the nature of the transaction and its supporting documents or such other information deemed necessary by the ARC. ARC members with an interest in any transaction are required to abstain from the review and approval process in relation to that transaction.

Details of all RPT entered into by CLMT Group during the financial year are disclosed on page 169 of the Financial Statements section of this Annual Report.

Dealing with Conflicts of Interest/ Potential Conflicts of Interest

The following principles and procedures have been established to deal with conflicts of interest (COI) or potential COI which the Manager (including its Directors, Chief Executives and employees of the Manager) may encounter in managing CLMT:

- The Manager is a dedicated manager to CLMT and will not manage any other REITs or be involved in any other real property business;
- All resolutions at meetings of the Board in relation to matters concerning CLMT must be decided by a majority vote of the Directors, including at least one ID;
- In respect of matters in which CLI and/or its subsidiaries have an interest, whether direct or indirect, any nominees appointed by CLI and/or its subsidiaries to the Board will abstain from voting;
- In respect of matters in which a Director or his/her associates have an interest, whether direct or indirect, such interested Director will abstain from voting;
- If the Manager is required to decide whether or not to take any action against any person in relation to

any breach of any agreement entered into by the Trustee for and on behalf of CLMT with an affiliate of the Manager, the Manager is obliged to consult with a reputable law firm (acceptable to the Trustee) which shall provide legal advice on the matter. If the said law firm is of the opinion that the Trustee, on behalf of CLMT, has a prima facie case against the party allegedly in breach under such agreements, the Manager is obliged to pursue the appropriate remedies under such agreements. The Directors of the Manager have a duty to ensure that the Manager complies with the aforesaid. Notwithstanding the foregoing, the Manager shall inform the Trustee as soon as it becomes aware of any breach of any agreement entered into by the Trustee with an affiliate of the Manager, and the Trustee may take such action as it deems necessary to protect the rights of Unitholders and/or which is in the interests of Unitholders. Any decision by the Manager not to take action against an affiliate of the Manager shall not constitute a waiver of the Trustee's right to take such action as it deems fit against such affiliate; and

- (f) At least one-third of the Board shall comprise IDs.

The Board has adopted a Conflicts Management Policy (Malaysia) which outlines the framework and processes for managing any conflict that may influence or compromise the objectivity and impartiality of the business operations, as well as to safeguard the reputation and credibility of the Manager. It also serves as a guide to the ARC, NRC and Board in discharging their role, which involves providing oversight and review of the COI situations that arose, persist or may arise within the Manager. The Manager manages COIs through the following three (3) broad approaches where appropriate:

- (a) Avoiding COI – a COI situation is avoided altogether by not entering into a new relationship or transaction where there is potential for a conflict to arise;
- (b) Controlling COI – the Manager identifies, assesses and evaluates the COI and implements appropriate procedures and safeguards to manage the conflicts and minimise its effects; and
- (c) Disclosing COI – Directors, Chief Executives and employees of the Manager as well as Directors and Chief Executives of the Trustee are required to disclose their COI. The COI of the Manager's Directors

shall then be disclosed in the Annual Report of CLMT. The rule of thumb is when in doubt, to disclose.

Dealing in Securities

The Manager has a securities dealing policy for the officers and employees which applies the best practice recommendations in the Listing Requirements. Directors and employees of the Manager as well as certain relevant executives of the CLI Group (together, the Relevant Persons) must refrain from dealing in CLMT's Units (i) while in possession of material unpublished price-sensitive information, and (ii) during the periods commencing 30 calendar days before the announcement of CLMT's quarterly and full year results. The Manager also does not deal in CLMT's securities during the black-out period. In addition, if any of such affected persons deal in CLMT's Units during the closed periods or outside closed periods under the Listing Requirements, they are required to comply with the conditions as set out in the Listing Requirements. They are also made aware of the applicability of the insider trading laws at all times.

In addition, officers who are identified as "Designated Employees" or "Key Insiders" are prohibited from dealing in CLMT's securities, except during the open trading window (commence upon market open on the trading day following the date of announcement of CLMT's quarterly and full year financial results and end upon market close 45 calendar days from results release), provided that they are not in possession of undisclosed material or price sensitive information. They must also give notice to the Legal & Compliance after executing any trade in CLMT's Units.

Fees payable to the Manager

The methodology for computing the fees payable to the Manager is contained in Clause 18 of the Trust Deed, details of which are disclosed under Notes to Financial Statements.

The Management Fees are fees earned by the Manager for the management of CLMT's portfolio. The Management Fee should be viewed holistically as a whole which comprise two components, namely the Base Fee and Performance Fee.

In addition, the Manager is also paid an Acquisition Fee or a Divestment Fee upon the successful completion of an acquisition or divestment respectively.

Corporate Governance

Further details on the Base Fee, Performance Fee, Acquisition Fee and Divestment Fee are provided below.

Base Fee

The Base Fee enables the Manager to cover operational and administrative overheads incurred in the management of the portfolio. The Base Fee is calculated at a percentage of assets value as the asset value provides an appropriate metric to determine the resources for managing the assets.

Performance Fee

The Performance Fee is calculated in reference to the net property income before payment of the Management Fee, for each Distribution Period based on the unaudited or as the case may be, the audited accounts of the Trust determined for the relevant Distribution Period but subject to reconciliation to the amount calculated by reference to the audited account of the Trust for the relevant Financial Year.

Acquisition Fee

The Acquisition Fee is earned by the Manager upon the successful completion of an acquisition. This fee seeks to motivate and compensate the Manager for its efforts expended to continually seek and acquire distribution per unit accretive assets to increase longer term returns for Unitholders. In addition, the Acquisition Fee allows the Manager to recover the additional costs and resources incurred by the Manager in the course of seeking new acquisition opportunities, including but not limited to, due diligence efforts and man hours spent in evaluating the transaction.

Divestment Fee

The Divestment Fee is earned by the Manager upon the completion of a divestment. This fee seeks to motivate and compensate the Manager for its efforts expended to maximise value received by CLMT in the event of a divestment. In addition, the Divestment Fee allows the Manager to recover additional costs and resources incurred by the Manager for the divestment, including but not limited to due diligence efforts and man hours spent in marketing and maximising the divestment price.

Training Programmes

Training programmes, seminar and conferences attended by the Directors during FY 2025 were:

- Mandatory Accreditation Programme (MAP) (Institute of Corporate Directors Malaysia)
- MAP Part II – Leading for Impact (LIP) (Institute of Corporate Directors Malaysia)
- Module 1 of Capital Market Director Programme (CMDP): Directors as Gatekeepers of Market Participants (Securities Industry Development Corporation)
- Module 2B of CMDP: Business Challenges and Regulatory Expectations – What Directors Need to Know (Fund Management) (Securities Industry Development Corporation)

This Corporate Governance Statement was approved by the Board on 27 February 2026.

Audit and Risk Committee Report

The Audit Committee (AC) is entrusted to assist the Board in fulfilling its oversight responsibilities over the financial reporting process, risk management and system of internal controls, the governance processes, and the audit process for CLMT and its subsidiaries (collectively, the CLMT Group) and the Manager, as well as the Manager's process for monitoring compliance with legal and regulatory requirements. The Board approved the renaming of the AC to the Audit and Risk Committee (ARC) with effect from 22 October 2025 to better reflect the roles and responsibilities of the AC in assisting the Board in overseeing the risk management function of the CLMT Group.

The Board is pleased to present the report of the ARC for FY 2025 to provide insights into the manner in which the ARC has discharged its functions during FY 2025.

Composition and Meeting Attendance

The ARC comprises three (3) members, all of whom (including the ARC Chairman) are Non-Executive independent directors (IDs). The ARC members bring with them invaluable and professional expertise or experience in accounting, auditing and related financial management domains. None of the ARC members were previously a partner of the external auditors (EA), Deloitte Malaysia PLT (formerly known as Deloitte PLT) (Deloitte), within a period of three (3) years commencing from the date of their ceasing to be partners of Deloitte, nor do any of them hold any financial interest in Deloitte.

As of 31 December 2025, the ARC comprised the following members. The meeting attendance for each member, out of a total of four ARC meetings held during the FY 2025 is set out below:

Name	Designation	Directorship	No. of ARC Meetings Attended
Foo Wei Hoong	Chairman	Non - Executive Independent Director	3/4
Tan Ming-Li	Member	Non - Executive Independent Director	4/4
Datin Hayati Aman Binti Hashim	Member	Non - Executive Independent Director	4/4

During the financial year under review, the performance and effectiveness of the ARC were evaluated through the annual Board evaluation, the outcome of which was reviewed by the Nominating and Remuneration Committee (NRC). The Board concurred with the NRC's assessment and is satisfied that the ARC members have effectively discharged their functions, duties and responsibilities in accordance with the Terms of Reference (TOR) of the ARC, which is available on CLMT's website at www.clmt.com.my.

Summary of the Work of the Audit and Risk Committee

Throughout FY 2025 and up to the date of this report, the ARC has fulfilled its responsibilities and discharged its functions and obligations in accordance with its TOR, as described below:

1. Financial Reporting

- (a) Reviewed the quarterly results for all the financial quarters and year-end financial statements, ensuring the integrity of the financial statements of CLMT Group, and announcements relating to CLMT Group's financial performance, prior to the approval by the Board for the release of such announcements, focusing particularly on:
 - (i) changes of major accounting policy and their implementation;
 - (ii) significant matters highlighted, including financial reporting issues, significant judgements made by Management, significant and unusual events or transactions, and the manner in which such matters were addressed; and
 - (iii) compliance with accounting standards and other legal and regulatory requirements.

- (b) Discussed the key audit matters raised by the EA with Management and the disclosure thereof in the Auditors' Report as set out in this Annual Report.
- (c) Recommended to the Board for its approval, the income distribution for payment to the Unitholders.

2. External Auditors

- (a) Reviewed the EA's report on the conduct of the audit of CLMT's financial statements for FY 2025, including findings on significant accounting and financial reporting issues and their impact to the consolidated financial statements of the CLMT Group and, the findings on the internal control system, as well as an overview of issues identified during the interim audit.
- (b) Reviewed the EA's scope of work and audit plans for the financial year under review to understand their audit methodology, significant risk areas, relevant accounting policies/disclosures and audit timeline.
- (c) Reviewed, in consultation with Management, the performance of the EA and their fees, upon satisfaction of their independence and objectivity, including non-audit services rendered.
- (d) Held two (2) private sessions with the EA and the CapitaLand Investment Limited (CLI) Internal Auditors (IA) without the presence of Management, to discuss among others, the financial reporting process, the internal controls and risk management systems, and the significant comments and recommendation by the auditors. No major concerns were highlighted by the EA and the CLI IA, and they received full cooperation from Management.
- (e) Evaluated the performance of the EA for the financial year under review covering areas including planning and conduct of audit; level of knowledge, capabilities and experience of the audit team; communication and engagement; and independence and objectivity. The ARC concluded that the EA was able to meet the audit requirements and statutory obligations of CLMT, while maintaining their professional independence and objectivity. Following this evaluation, the Board at its meeting held on 28 January 2026, approved the ARC's recommendation for the re-appointment of Deloitte as the EA of CLMT for the financial year ending 31 December 2026.

3. CapitaLand Investment Limited Internal Auditors

The IA function is outsourced and undertaken by CLI IA that reports directly to the ARC. The IA function provides independent assessments of the adequacy, efficiency and effectiveness of the internal control systems in managing the risk exposures of the Manager and the CLMT Group. The ARC had full access to the services and advice of the IA and received reports on all audits conducted.

During FY 2025, CLI IA has performed the following IA services:

- (a) Conducted a total of eight audit assignments on CLMT and the Manager in accordance with the 2025 IA plan, adhering to the International Standards for the Professional Practice of Internal Auditing (Standards) issued by the Institute of Internal Auditors;

The reports issued by the CLI IA, including audit findings, recommendations and Management's responses, were presented to the ARC.
- (b) Conducted regular follow-ups with Management on agreed corrective actions for outstanding audit issues to ensure that key risks and control weaknesses were effectively addressed in a timely manner. This included the strengthening of internal controls, with the status of implementing IA recommendations reported to the ARC on a quarterly basis;
- (c) Prepared the annual IA plan and scope for FY 2026 for deliberation by the ARC; and
- (d) Conducted an annual assessment of IA's effectiveness and independence.

During FY 2025, the ARC monitored and assessed the role, performance and effectiveness of the IA function by reviewing the IA processes from time to time and recommended to the Board for approval, any changes to the IA processes.

A quality assurance review of the CLI IA's function was also performed by Deloitte in 2023. The review affirmed that the CLI IA conformed to the Standards, with no major adverse findings reported.

The total costs incurred by the IA function for FY 2025 amounted to RM385,746.

4. Risk Management and Internal Control

The ARC also assisted the Board in evaluating the adequacy and effectiveness of CLMT's Enterprise Risk Management Framework, as well as in assessing the appropriateness of Management's responses to key risk areas and recommendations for improvements. Based on the Risk and Control Self-Assessment (RCSA) exercise conducted annually, as well as the quarterly key risk indicator reports presented to the ARC, which provided insights into various risk areas, including but not limited to financial, operational, compliance, IT and environmental risks affecting CLMT's operations, as well as their likelihood, impact and management actions, the ARC was thus able to keep under continuous review the adequacy and effectiveness of CLMT's risk management system along with its risk portfolio, risk levels and risk mitigation strategies. No significant irregularities or deficiencies in the systems of risk management and internal controls came to the attention of the ARC during FY 2025.

5. Related Party Transactions

The ARC has:

- (a) Reviewed and approved processes to regulate the RPT and RRPT [as defined in the Main Market Listing Requirements (Listing Requirement)] and ensured compliance with the disclosure requirements in accordance with the Guidelines on Listed Real Estate Investment Trusts (REITs Guidelines) and the Listing Requirements; and
- (b) Received reports from Management and the CLI IA on RPT and RRPT, reviewed and approved RPT and RRPT as required by the internal approval processes;

The ARC was satisfied that all RRPT were undertaken in the best interests of CLMT, whereby the terms concluded were the best available to CLMT and no less favourable than an arm's length transaction between independent parties, and that the monitoring procedures to regulate such transactions were appropriate and sufficient.

6. Conflict of Interest (COI)

The ARC has reviewed the disclosure of actual or potential COI, including interest in any competing business submitted by the Directors and key senior management of the Manager via the Disclosure of COI Form.

The COI declared by Yong Su-Lin, Goh Gek Hiang (Wu Yuxian), Wong Kar Ling and key senior management of the Manager (collectively, Affected Parties) pertains to their involvement with Melawati Mall. Melawati Mall is a joint venture owned by the Sponsor, CLI and another real estate entity, where the Affected Parties hold executive or officer roles within the CLI Group.

Mr Tan Boon Peng (Mr Patrick Tan) also declared his potential COI by virtue of his role as a Non-Executive Independent Director in Hap Seng Consolidated Berhad (HSCB). HSCB is currently developing MET 5 at KL Midtown, an integrated development within KL Metropolis, comprising office towers, residential towers, a five-star hotel and a retail mall, which places it within a similar operating landscape as CLMT's retail assets. Given that Mr Patrick Tan serves in a Non-Executive capacity in both the Manager and HSCB and does not have any day-to-day operational role in either entity, his ability to influence the CLMT's Group business or operational decision making is minimal.

To address and mitigate these conflicts, the following measures, among others, have been implemented and are stipulated in the Conflict Management Policy (Malaysia):

- i. the establishment of robust internal structures and clear reporting lines to ensure that the Affected Parties who are involved in the operations of Melawati Mall are not involved in the decision-making relating to Melawati Mall;
- ii. the strict segregation of Melawati Mall employees from the Manager's decision-making processes, thereby maintaining independence and objectivity in operational and strategic matters; and
- iii. In respect of any matter tabled for Board deliberation that may give rise to competition with MET 5's retail asset, Mr Patrick Tan shall abstain from all deliberations and voting on such matter at the boards of both the Manager and HSCB.

7. Compliance

The ARC reviewed the level of compliance of the Manager and CLMT with the REITs Guidelines, Listing Requirements, Companies Act 2016, Capital Markets and Services Act 2007, trust deed constituting CLMT dated 7 June 2010 (as amended, supplemented or restated from time to time), as well as the Corporate Liability Provision under Section 17A of the Malaysian Anti-Corruption Commission (Amendment) Act 2018. The ARC was satisfied that there were no major non-compliances based on the compliance reports completed by Management and as reported by the Compliance Officer at the quarterly meetings during FY 2025.

8. Other Matters

The ARC has reviewed:

- i. The TOR of the ARC to ensure it remains relevant and recommended to the Board for its approval; and
- ii. The Reports on Corporate Governance, the ARC Report and the Statement on Risk Management and Internal Control, and was satisfied that they are appropriate for inclusion in this Annual Report.

The ARC Report was approved by the Board on 27 February 2026.

Statement on Risk Management and Internal Control

Introduction

Paragraph 15.26(b) of the Main Market Listing Requirements requires the board of directors of any listed issuer to include in its annual report a statement about the state of risk management and internal control of the listed issuer as a group. In preparing this statement, the Board is guided by the Statement on Risk Management and Internal Control - Guidelines for Directors of Listed Companies (SORMIC Guide 2025).

Board's Responsibility

In discharging the Board's stewardship responsibilities, the Board assumes the responsibility for the risk management and internal control systems established by the Manager for the CLMT Group. The Board recognises that reviewing the adequacy and integrity of these systems is a continuous process requiring concerted efforts. In discharging its duties, the Board is supported and assisted by Management. It is an essential part of the Board's responsibilities to (i) approve the risk appetite for the CLMT Group; (ii) review the adequacy and effectiveness of risk management and internal control systems; and (iii) ensure that appropriate systems and policies are in place to manage these risks. However, the Board acknowledges that no system of risk management and internal controls can provide absolute assurance against poor judgement in decision making, human error, losses, fraud or other irregularities. A sound system of risk management and internal controls therefore provides a reasonable but not absolute assurance that the CLMT Group will not be significantly affected by any foreseeable event as it strives to achieve its business objectives.

The Board also recognises that an effective risk management and internal control system is underpinned by a strong risk-aware culture. Through leadership example, clear policies and accountability, the Board sets the tone from the top and promotes responsible risk-taking and integrity across the CLMT Group.

Risk Management

Effective risk management is a fundamental part of CLMT's business strategy. The key risks and control measures are described in the Risk Management section of this Annual Report. Recognising and managing risks are central to protecting CLMT's business and Unitholders' interests and value. CLMT is being managed within guidelines and parameters set by the Board for both the Manager and CLMT. Based on the Risk Control Self-Assessment (RCSA), transactions are analysed to identify and understand the associated risks. Responsibility for managing these risks initially lies with the respective departments concerned, aligned with the overall strategy endorsed by the Board.

The Manager recognises that risk management is an integral focus of Management. The Enterprise Risk Management Framework supports this focus and provides a structured context for Management to undertake a review of past performance, and to profile the current and future risks it faces within its areas of responsibility. This risk information is consolidated and serves as key input for annual risk management review sessions. These sessions review CLMT's strategic direction in detail, focusing on identifying key business and financial risks that could impede CLMT from achieving its objectives. Management is then required to ensure appropriate controls are in place to manage these risks effectively.

Following the removal of duties and responsibilities related to risk management from the Executive Committee (Exco) and the renaming of the Audit Committee of the Manager to the Audit and Risk Committee (ARC) with effect from 22 October 2025, all risk management duties and responsibilities of the Exco have been assumed by the Chief Executive Officer (CEO) and Chief Financial Officer (CFO).

The monitoring of risks and controls is carried out quarterly by the ARC. The Risk Appetite Statement (RAS) and the Key Risk Indicators (KRI) of the CLMT Group are reviewed annually by the ARC and the Board. The internal audit plan is aligned with the risk management programme, ensuring that the operation of internal controls and assessments reflects an effective and efficient control environment.

The Manager recognises that significant risks, including climate change and environmental risks, may arise when making property investment decisions and has identified these in the RCSA. Accordingly, the Manager has established procedures to align CLMT's strategy with its risks and opportunities and to guide property investment decisions. In accordance with these procedures, the Board requires comprehensive due diligence to be carried out in relation to

any proposed investment, ensuring that the anticipated return is appropriate relative to the level of risk. Environmental, social and governance considerations are embedded within the CLMT Group's risk management processes and are assessed, where relevant, as part of the identification and evaluation of material risks, with further details addressed in the Sustainability Management of this Annual Report.

The Board meets quarterly, or as necessary, to review and approve the financial performance of the Manager and of the CLMT Group against the approved budget. In assessing business risks, the Board considers among other factors, economic, environmental and property industry risks. The Exco reviews, and the Board approves all investment decisions and key treasury matters. Management conducts monthly meetings to review the operations of the Manager and CLMT.

The Manager has a risk identification and management framework in place to identify and address risks for the CLMT Group. The ownership of these risks lies with the CEO and respective function heads of the Manager under the Board's stewardship. The ARC assists the Board with oversight over formulating, updating and maintaining an adequate and effective risk management framework while the Board reviews the adequacy and effectiveness of the overall risk management and internal control systems.

The CLMT Group's risk management and internal control framework is aligned with the Three Lines Model. Business Units form the first line of defence and are responsible for identifying, assessing and managing risks within their respective areas. Specialist functions, including risk management and compliance, form the second line by providing risk oversight and monitoring. The internal audit function serves as the third line of defence, providing independent assurance to the ARC and the Board on the adequacy and effectiveness of risk management and internal control systems.

Key Internal Control Processes

The Manager has put in place systems of internal control and established procedures and processes to manage risk and safeguard the assets of CLMT Group in the best interests of Unitholders.

The Manager performs a RCSA exercise and maintains a risk register which identifies the material risks faced by the CLMT Group and the internal controls in place to manage or mitigate those risks. The risk register is reviewed and updated annually by the respective function heads of the Manager and CEO, and thereafter, reviewed by the ARC, followed by the Board. Management is tasked to review the risk register and reports on the approaches taken in identifying and assessing risks and internal controls under the RCSA to the ARC. The Manager has established an approach for defining, monitoring and reviewing CLMT Group's risk appetite. Approved by the Board, the CLMT Group's RAS incorporates the risk limits and outlines the management of material risks faced by the CLMT Group. Alignment of the CLMT Group's risk profile with the RAS is achieved through various communication and monitoring mechanisms (including key performance indicators set for the Management) which are implemented across various functions by the Manager. The internal auditors conduct audits that involve testing the effectiveness of the material internal control systems for CLMT Group. Any material non-compliances or lapses in internal controls together with the proposed corrective measures by the internal auditors are reported to the ARC. The system of risk management and internal controls is continually being refined by the Manager and reported to the ARC and the Board for their approval.

The Board has also received assurance from the CEO and CFO of the Manager that the risk management and internal control systems within the CLMT Group are adequate and effective in addressing the material risks including financial, operational, compliance, IT and environmental risks in the current business environment. The CEO and CFO of the Manager have, in turn, obtained similar assurances from the respective function heads.

The Board has adopted a set of internal controls outlining authority limits for various activities, including investments and divestments, acceptance of banking facilities or treasury products, budgetary approval, capital and operating expenditure, lease offers and renewals, marketing, professional services expenditure and other operational matters. Transactions exceeding certain thresholds require Board approval, while authority for transactions within those limits is delegated to authorised personnel to ensure operational efficiency. Only authorised personnel are empowered to approve the transactions, including payments on behalf of the Board.

Internal control procedures are established to ensure that Related Party Transactions (RPT) comply with the Guidelines on Listed Real Estate Investment Trusts (REITs Guidelines), the Listing Requirements and the trust deed constituting CLMT dated 7 June 2010 (as amended, supplemented or restated from time to time) and, are made on terms which

Statement on Risk Management and Internal Control

are best available for CLMT and are no less favourable than an arm's length transaction with independent parties. The Manager incorporates a review of all RPT and Recurrent RPT (RRPT) in its annual internal audit plan. Further details on these established procedures can be found on pages 105 to 106 of this Annual Report.

Policies, guidelines and processes have been established to address conflict of interest, including any potential or perceived conflict of interest. Further details are provided on pages 106 to 107 of this Annual Report. To manage potential conflict of interest situations, the Manager has a conflict management policy which requires relevant parties to declare on a quarterly basis as to whether there is any potential/perceived conflict of interest and that any conflicted director abstains from voting.

The Manager has outsourced its internal audit function to CapitaLand Investment Limited's Internal Audit Department (CLI IA) which reports directly to the ARC. CLI IA is adequately resourced and staffed with professionals possessing relevant qualifications and experience. As a corporate member of The Institute of Internal Auditors (IIA) Singapore, an affiliate of the global IIA, CLI IA adheres to the International Standards for the Professional Practice of Internal Auditing (Standards) developed by the IIA and has incorporated these Standards into its audit practices.

To ensure that internal audits are performed by competent professionals, CLI IA recruits and employs suitably qualified staff with the requisite skill sets and experience. This includes CLI IA staff who are involved in Information Technology (IT) audits holding relevant professional IT certifications. The IT auditors are also members of the Information System Audit and Control Association (ISACA) Singapore Chapter, a global professional body administering information system audit and security certifications. The ISACA Information System Auditing Standards provide guidance on the standards and procedures to be applied in IT audits. CLI IA identifies and provides training and development opportunities for its staff to ensure their technical knowledge and skill sets remain current and relevant.

The ARC reviews the internal audit reports and activities on an on-going basis and approves the annual internal audit plan for CLMT. The ARC is of the view that the internal audit function performed by CLI IA is adequately resourced, effective and independent. Information about CLI IA are provided on page 103 and 111 of this Annual Report.

The internal audit scope for FY 2025 included the following:

- (a) Carrying out scheduled audit assignments in accordance with the 2025 annual internal audit plan approved by the ARC;
- (b) Reporting key findings and Management's agreed actions to the ARC;
- (c) Providing quarterly updates to the ARC on the implementation status of Management's agreed actions;
- (d) Reviewing RPT and RRPT and presenting findings of the review to the ARC on a quarterly basis;
- (e) Reporting whistleblowing cases and investigation matters as directed by the ARC;
- (f) Updating the ARC on key observations regarding the effectiveness of the internal audit function; and
- (g) Preparing the 2026 annual internal audit plan for submission to the ARC for deliberation.

The ARC has put in place a Whistleblowing Policy to provide whistleblowers, including employees of the Manager, with procedures and accessible channels for reporting suspected fraud, corruption, dishonest practices or other similar matters related to CLMT and the Manager. The policy also ensures independent investigation of such reports and appropriate follow-up action. This Whistleblowing Policy is periodically reviewed to promote fraud awareness and to encourage good faith reporting, assuring whistleblowers they will be treated fairly and protected from reprisals whenever possible. Further details about the Whistleblowing Policy are provided on page 90 of this Annual Report.

The ARC reviews, monitors and evaluates the effectiveness and adequacy of CLMT's internal controls and risk management systems and financial issues raised by the external and internal auditors, regulatory authorities and Management. The ARC also reviews written reports issued by the internal and external auditors and ensures that Management takes appropriate and timely remedial actions to address any identified deficiencies in internal controls. In FY 2025, the issues raised were attended to and addressed by Management, with agreed actions implemented accordingly. The ARC also convenes meetings with both external and internal auditors without the presence of Management at least once a year.

In addition, the ARC has assessed the scope, functions and competency of the internal audit function. It also reviews and evaluates the procedures established to ensure compliance with applicable legislation, the REITs Guidelines and the Listing Requirements.

The Fraud, Bribery & Corruption Risk Management Policy (FBC Policy) was established by the Board, in alignment with the corporate liability provision of the Malaysian Anti-Corruption Commission (Amendment) Act 2018 (MACC Act) and the Guidelines on Adequate Procedures. In our effort to strengthen the governance of risk management, we have an Anti-Corruption Compliance Programme which is periodically reviewed as recommended under Section 17A(5) of the MACC Act. Further details on the FBC Policy are provided on page 91 of this Annual Report.

The Board reviews and approves, inter alia, the following reports from Management, upon recommendation of the ARC and Exco, on a periodic basis:

- (a) CLMT Group's quarterly financial results including explanations for major variances against the budget;
- (b) Status update of major asset enhancement works carried out on the properties as planned;
- (c) Status update of key treasury matters including debt profile, maturity and interest rate management; and
- (d) Status update of other key operational matters.

Based on these reviews, the Board, with the concurrence of the ARC, is of the opinion that the internal controls within the CLMT Group are adequate to address financial, operational, compliance, IT and environmental risks. The Board has also received assurance from the CEO and CFO that the risk management and internal control systems are operating adequately and effectively. The Board is therefore satisfied that the risk management and internal control systems were operating effectively throughout the financial year and up to the date of approval of this Statement. Notwithstanding the above, the Board recognises that no system of risk management and internal control can eliminate all risks and therefore provides reasonable, but not absolute assurance against material misstatement, loss or fraud.

This Statement was approved by the Board on 27 February 2026.

Risk Management

CapitaLand Malaysia Trust and its subsidiaries (CLMT Group) views risk management as a key enabler to support its objectives of delivering stable distributions and sustainable total returns to its unitholders.

Risk management is integral to CLMT Group's business. The CLMT Group embeds risk considerations into decision-making processes to ensure a proactive and rigorous approach to managing current and emerging risks. This approach is supported by a robust enterprise risk framework, a strong risk-aware culture and prudent risk-taking aligned with investors' mandate, long-term return objectives and the CLMT Group's approved risk appetite. Through clear policies, controls and governance processes, the CLMT Group manages risk systematically,

safeguards CLMT Group's reputation and enhances its resilience in a dynamic operating environment.

Risk Framework

The Manager's Enterprise Risk Management (ERM) Framework sets out the governance requirements for the achievement of strategic objectives through managing risks in an integrated and consistent manner. It supports a proactive approach to identify, assess and manage material risks. The framework is adapted from the International Organisation for Standardisation 31000 International Risk Management Standards and is benchmarked against other recognised best practices and guidelines.

Risk Governance

The Manager's risk governance is anchored in independent oversight by the Board, supported by clear accountability and transparency in risk-taking by Management.

Board and Audit & Risk Committee

- Oversee risk governance, and ensure Management maintains adequate and effective risk management and internal control systems to safeguard the interests of the CLMT Group and its stakeholders
- Approve the CLMT Group's risk appetite which determines the nature and extent of material risks that the Manager is willing to take to achieve strategic objectives
- Oversee implementation of risk frameworks and policies
- Regularly review the CLMT Group's risk profile, including financial and non-financial risks, and mitigation strategies that arise from business activities

Management

- Accountable to the Board, through the ARC, on all risk-related matters
- Conduct forward-looking risk assessments to anticipate market, operational and regulatory shifts
- Monitor key risk indicators and metrics, conduct scenario analysis and ensure timely and regular reporting to the Board
- Maintain escalation process to provide transparency and confidence that material risks are actively managed

Three Lines of Defence

All employees have individual accountability and clearly defined ownership and responsibilities, with strong enterprise-wide risk culture as the foundation.

1st Line – Business & Operations (Risk Owners)

- Primary risk owners and accountable for effectively identifying and managing risks arising from their business activities
- Conduct forward-looking risk assessments, which cover a broad spectrum of risks, to support informed decision-making and responsible risk-taking
- Implement controls to manage the day-to-day business risks and ensure compliance with regulations, ethical expectations and Group-wide internal policies

2nd Line – Risk Management & Specialist Functions

- Risk Management and specialist functions include Legal, Compliance, Digital & Technology and Sustainability, who are independent of the risk owners
- Provide risk oversight and necessary checks and balances through monitoring and reporting processes
- Foster a strong risk culture through ongoing training, guidance and communication

3rd Line – Internal Audit

- Provide independent assurance on the adequacy and effectiveness of risk management and internal control systems

External Audit

Risk Management

Risk Assessment

CLMT Group conducts an annual Risk and Control Self-Assessment to identify, assess and document material risks, including new and emerging risks, as well as the mitigating measures and any opportunities that can be leveraged to achieve strategic objectives.

The measures to mitigate the material risks for FY 2025 are listed below:

Material Risks	Key Mitigating Actions
Strategic & Financial Risks	
Competition Keen industry competition from established players who can attract customers by meeting their expectations or reacting aptly to market trends	• Leverage on the ONE CapitaLand ecosystem to proactively identify and capture expansion/relocation movements from regional industry players and secure new asset pipelines via CapitaLand Development. • Leverage CapitaLand Investment Limited's (CLI) strong network of investment and asset management professionals with deep knowledge in multi-sector assets and proven track record in growing funds under management to source for opportunities. • Constantly strive to differentiate ourselves from our peers by adapting CLMT Group's business and products to the evolving needs of tenants and shoppers, delivering competitive products and services, and engaging shoppers with shopper centric initiatives and tactical marketing campaigns in the retail ecosystem. • Incorporate Environmental, Social and Governance (ESG) considerations in CLMT Group's business to reinforce our leading position as a sustainable REIT. • Leverage in-house team of industry analysts to keep CLMT Group on top of latest market trends.
Economic Volatility in macro-economic environment including inflationary pressures, and broader economic conditions which result in challenging business conditions	• Diversify CLMT Group's portfolio across asset classes, geographies and tenant business trade mix in accordance with Board-approved limits. • Disciplined approach to financial, investment and asset management. • Maintain robust investment criteria and processes to ensure portfolio sustainability and seize growth or recycling potential of the assets in different life cycles and locations. • Actively monitor macroeconomic trends, policies and regulatory changes in the market.
Financial Exposure to financial risks involving liquidity and interest rates and their volatility	• Proactively review the capital management of CLMT Group to ensure that adequate financial resources are available for working capital and other corporate funding requirements. • Focus on instilling financial discipline and deploying capital to earn optimal returns and maintain a strong balance sheet to invest in suitable opportunities. For more details, please refer to the Financial Risk Management section on pages 162 to 167 of CLMT Annual Report 2025.

Material Risks

Key Mitigating Actions

Investments and Divestments

- Deployment of capital into loss-making or below-target return investments due to wrong underwriting assumptions or poor execution
 - Inadequate planning to identify suitable divestment opportunities
- Conduct a comprehensive independent risk evaluation for all projects above a stipulated investment value threshold.
 - Review hurdle rates and weighted average cost of capital annually based on relevant risk-adjusted input parameters that serve as investment benchmarks and make necessary adjustments accordingly.
 - Maintain disciplined capital allocation and investment governance, supported by cross-functional due diligence and independent local expertise, to enhance execution quality, ensure regulatory compliance and safeguard risk-adjusted returns.

Non-Financial Risks

Climate-related

Physical risks include coastal and fluvial flooding, tropical cyclones, extreme cold, extreme heat and wildfire. Transition risks encompasses the potential impact of more stringent regulations, carbon price shifts, changes in electricity prices and increased expectations from customers and stakeholders

- Conduct an assessment of physical and transition risks and opportunities, and health and safety related risks in the evaluation of new investments/capital expenditure decisions. This includes implementing a shadow internal carbon price.
- Review the mitigation and adaptation efforts, which include future-proofing the portfolio, enhancing the operational efficiency of its properties and implementing measures to drive decarbonisation across the CLMT Group's value chain.

Cybersecurity and Information Technology

Ongoing business digitalisation exposes the business to IT-related threats, which may result in compromising the confidentiality, integrity and availability of the CLMT Group's information assets and/or systems

- Continuously review threat landscapes, and institute measures to minimise vulnerability exposure and manage threat vectors, including enhanced protection controls for systems that hold personal data.
- Conduct regular mandatory IT Security Awareness Training to minimise human-related risks in the information security chain.
- Conduct IT Security Incident Management Procedure test, third-party vulnerability test and annual Disaster Recovery Plan exercise to validate IT infrastructure/management system security resilience and ensure timely recoverability of business-critical IT systems.
- Maintain Board oversight on the state of cybersecurity risk activities and key control improvements, with periodic review and updates of the Group-wide IT Security Policy.

Fraud, Bribery and Corruption

Any forms of fraud, bribery and corruption that could be perpetuated by employees, third parties or collusion between employees and third parties

- Foster a culture of ethics and integrity within the Manager and the CLMT Group.
- Adopt a zero-tolerance stance against fraud, bribery and corruption (FBC) in daily business operations.
- Communicate our commitment to integrity from the top through policies and practices from time to time.
- Carry out quarterly anti-bribery and corruption (Section 17A of the Malaysian Anti-Corruption Commission (Amendment) Act 2018) audits on respective departments to assess the compliance and effectiveness of the existing policies and practices.
- Conduct mandatory trainings to enhance awareness among employees.
- All third-party e-mail communication include CLMT Group's zero tolerance stance against FBC.

Material Risks	Key Mitigating Actions
Leasing Strong competition, economic downturn and challenging market conditions are some key factors that could result in key tenants not renewing their leases, adversely affecting the leasing performance of CLMT Group's properties	• Establish and maintain a diversified tenant base and sustainable trade mix. • Proactive tenant management strategies to understand and address customers' changing needs and align with the properties' overall asset plan. • Closely monitor tenants' performance and maintain positive relationships and rapport with tenants to build loyalty with CLMT Group's properties.
Outsourcing Inability of service providers to perform or inconsistency in service delivery, which may disrupt operations and impact service quality and performance	• Establish a robust framework to monitor, track and report service providers' performance against the key performance indicators as outlined in the agreement. • Conduct due diligence prior to appointing any service provider and hold regular performance review meetings and communication session to provide feedback on performance. • Perform periodic evaluations of the service providers and implement corrective actions or escalation measures where necessary.
Regulatory and Compliance Non-compliance with applicable laws, regulations and rules, relating to tax, data protection and privacy, financial crimes and sanctions where the CLMT Group operates	• Maintain a framework that proactively identifies the applicable laws, regulations and rules, assesses the regulatory and compliance risks and embeds compliance risk mitigation measures into day-to-day operations. • Leverage in-house specialised teams both locally and from CLI, such as legal, compliance and tax, and external consultants to provide advisory services and updates on changes to laws, regulations and rules. • Maintain and update policies and procedures to address the requirements of the applicable laws, regulations and rules such as Personal Data Protection Policy, Anti-Money Laundering and Countering the Financing of Terrorism Policy, Global Sanctions Compliance Policy and Tax Strategy. • Adopt blended compliance training approach through e-learning and in-person sessions to raise awareness and train employees on ways to avoid or prevent non-compliant behaviour.
Safety, Health and Well-being Increased expectations from stakeholders for CLMT's properties to provide a safe and healthy environment that contributes to their well-being	• Entrench a sustainable safety culture through deep safety capabilities, disciplined safety practices, and a progressive safety mindset that drives key performance targets for both CLMT Group and its supply chain. • Adopt and maintain CLI's Environmental, Health and Safety Management System with ISO 14001 and ISO 45001 certifications. • For more information, please refer to the Sustainability Management section of CLMT Annual Report 2025 and CLI's Global Sustainability Report 2025 to be published by 31 May 2026.

Payment relating to leases of low-value assets		276	173	276	173
Included in net cash from financing activities:					
Payment of lease liabilities		835	608	835	608
Total cash outflows for leases		1,111	781	1,111	781

c. Cash outflows for capital expenditure on investment properties:

		Group		Trust	
		2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Capital expenditure of investment properties (Note 4)		39,074	59,317	39,074	59,317
Interest capitalised		-	(1,837)	-	(1,837)
Accrued capital expenditure		(29,652)	(21,619)	(29,652)	(21,619)
Payment of capital expenditure accrued in prior year		19,865	21,131	19,865	21,131
Cash outflows for capital expenditure on investment properties		29,287	56,992	29,287	56,992

The accompanying notes form an integral part of these financial statements.

Statements of Cash Flows

For the Financial Year Ended 31 December 2025

Reconciliation of movements of liabilities to cash flows arising from financing activities

	At 1 January 2024 RM'000	Net changes from financing cash flows RM'000	Acquisition of new lease/other changes RM'000	At 31 December 2024/1 January 2025 RM'000	Net changes from financing cash flows RM'000	Acquisition of new lease/other changes RM'000	At 31 December 2025 RM'000
Group							
Secured term loans	1,620,929	30,344	-	1,651,273	109,902	-	1,761,175
Secured revolving credit	74,765	(35,019)	-	39,746	(19,312)	-	20,434
Unsecured revolving credits	173,945	11,181	-	185,126	(73,041)	-	112,085
Unrated and secured MTN	300,000	-	-	300,000	-	-	300,000
Lease liabilities	6,454	(608)	272	6,118	(835)	228	5,511
Less: Unamortised transaction costs	(7,084)	-	(547)	(7,631)	-	104	(7,527)
Total liabilities from financing activities	2,169,009	5,898	(275)	2,174,632	16,714	332	2,191,678
Trust							
Secured term loans	1,620,929	30,344	-	1,651,273	109,902	-	1,761,175
Secured revolving credit	74,765	(35,019)	-	39,746	(19,312)	-	20,434
Unsecured revolving credits	173,945	11,181	-	185,126	(73,041)	-	112,085
Amount due to subsidiary	300,000	-	-	300,000	-	-	300,000
Lease liabilities	6,454	(608)	272	6,118	(835)	228	5,511
Less: Unamortised transaction costs	(6,381)	-	(747)	(7,128)	-	(97)	(7,225)
Total liabilities from financing activities	2,169,712	5,898	(475)	2,175,135	16,714	131	2,191,980

The accompanying notes form an integral part of these financial statements.

Notes to the Financial Statements

Year ended 31 December 2025

CapitaLand Malaysia Trust (CLMT or the Trust) is a Malaysia domiciled real estate investment trust (REIT) constituted by a deed dated 7 June 2010 (which was amended and restated on 13 July 2021) (the Deed) entered into between CapitaLand Malaysia REIT Management Sdn. Bhd. (the Manager) and MTrustee Berhad (the REIT Trustee). The Deed was registered with Securities Commission Malaysia (SC) on 20 September 2021. CLMT is regulated by the SC's Guidelines on Listed Real Estate Investment Trusts (REIT Guidelines), the Listing Requirements of Bursa Malaysia Securities Berhad (Bursa Securities) and other relevant laws and regulations.

CLMT is listed on the Main Market of Bursa Securities.

The consolidated financial statements reported for the financial year ended 31 December 2025 relates to the Trust and its subsidiaries (the Group).

Under the Deed, the principal activity of CLMT is to invest, on a long-term basis, in a portfolio of income-producing real estate as deemed fit by the Manager, that are used for retail, commercial, office and industrial purposes, or such other non-real estate investments, as may be permitted under the Deed, the REIT Guidelines or by the SC, with a view of providing unitholders with long-term and sustainable distribution of income and potential capital growth. The principal activities of the subsidiaries are as disclosed in Note 5 to the financial statements.

For financial reporting purposes, the intermediate and ultimate holding companies of the Group are CapitaLand Investment Limited (CLI) and Temasek Holdings (Private) Limited respectively. The intermediate and ultimate holding companies are incorporated in the Republic of Singapore.

The principal activity of the Manager is to manage and administer CLMT. The Manager, incorporated in Malaysia, is a wholly-owned indirect subsidiary of CLI.

The Manager's registered office and principal place of business is as follows:

Unit No. 1-27, Level 27, Naza Tower
No. 10, Persiaran KLCC
50088 Kuala Lumpur

The financial statements were approved by the Manager's Board of Directors on 27 February 2026.

1. Basis of preparation

(a) Statement of compliance

The financial statements of the Group and of the Trust have been prepared in accordance with the provisions of the Deed, the REIT Guidelines, Malaysian Financial Reporting Standards (MFRSs) and International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRSs).

The Group and the Trust have applied the following amendments to MFRS during the financial year. Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

Amendments to MFRS effective for annual periods beginning on or after 1 January 2025

- Amendments to MFRS 121, *The Effects of Changes in Foreign Exchange Rates - Lack of Exchangeability*

The following are accounting standards and amendments to MFRSs that have been issued by the Malaysian Accounting Standards Board (MASB) and are applicable to but have not been adopted by the Group and the Trust:

Amendments to MFRSs effective for annual periods beginning on or after 1 January 2026

- Amendments to MFRS 9, *Financial Instruments* and MFRS 7, *Financial Instruments: Disclosures - Amendments to the Classification and Measurement of Financial Instruments*
- Amendments to MFRS 9, *Financial Instruments* and MFRS 7, *Financial Instruments: Disclosures - Contracts Referencing Nature-dependent Electricity*
- Annual improvements to MFRS Accounting Standards

MFRSs and amendments to MFRSs effective for annual periods beginning on or after 1 January 2027

- MFRS 18, *Presentation and Disclosure in Financial Statements*
- MFRS 19, *Subsidiaries without Public Accountability: Disclosures*
- Amendments to MFRS 19, *Subsidiaries without Public Accountability: Disclosures*
- Amendments to MFRS 121, *The Effects of Changes in Foreign Exchange Rates - Translation to a Hyperinflationary Presentation Currency*

Amendments to MFRSs yet to be effective

- Amendments to MFRS 10, *Consolidated Financial Statements* and MFRS 128, *Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*.

The Group and the Trust plan to apply the abovementioned MFRSs and amendments as and when those standards and amendments become effective.

The initial application of the accounting standards or amendments are not expected to have material financial impact to the current and prior period financial statements of the Group and of the Trust except as further discussed below:

MFRS 18 Presentation and Disclosure in Financial Statements

MFRS 18 *Presentation and Disclosure in Financial Statements* replaces MFRS 101, carrying forward many of the requirements in MFRS 101 unchanged and complementing them with new requirements. MFRS 18 introduces new requirements to improve the reporting of financial performance:

- present specified categories and defined subtotals in the statement of profit or loss;
- provide disclosures on management-defined performance measures in the notes to the financial statements; and
- improve aggregation and disaggregation.

The adoption of MFRS 18 impacts the presentation and disclosures of the financial statements of the Group and of the Trust in the period of initial application.

Notes to the Financial Statements

Year ended 31 December 2025

1. Basis of preparation (continued)

(b) Basis of accounting

The financial statements have been prepared on the historical cost basis except for investment properties as disclosed in Note 2(d) and financial instruments as disclosed in Note 2(f).

(c) Functional and presentation currency

These financial statements are presented in Ringgit Malaysia (RM), which is the Group's and the Trust's functional currency. All financial information presented in RM has been rounded to the nearest thousand, unless otherwise stated.

(d) Use of estimates and judgements

The preparation of the financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There is no critical judgement involved in applying accounting policies. The area which involved significant estimation uncertainties that have significant effect on the amounts recognised in the financial statements relates to the valuation of investment properties as disclosed in Note 4.

2. Material accounting policies

(a) Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Trust. The financial statements of the subsidiaries are included in the consolidated financial statements from the date of which control commences until the date on which control ceases.

The Trust controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Investment in subsidiaries is measured in the Trust's statement of financial position at cost less any impairment loss.

Business combinations

Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

(b) Foreign currencies

Transactions in foreign currencies are translated to the functional currency of the Group and of the Trust at exchange rates at the dates of transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of transaction. Foreign currency differences arising on retranslation are recognised in profit or loss.

2. Material accounting policies (continued)

(c) Plant and equipment

(i) *Recognition and measurement*

Items of plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain and loss on disposal of an item of plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and is recognised net within "other non-operating income" and "other operating expenses" respectively in profit or loss.

(ii) *Subsequent costs*

The cost of replacing part of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group or the Trust and its cost can be measured reliably. The carrying amount of the replaced part is derecognised and is charged to profit or loss. The costs of the day-to-day servicing of equipment are recognised in profit or loss as incurred.

(iii) *Depreciation*

Depreciation is based on the cost of an asset less its residual value. Significant parts of individual assets are assessed, and if a part has a useful life that is different from the remainder of that asset, then that part is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of plant and equipment from the date that they are available for use.

The estimated useful lives for the current and comparative periods are as follows:

Computer	2 - 3 years
Office and other equipment	3 - 5 years

Depreciation methods, useful lives and residual values are reassessed at the end of the reporting period, and adjusted as appropriate.

(d) Investment properties

Investment properties are properties which are owned or held under leasehold interest to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, used in the production or supply of goods or services or for administrative purposes. Investment properties are measured initially at cost and subsequently at fair value with any changes therein recognised in profit or loss for the period in which they arise. Cost includes expenditure that is directly attributable to the acquisition of the investment properties.

Fair value is determined in accordance with the Deed and the REIT Guidelines which requires the investment properties to be valued by independent professional valuers. In determining the fair value, the valuers used valuation techniques which involve certain estimates. In relying on the valuation reports, the Manager has exercised its judgement and is satisfied that the valuation methods and estimates reflect the current market conditions. The fair value is determined annually based on independent professional valuation.

2. Material accounting policies (continued)

(d) Investment properties (continued)

When an investment property is disposed of, the resulting gain or loss is recognised in profit or loss in the year in which the item is derecognised. Investment properties are not depreciated. The properties are subject to continued maintenance and are regularly revalued on the basis mentioned above. For taxation purposes, the Group or the Trust may claim capital allowances on assets that qualify as plant and machinery under the Income Tax Act, 1967.

(e) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) *As a lessee*

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commitment date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case, the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the lessee's incremental borrowing rate.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including office equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(ii) *As a lessor*

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

2. Material accounting policies (continued)

(e) Leases (continued)

(ii) *As a lessor* (continued)

The Group leases out its investment properties. The Group has classified these leases as operating leases.

The Group recognises lease payments received from investment properties under operating leases as rental income on a straight-line basis over the lease term as part of revenue.

(f) Financial instruments

(i) *Recognition and initial measurement*

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Group or the Trust becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, in the case for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) *Financial instrument categories and subsequent measurement*

Financial assets

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Group or the Trust changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change of the business model.

Amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Interest income is recognised by applying effective interest rate to the gross carrying amount except for credit impaired financial assets (see Note 2(g)(i)) where the effective interest rate is applied to the amortised cost.

Financial assets of the Group and of the Trust are subject to impairment assessment in accordance with Note 2(g)(i).

Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group and the Trust are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial liabilities

The financial liabilities at initial recognition of the Group and of the Trust are classified as amortised cost. Financial liabilities are subsequently measured at amortised cost using the effective interest method.

Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gains or losses on derecognition are also recognised in profit or loss.

2. Material accounting policies (continued)

(f) Financial instruments (continued)

(ii) *Financial instrument categories and subsequent measurement* (continued)

Financial liabilities and equity instruments (continued)

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group and the Trust are recognised at the proceeds received, net of direct issue costs.

Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently. Costs directly attributable to the issue of instruments classified as equity are recognised as a deduction from equity.

(iii) *Derecognition*

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or transferred, or control of the asset is not retained or substantially all of the risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount of the financial asset and the sum of consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged, cancelled or expires. A financial liability is also derecognised when its terms are modified and the cash flows of the modified liability are substantially different, in which case, a new financial liability based on modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(iv) *Offsetting*

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group and the Trust currently have a legally enforceable right to set off the amounts and they intend either to settle them on a net basis or to realise the asset and liability simultaneously.

(g) Impairment

(i) *Financial assets*

The Group and the Trust recognise loss allowances for expected credit losses on financial assets measured at amortised cost. Expected credit losses are a probability-weighted estimate of credit losses.

The Group and the Trust measure loss allowances for trade receivables at an amount equal to lifetime expected credit loss. For all other financial instruments, the Group and the Trust recognise lifetime expected credit loss when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group and the Trust measure the loss allowance for that financial instrument at an amount equal to 12-month expected credit loss.

When determining whether the credit risk of a financial asset has increased significantly since the initial recognition and when estimating expected credit loss, the Group and the Trust consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information, where available.

2. Material accounting policies (continued)

(g) Impairment (continued)

(i) *Financial assets* (continued)

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of the asset, while 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within the 12 months after the reporting date. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group and the Trust are exposed to credit risk.

The Group and the Trust estimate the expected credit losses on trade receivables by assessing the risk of loss of each customer individually based on their financial information, past trend of payments and external credit ratings, where applicable.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

At each reporting date, the Group and the Trust assess whether financial assets carried at amortised cost are credit impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The gross carrying amount of a financial asset is written off (either partially or full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group or the Trust determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's or the Trust's procedures for recovery of amounts due.

(ii) *Other assets*

The carrying amounts of other assets, other than investment properties, are reviewed at the end of each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. Impairment loss is recognised in profit or loss.

Impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

2. Material accounting policies (continued)

(h) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, bank balances and deposits placed with licensed banks. For the purpose of the statements of cash flows, cash and cash equivalents are presented net of pledged deposits.

(i) Provisions

A provision is recognised if, as a result of a past event, the Group and the Trust have a present legal or constructive obligation that can be estimated reliably, and is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance costs.

(j) Revenue recognition

(i) Rental income

Rental income from leasing of shopping mall shops and space is recognised in profit or loss on a straight-line basis over the term of the lease and such revenue includes base rent, service charges and advertising and promotion fees. Contingent rents, which include gross turnover rent, are recognised as income in the financial year in which they are earned. No contingent rents are recognised if there are uncertainties due to the possible return of amounts received.

(ii) Car park income

Car park income is recognised as income in the financial year in which they are earned.

(iii) Other revenue

Other revenue consists of recovery of utilities charges from tenants, kiosk rental, advertising and other miscellaneous income. These are recognised as income in the financial year in which they are earned.

CLMT has applied the exemption on disclosure of information on remaining performance obligations that have original expected durations of one year or less.

(k) Interest income

Interest income is recognised as it accrues, using the effective interest method in profit or loss.

(l) Expenses

(i) Property operating expenses

Property operating expenses consist of quit rent, assessment, utilities, property management fee, property management reimbursement, advertising and promotion, maintenance and other property outgoings in relation to investment properties where such expenses are the responsibility of the Group or the Trust and are recognised on an accrual basis in the year in which they are incurred.

(ii) Manager's management fee

Manager's management fee is recognised on an accrual basis using the applicable formula as set out in Note 14.

(iii) Trustee's fee

Trustee's fee is recognised on an accrual basis using the applicable formula as set out in Note 15.

Notes to the Financial Statements

Year ended 31 December 2025

2. Material accounting policies (continued)

(l) Expenses (continued)

(iv) Finance costs

Finance costs comprise mainly of interest expense on borrowings and amortisation of transaction costs on borrowings which are expensed in profit or loss using the effective interest method over the tenure of borrowings.

(m) Tax expense

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable or receivable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statements of financial position and their tax bases. Deferred tax is not recognised for the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Where investment properties are carried at fair value in accordance with the accounting policy set out in Note 2(d), the amount of deferred tax recognised is measured using the tax rates that would apply on the sale of those assets at their carrying values at the reporting date unless the property is depreciable and is held with the objective to consume substantially all the economic benefits embodied in the property over time, rather than through sale. Deferred tax assets and liabilities are not discounted.

(n) Earnings per unit

The Group and the Trust present basic and diluted earnings per unit. Basic earnings per unit is calculated by dividing the total return by the weighted average number of units outstanding during the financial year. Diluted earnings per unit is determined by adjusting the total return and the weighted average number of ordinary units outstanding, for the effects of all dilutive potential units.

(o) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' results are reviewed and used by the Group's Chief Operating Decision Makers for strategic decision making and resources allocation.

2. Material accounting policies (continued)

(p) Fair value measurements

Fair value of an asset or a liability, except for lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair value are categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

The Group recognises transfers between the levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

Fair value gain	36,259	62,733	32,607	62,533
At 31 December	5,490,300	5,130,600	5,484,300	5,128,252

Investment properties refer to shopping malls, logistics and industrial assets which primarily generate rental income from leasing out retail shops and spaces to third parties via lease or licence agreements.

Right-of-use assets refer to the lease of common area, motorcycle parks and car parking bays at Queensbay Mall's VIP driveway which primarily generate rental income from leasing out the space to third parties via lease or license agreements. The right-of-use assets was valued at RM7,400,000 (FY 2024: RM6,400,000) as at 31 December 2025.

Notes to the Financial Statements

Year ended 31 December 2025

4. Investment properties (continued)

Gurney Plaza, CLMT's 433 strata titles in Queensbay Mall, The Mines, Valdor Logistics Hub, Glenmarie Distribution Centre, Senai Airport City Facilities, Iskandar Puteri Facilities and Synergy Logistics Hub collectively valued at RM4,008,000,000 are pledged as securities for borrowings as disclosed in Note 10. East Coast Mall, CLMT's 205 strata titles in Sungei Wang Plaza, 3 Damansara and the subsidiaries' 5 strata titles in Queensbay Mall are unencumbered as at reporting date.

As at 31 December 2024, Gurney Plaza, CLMT's 433 strata titles in Queensbay Mall, The Mines, Valdor Logistics Hub and Glenmarie Distribution Centre collectively valued at RM3,667,852,000 were pledged as securities for borrowings as disclosed in Note 10. East Coast Mall, CLMT's 205 strata titles in Sungei Wang Plaza, 3 Damansara and the subsidiaries' 5 strata titles in Queensbay Mall were unencumbered.

- ¹ Cost of investment comprises purchase consideration and capital expenditure incurred from inception date up to the financial year end date.
- ² Based on valuation carried out on 31 December 2025.
- ³ Based on valuation carried out on 31 December 2024.
- ⁴ This is computed based on market value of the investment properties over the NAV before final income distribution as at 31 December 2025 and 31 December 2024. This is calculated in accordance with the REIT Guidelines.
- ⁵ The leasehold period for East Coast Mall and The Mines are 99 years and will expire on 18 December 2106 and 20 March 2091 respectively. The remaining leasehold period for East Coast Mall and The Mines are approximately 80 years and 65 years respectively.
- ⁶ The Group's interest in Queensbay Mall consists of 438 strata parcels within the Mall, with 5 of these strata parcels being owned through CLMT's direct shareholdings in the four subsidiaries, and the right-of-use of common area, motorcycle parks and car parking bays at the VIP's driveway. The Trust's interest in Queensbay Mall consists of 433 strata parcels within the Mall and the right-of-use of common area, motorcycle parks and car parking bays at the VIP's driveway.
- ⁷ CLMT's interest in Sungei Wang Plaza comprises (i) 205 strata parcels within the mall represents approximately 61.9% of the aggregate retail floor area of Sungei Wang Plaza, and (ii) 100% car park bays.

Notes to the Financial Statements

Year ended 31 December 2025

4. Investment properties (continued)

All individual titles and strata titles are registered in the name of the Trustee save for five strata titles of Queensbay Mall that are registered in the name of CLMT's wholly-owned subsidiaries and Synergy Logistics Hub which is pending registration at Land Office.

The following are recognised in profit or loss in respect of investment properties:

	Group		Trust	
	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Gross revenue	476,755	454,760	476,218	454,239
Less: Property operating expenses	(187,313)	(190,832)	(187,216)	(190,802)
Net property income	289,442	263,928	289,002	263,437

Gross turnover rent of RM37,383,000 (FY 2024: RM39,525,000), which represents CLMT's contingent rent, was recognised as income in the financial year.

(a) Operating lease payments receivable

CLMT's lease agreements generally contain an initial non-cancellable period of up to three years and subsequent renewals are negotiated with the lessee. The rental rates are negotiated based on prevailing market rates and are pre-agreed over the lease tenure.

The operating lease payments to be received are as follows:

	Group		Trust	
	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Within one year	327,390	277,827	327,260	277,621
One to two years	230,577	164,714	230,577	164,578
Two to three years	117,513	75,050	117,513	75,050
More than three years	151,569	63,664	151,569	63,664
	827,049	581,255	826,919	580,913

(b) Fair value information

The fair value of investment properties of the Group and of the Trust are categorised as Level 3. The properties are valued by independent external valuers using the income capitalisation approach, also known as investment approach. This valuation approach takes into account the gross revenue and outgoings to estimate the net income for the properties. Capitalisation rates are then applied to the net income of the investment properties to determine the market value of the investment properties.

The significant assumptions and unobservable inputs underlying the estimation of fair value of investment properties are those related to term capitalisation and reversionary capitalisation rates, car park and other income, outgoings expenses and allowance for void. Term capitalisation and reversionary capitalisation rates for the investment properties range from 6.00% to 7.25% (FY 2024: 6.00% to 7.25%) and from 6.25% to 7.50% (FY 2024: 6.25% to 7.50%) respectively. The estimated fair value would increase (decrease) if the capitalisation rates, outgoings and allowance for void were lower (higher) and if car park and other income was higher (lower).

Notes to the Financial Statements

Year ended 31 December 2025

4. Investment properties (continued)

(c) Valuation processes applied to the Group and the Trust for Level 3 fair value

The fair value of investment properties is determined by independent external valuers having appropriate recognised professional qualifications and recent experience in the location and category of the investment properties being valued. The fair value of the Group's and of the Trust's investment property portfolio are revalued at least every twelve months.

(d) Highest and best use

The Group's and the Trust's investment properties are currently valued at their highest and best use.

5. Investment in subsidiaries

	Trust	
	2025 RM'000	2024 RM'000
Cost of investment	6,037	6,037
Less: Impairment loss	(3,500)	(3,500)
	2,537	2,537

No impairment loss was recognised during the year (FY 2024: Nil).

Details of the subsidiaries are as follows:

Name of entities	Principal place of business	Principal activities	Effective ownership interest and voting interest	
			2025	2024
CLMT MTN Berhad	Malaysia	Raise financing on behalf of CLMT	100%	100%
Luxury Ace Sdn. Bhd. (LASB)	Malaysia	Investment in and letting of property	100%	100%
Milky Way Properties Berhad (MWPB)	Malaysia	Investment in and letting of property	100%	100%
Scenic Growth Sdn. Bhd. (SGSB)	Malaysia	Investment in and letting of property	100%	100%
Success Idea Sdn. Bhd. (SISB)	Malaysia	Investment in and letting of property	100%	100%

The shares of LASB, MWPB, SGSB and SISB are pledged as securities for borrowings as disclosed in Note 10.

Notes to the Financial Statements

Year ended 31 December 2025

6. Trade and other receivables

	Group		Trust	
	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Trade				
Trade receivables	11,646	12,019	11,641	12,004
Less: Impairment losses	(5,439)	(6,068)	(5,439)	(6,068)
	6,207	5,951	6,202	5,936
Other receivables	12,797	21,852	12,745	21,796
	19,004	27,803	18,947	27,732
Non-trade				
Deposits	1,278	1,096	1,278	1,096
Other receivables	92	170	81	159
	1,370	1,266	1,359	1,255
Trade and other receivables categorised as amortised cost	20,374	29,069	20,306	28,987
Prepayments and others	23,215	23,407	23,163	23,358
Current tax assets	6	13	-	-
Trade and other receivables	43,595	52,489	43,469	52,345

Trade related other receivables mainly consist of accrued rental income.

Included in the prepayment and others of the Group and of the Trust is an amount of RM22,080,000 (FY 2024: RM20,700,000) related to earnest deposits paid on acquisition of investment properties.

The following table provides information about the exposure to credit risk and expected credit losses for trade receivables.

	Gross carrying amount RM'000	Impairment losses RM'000	Net balance RM'000
Group			
2025			
Past due 1 - 30 days	4,090	(208)	3,882
Past due 31 - 90 days	972	(81)	891
Past due more than 90 days	6,584	(5,150)	1,434
	11,646	(5,439)	6,207
2024			
Past due 1 - 30 days	3,886	(242)	3,644
Past due 31 - 90 days	1,109	(78)	1,031
Past due more than 90 days	7,024	(5,748)	1,276
	12,019	(6,068)	5,951

Notes to the Financial Statements

Year ended 31 December 2025

6. Trade and other receivables (continued)

The following table provides information about the exposure to credit risk and expected credit losses for trade receivables. (continued)

	Gross carrying amount RM'000	Impairment losses RM'000	Net balance RM'000
Trust			
2025			
Past due 1 - 30 days	4,090	(208)	3,882
Past due 31 - 90 days	972	(81)	891
Past due more than 90 days	6,579	(5,150)	1,429
	11,641	(5,439)	6,202
2024			
Past due 1 - 30 days	3,886	(242)	3,644
Past due 31 - 90 days	1,109	(78)	1,031
Past due more than 90 days	7,009	(5,748)	1,261
	12,004	(6,068)	5,936

Gross carrying amount of trade receivables is not expected to change significantly. The movement of impairment losses on trade receivables during the financial year is as follows:

	Note	Group		Trust	
		2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
At 1 January		6,068	7,427	6,068	7,374
Amounts written off		(901)	(1,642)	(901)	(1,641)
Loss on impairment for trade receivables (net)	13	272	283	272	335
At 31 December		5,439	6,068	5,439	6,068

The Manager of CLMT believes that no additional impairment loss is necessary in respect of past due receivables as these receivables, net of security deposits held as collateral, had been adequately impaired.

7. Amount due from/(to) subsidiary

The amount due from subsidiary of RM6,494,000 (FY 2024: RM6,804,000) is non-trade in nature, unsecured, and is repayable on demand. Included in the amount due from subsidiary is an interest-bearing loan from CLMT of RM6,450,000 (FY 2024: RM6,650,000) which is subject to an average interest rate of 3.47% (FY 2024: 3.43%) per annum that is based on the prevailing deposit rates of licensed banks.

The amount due to subsidiary of RM300,000,000 (FY 2024: RM300,000,000) is pursuant to the REIT Trustee Financing Agreement (RTFA) entered into by the Trustee on behalf of CLMT and the subsidiary, where the funds raised from the unrated and secured MTN, as detailed in Note 10(b), were advanced to CLMT. The amount due to subsidiary is secured, subject to an average interest rate of 4.31% (FY 2024: 4.41%) per annum which is payable semi-annually. The principal is repayable in three tranches of RM100,000,000 each, due in 2031, 2032 and 2033 (FY 2024: repayable in 2026, 2027 and 2028) respectively.

Notes to the Financial Statements

Year ended 31 December 2025

8. Cash and cash equivalents

	Group		Trust	
	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Deposits placed with licensed banks	58,844	71,432	51,688	64,758
Cash and bank balances	24,058	10,035	23,542	9,161
	82,902	81,467	75,230	73,919

Gurney Plaza maintains a separate designated revenue account with a licenced bank while The Mines, Queensbay Mall, Glenmarie Distribution Centre, Valdor Logistics Hub, Senai Airport City Facilities, Iskandar Puteri Facilities and Synergy Logistics Hub maintain separate designated revenue and operating accounts with licensed banks. This forms part of the financing covenants and the usage of funds in these designated revenue and operating accounts are not restricted as long as no event of default has occurred on the borrowings. The total amount of the designated revenue and operating accounts at the end of the financial year that is included in the cash and cash equivalents is RM45,098,000 (FY 2024: RM65,263,000).

Included in the Group's cash and cash equivalents is pledged deposit of RM6,450,000 (FY 2024: RM6,650,000). This is in relation to a separate debt service reserves account and trustee reimbursement account assigned by the subsidiary to the security trustee pursuant to the unrated and secured MTN, as set out in Note 10(b). The deposit is maintained with a licensed bank and the fund is restricted in use.

9. Unitholders' capital

	Amount 2025 RM'000	Number of units 2025 '000	Amount 2024 RM'000	Number of units 2024 '000
Group and Trust				
Issued and fully paid:

10. Borrowings (continued)

(a) Secured term loans and revolving credits

CLMT had entered into nine separate secured agreements with licensed banks on 10 June 2010 (Secured Facility 1), 17 March 2011 (Secured Facility 2), 26 June 2015 (Secured Facility 3), 9 March 2023 (Secured Facility 4), 11 April 2023 (Secured Facility 5), 12 August 2024 (Secured Facility 6), 19 November 2024 (Secured Facility 7), 30 June 2025 (Secured Facility 8) and 1 July 2025 (Secured Facility 9).

Secured Facility 1 comprises term loan facilities of RM500.0 million and a revolving credit facility of RM61.0 million. Secured Facility 2 comprises term loan facilities of RM69.8 million and a revolving credit facility of RM20.0 million. Both Secured Facilities 1 and 2 have maturities ranging from August 2031 to August 2033. CLMT has converted Secured Facility 1 and 2 into a sustainability-linked loan in August 2025.

Secured Facility 3 comprises term loan facility of RM348.7 million, a revolving credit facility of RM100.0 million and a bank guarantee facility of RM10.0 million. Secured Facility 3's original maturity was in July 2027. RM50.5 million of the term loan facility has been re-paid in 2023 and the remaining balance was refinanced by Secured Facility 6 in August 2024.

Secured Facility 4 comprises term loan facility of RM693.0 million and bank guarantee facility of RM30.0 million. The term loan facility has been utilised to finance the acquisition of Queensbay Mall. Secured Facility 4 will mature in March 2028. CLMT has converted Secured Facility 4 into a sustainability-linked loan in December 2023. The revolving credit facility of RM100.0 million and bank guarantee facility of RM10.0 million under Secured Facility 3 have been moved to Secured Facility 4 upon the refinancing of the term loan under Secured Facility 3.

Secured Facility 5 comprises sustainability-linked term loan facility of RM56.9 million which was utilised to finance the acquisition of Valdor Logistics Hub. Secured Facility 5 will mature in April 2028.

Secured Facility 6 comprises term loan facilities of RM298.0 million and a revolving credit facility of RM50.0 million. Secured Facility 6 has maturities ranging from August 2031 to August 2033. CLMT has converted Secured Facility 6 into a sustainability-linked loan in August 2025.

Secured Facility 7 comprises term loan facilities of RM43.5 million and will mature in December 2029.

Secured Facility 8 comprises two sustainability-linked revolving credit facilities of RM60.0 million and RM20.0 million which will mature in July 2030 and November 2030 respectively.

Secured Facility 9 comprises sustainability-linked term loan facility of RM100.0 million and a sustainability-linked revolving credit facility of RM50.0 million. Secured Facility 9 will mature in July 2030.

As at 31 December 2025, total term loan facilities utilised under the Secured Facilities 1, 2, 4, 5, 6, 7 and 8 was RM1,761.2 million (FY 2024: RM1,651.3 million) while total secured revolving credit utilised under these facilities was RM20.4 million (FY 2024: RM39.8 million).

The average effective interest rate for all Secured Facilities was approximately 4.3% (FY 2024: 4.5%) per annum.

Notes to the Financial Statements

Year ended 31 December 2025

10. Borrowings (continued)

(b) Secured medium term notes programme

The Group has a secured Medium Term Notes Programme of up to RM3.0 billion in nominal value (MTN Programme) under CLMT MTN Berhad (the Issuer), pursuant to which rated/unrated notes in series or tranches may be issued from time to time in Ringgit Malaysia. The MTN Programme has a tenure of twenty years from the date of first issuance of MTN, which was on 20 December 2012. The net proceeds from the issue of the MTN (after deducting issue expenses) will be on-lent to CLMT, which in turn will utilise such proceeds to refinance its existing and/or future borrowings and/or to finance investments, capital expenditure, asset enhancement initiatives and/or working capital of CLMT. The Issuer will also be allowed to use the proceeds to refinance maturing MTN on the respective maturity dates. The security trustee of the MTN Programme is Malaysian Trustees Berhad.

On 20 June 2023, the Issuer issued three tranches of RM100.0 million each of unrated and secured MTN (4-TM) which will be maturing on 22 June 2026, 21 June 2027 and 20 June 2028 respectively. The three tranches of 4-TM bear coupon rates of 4.36%, 4.44% and 4.44% per annum respectively for the first two years which is payable semi-annually. Upon expiration of the first two years, the Issuer refixed the interest rate at 4.21% p.a. for the remaining year.

During the financial year, the existing noteholder of 4-TM has agreed to refinance all three tranches of the MTN upon the maturity of the first tranche on 22 June 2026.

(c) Unsecured revolving credit

As at 31 December 2025, the outstanding unsecured revolving credits were RM112.1 million (FY 2024: RM185.1 million) at an average effective interest rate of approximately 4.3% (FY 2024: 4.6%) per annum.

The secured borrowings are secured by charges on investment properties as disclosed in Note 4 with an amount of RM4,008,000,000 (FY 2024: RM3,667,852,000) and shares of LASB, MWPB, SGSB and SISB as disclosed in Note 5.

11. Deferred tax liabilities

	Note	Group		Trust	
		2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
At 1 January		11,235	3,072	11,193	3,050
Recognised in profit or loss	17	3,866	8,163	3,501	8,143
At 31 December		15,101	11,235	14,694	11,193

The above deferred tax liabilities are attributable to the fair value changes in the investment properties of the Group and of the Trust which are expected to be recovered through sale. With effect from 1 January 2019, the applicable Real Property Gains Tax (RPGT) rate under the Finance Act 2020 for disposal of real properties or shares in real properties companies which have been held for more than 5 years is 10%. It is the business model of CLMT to hold investment properties to earn rental income and for long-term capital growth. Hence, there are no expected disposals of investment properties held for less than 5 years.

Trade and other payables categorised as amortised cost	87,994	76,306	87,550	75,772
Advances	8,247	7,090	8,247	7,090
Trade and other payables	96,241	83,396	95,797	82,862

Included in the amount due to related parties is an amount due to the Manager of RM8,295,000, of which RM621,000 is sales and service tax (SST) payable (FY 2024: RM9,462,000, of which RM5,045,000 is payable in units of CLMT as payment for the performance component of management fee for the period from 1 July 2024 to 31 December 2024) and Trustee's fee of RM40,000, of which RM3,000 is SST payable (FY 2024: RM37,000). The relationship and transactions of the above are further disclosed in Note 25.

13. Other operating expenses

		Group		Trust	
	Note	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Property management fees and reimbursements		31,562	32,967	31,562	32,967
Marketing expenses		7,127	7,082	7,127	7,082
Quit rent and assessment		16,643	16,041	16,630	16,028
General and administrative expenses		8,980	6,989	8,971	6,982
Loss on impairment for trade receivables (net)	6	272	283	272	335
		64,584	63,362	64,562	63,394

Property management fees are payable to the property managers, namely (1) Knight Frank Property Management Sdn. Bhd. (Knight Frank) for all CLMT's properties for the year under review except for Sungei Wang Plaza; and (2) Nexcap Property Consultants Sdn. Bhd. (Nexcap), the property manager for CLMT's interest in Sungei Wang Plaza. Property management reimbursements include reimbursable staff costs and other reimbursements for managing the investment properties.

Knight Frank and Nexcap were entitled to monthly property management fees of RM84,220 (FY 2024: RM84,220) for the period up to 15 April 2025 and RM49,000 subsequently, and RM17,000 (FY 2024: RM17,000) for the period up to 31 March 2025 and RM5,500 subsequently for the period up to 31 March 2028.

Notes to the Financial Statements

Year ended 31 December 2025

14. Manager's management fee

	2025 RM'000	2024 RM'000
Group and Trust		
Base management fee	15,891	14,989
Performance fee	13,164	12,271
	29,055	27,260
Acquisition fee capitalised in investment properties	2,790	-

Pursuant to the Deed, the Manager is entitled to a base fee of up to 1% per annum of the total asset value and a performance fee of up to 5% per annum of net property income. For the financial year ended 31 December 2025, the Manager has accounted for a base fee of 0.29% (FY 2024: 0.29%) per annum of the total asset value, payable quarterly in arrears, and a performance fee of 4.75% (FY 2024: 4.75%) per annum of net property income, payable quarterly in arrears. For financial year ended 31 December 2024, performance fee was paid semi-annually in units after distribution to unitholders, except for the performance fee related to East Coast Mall which is payable in cash.

In addition to the above, the Manager is also entitled to an acquisition fee of up to 1% of the purchase price and a divestment fee of up to 0.5% of the sale price of any authorised investment/divestment. For financial year ended 31 December 2025, acquisition fees of RM2,790,000 was paid to the Manager in cash and capitalised as part of the investment properties' acquisition cost.

During the financial year ended 31 December 2025, the Manager was paid 7,617,000 of units (FY 2024: 16,271,000 of units) in CLMT or equivalent to RM5,045,000 (FY 2024: RM9,910,000), as part settlement of its management fees for the period from 1 July 2024 to 31 December 2024 (FY 2024: 1 July 2023 to 30 June 2024).

There were no other fees or soft commission paid to the Manager during the financial year other than as disclosed above.

15. Trustee's fee

Pursuant to the Deed, the Trustee is entitled to a fee of 0.02% per annum of the total asset value for the first RM2.0 billion and a 0.01% per annum of the total asset value thereafter, payable monthly in arrears.

With the agreement from Trustee, the Trustee's fee for the financial year ended 31 December 2025 was RM440,000 (FY 2024: RM440,000).

16. Finance costs

	Group		Trust	
	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000

	98,887	98,479	98,887	98,479

Notes to the Financial Statements

Year ended 31 December 2025

17. Taxation

Pursuant to Section 61A of the Income Tax Act, 1967, the total income of a REIT will be exempted from income tax provided that the REIT distributes 90% or more of its total income for that year of assessment. If the REIT is unable to meet the 90% distribution criteria, the entire taxable income of the REIT for the year of assessment would be subject to income tax.

As CLMT will distribute more than 90% of its distributable income for the financial year ended 31 December 2025 to its unitholders, no provision for tax expense has been made for the current financial year.

The current tax recognised during the financial year is in respect of tax expenses of the subsidiaries which are not entitled to the abovementioned tax exemption.

	Note	Group		Trust	
		2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000

Taxation for the financial year	3,501	8,143

Notes to the Financial Statements

Year ended 31 December 2025

17. Taxation (continued)

Global Minimum Tax under Pillar Two

Effective from 1 January 2025, the Group is subject to the global minimum tax regime under the Pillar Two tax legislation in Malaysia. As of 31 December 2025, the Group has performed an assessment of the impact of global minimum tax in relation to its operation. Based on the assessment, the Group is not expected to have any significant top-up tax.

The Group has applied a temporary mandatory relief from deferred tax accounting for the impact of the top-up tax and accounts for it as a current tax when it is incurred. Accordingly, the Group neither recognises nor discloses information about deferred tax assets and liabilities related to Pillar Two income taxes.

18. Earnings per unit

Basic and diluted earnings per unit

The calculation of earnings per unit is based on the weighted average number of units and profit for the financial year.

	Group		Trust	
	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Profit for the financial year	181,655	187,155	178,063	186,629
Add: Manager's management fee	29,055	27,260	29,055	27,260
Profit for the financial year before Manager's management fee	210,710	214,415	207,118	213,889
			2025 units '000	2024 units '000
Group and Trust				
Issued units at the beginning of the financial year			2,879,966	2,740,459
Weighted average number of units issued during the financial year			195,616	82,216
Weighted average number of units at the end of the financial year			3,075,582	2,822,675
	Group		Trust	
	2025	2024	2025	2024
Earnings per unit (sen)				
- before Manager's management fee	6.85	7.60	6.73	7.58
- after Manager's management fee	5.91	6.63	5.79	6.61

Diluted earnings per unit equals to basic earnings per unit as there are no potential dilutive units in issue.

Notes to the Financial Statements

Year ended 31 December 2025

19. Distributions to unitholders

	Group		Trust	
	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Distributions to unitholders are from the following sources:				
Gross rental income	391,894	364,055	391,366	363,535
Car park income and other revenue	84,861	90,705	84,852	90,704
Interest income	2,895	2,418	2,894	2,418
Less: Expenses	(330,395)	(324,697)	(330,163)	(324,522)
(Less)/Add: Adjustment for rounding difference	(30)	359	276	705
Distributable income	149,225	132,840	149,225	132,840
Distribution per unit (sen) of which:				
- taxable income (sen)	4.04	4.47	4.04	4.47
- non-taxable income (sen)	0.80	0.18	0.80	0.18
	4.84	4.65	4.84	4.65

The Manager declared a final income distribution of approximately RM63,627,000 or 1.91 sen per unit on 28 January 2026 for the period from 7 August 2025 to 31 December 2025. In total, CLMT will be paying approximately RM149,225,000, which is more than 90% of its distributable income, to its unitholders for the financial year ended 31 December 2025.

In the prior financial year, the Manager declared a final income distribution of approximately RM65,951,000 or 2.29 sen per unit on 22 January 2025 for the period from 1 July 2024 to 31 December 2024. This final income distribution was paid on 17 March 2025. In total, CLMT had paid approximately RM132,840,000, which is more than 90% of its distributable income, to its unitholders for the financial year ended 31 December 2024.

The declared final income distribution will be recognised in the immediate subsequent financial year.

Pursuant to Section 109D(2) of the Income Tax Act, 1967, the applicable final withholding tax/Malaysian tax treatment on distribution of income which is tax exempt at CLMT level is as follows:

	YA2025 (Distributions made up to 31 December 2025)	YA2026 (Distributions on or after 1 January 2026)
Unitholders		
Resident unitholders		
(a) Corporate	No withholding tax	No withholding tax, the distribution should be included as gross taxable income in the corporate tax return of the unitholders
(b) Other than corporate	Withholding tax at 10%	Note
Non-resident unitholders		
(a) Corporate	Withholding tax at 24%	Withholding tax at 24%
(b) Institutional investors	Withholding tax at 10%	Note
(c) Other than corporate and institutional investor	Withholding tax at 10%	Note

Note:

Section 109D of the Income Tax Act 1967 ("ITA") provides for a withholding tax on REIT distributions to certain categories of unitholders, with the prescribed rates being set out in Part X of Schedule 1 of the ITA. Section 109D applies to income of a REIT which is exempt from tax under Section 61A of the ITA. Such exemption would apply where the REIT distributes 90% or more of its total income, as calculated for tax purposes. Pursuant to Section 6(1)(i) of the ITA, the 10% withholding tax rate applicable to unitholders other than non-resident companies (e.g. individuals, foreign institutional investors) are only applicable up until the year of assessment 2025. To-date, no rates have been specifically prescribed under Part X of Schedule 1 of the ITA, for the period after the year of assessment 2025.

Notes to the Financial Statements

Year ended 31 December 2025

20. Portfolio turnover ratio

	2025	2024
Group		
Portfolio turnover ratio (PTR) (times)	0.1	-

The calculation of the PTR is based on the average of total acquisitions and total disposal of investments for the financial year to the average net asset value during the financial year.

Since the basis of calculating the PTR can vary among the REITs, there is no sound basis for providing an accurate comparison of CLMT against other REITs.

21. Management expense ratio

	2025	2024
Group		
Management expense ratio (MER) (%)	1.2	1.1

MER is calculated based on the total fees of CLMT, including Manager's management fee, Trustee's fee, acquisition fee, divestment fee and other trust expenses, to the average net asset value during the financial year.

Comparison of the MER of CLMT with other REITs which may use different basis of calculation may not be an accurate comparison.

22. Capital commitments

Capital commitments in relation to capital expenditure of the existing portfolio of the Group and of the Trust are as follows:

	2025 RM'000	2024 RM'000
Group and Trust		
Contracted but not provided for	4,163	4,015

Notes to the Financial Statements

Year ended 31 December 2025

23. Financial instruments

23.1 Categories of financial instruments

The financial instruments of the Group and of the Trust are categorised as follows:

		Carrying amount Group		Carrying amount Trust	
	Note	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Financial assets categorised as amortised cost:					
Trade and other receivables	6	20,374	29,069	20,306	28,987
Amount due from subsidiary	7	-	-	6,494	6,804
Cash and cash equivalents	8	82,902	81,467	75,230	73,919
		103,276	110,536	102,030	109,710
Financial liabilities categorised as amortised cost:					
Borrowings	10	2,186,167	2,168,514	1,886,469	1,869,017

23. Financial instruments (continued)

23.3 Financial risk management

Financial risk management is integral to the whole business of the Group and of the Trust. The Group and the Trust adopt an integrated approach to manage the financial risks arising in the normal course of business.

The Group and the Trust have identified the following financial risk exposure from its use of financial instruments:

- Liquidity risk
- Credit risk
- Market risk

The Group and the Trust have implemented risk management policies and guidelines which set its tolerance of risk and its general risk management philosophy.

23.4 Liquidity risk

Liquidity risk is defined as the risk that the Group and the Trust will not be able to meet its financial obligations as they fall due.

The Group's and the Trust's exposures to liquidity risk arise primarily from various payables and borrowings. The Group and the Trust maintain sufficient liquid reserves in terms of cash and credit facilities to ensure, as far as possible, that they will have sufficient liquidity to meet its liabilities when they fall due. In addition, the Manager diligently monitors and observes financing covenants to ensure compliance.

The health and sentiments of the debt markets in Malaysia directly affects the liquidity position of the Group and the Trust as external sources of funding are needed to fund new acquisitions or asset enhancement initiatives besides the need to refinance the existing borrowings when they mature.

At the reporting date, RM119,125,000 (FY 2024: RM185,126,000) of outstanding revolving credits will be subject to annual review within the next twelve months. The Group and the Trust will continue to manage their capital structure proactively by spreading out the debt maturities to a manageable size and maintaining an optimal gearing level.

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts.

Notes to the Financial Statements

Included in the carrying amount of trade and other payables are as follows:

For the Group:

- an amount of RM5,270,000 (FY 2024: RM5,683,000) for interest payable on the borrowings, was incorporated in the contractual cash flows of the bank borrowings and unrated and secured MTN; and
- an amount of RM5,045,000 in prior year for Manager's performance fee payable in units was not incorporated in the contractual cash flows.

For the Trust:

- an amount of RM4,924,000 (FY 2024: RM5,248,000) for interest payable on the borrowings, was incorporated in the contractual cash flows of the bank borrowings; and
- an amount of RM5,045,000 in prior year for Manager's performance fee payable in units was not incorporated in the contractual cash flows.

23. Financial instruments (continued)

23.5 Credit risk

Credit risk is defined as the risk of a financial loss to the Group and to the Trust if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's and the Trust's exposures to credit risk arise primarily from their trade and other receivables.

Credit risk is controlled by credit verification procedures before lease agreements are entered into with tenants and ongoing balance monitoring to ensure minimum credit risk exposure. In addition, there is a stringent collection policy in place to ensure that credit risk is minimised. Other than the collection of security deposits, which typically amounts to an average of three months' rent in the form of cash or bankers' guarantee, the Group and the Trust also have vigilant monitoring and debt collection procedures. Additionally, certain revenue streams such as car park income and recovery from tenants do not have credit terms since they are settled on cash or prepayment terms. Debtors turnover days of the Group for the financial year was approximately 9 days (FY 2024: 11 days).

For other financial assets, the Group and the Trust minimise credit risk by dealing with restricted counterparties that meet the appropriate credit criteria and have high credit standing.

The Manager establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The main component of this allowance is a specific loss component that relates to the individually significant exposure. The allowance account in respect of trade and other receivables is used to record impairment losses unless the Manager is satisfied that no recovery of the amount owing is possible. At that point, the financial asset is considered irrecoverable and the amount charged to the allowance account is written off against the carrying amount of the impaired financial asset.

At the end of financial year, there was no significant concentration of credit risk.

Cash and bank balances are placed with financial institutions which are regulated.

23.6 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other prices that will affect the Group's and the Trust's financial positions or cash flows.

23.6.1 Interest rate risk

The Group's and the Trust's investments in financial products and its fixed rate borrowings are exposed to a risk of change in the fair values of the instruments due to changes in interest rates. The Group's and the Trust's floating rate borrowings are exposed to a risk of change in cash flows due to changes in interest rate. Short term receivables and payables are not significantly exposed to interest rate risk. Of these instruments, the primary interest rate risk exposure of the Group and of the Trust relates to interest-bearing borrowings.

In line with the Group's overall enterprise risk management framework, the Manager adopts a proactive interest rate management policy to manage the risk associated with changes in interest rates on the Group's and the Trust's loan facilities (including borrowing from subsidiary) and also seeking to ensure a competitive level of cost of debt. Interest rate risk is managed on an ongoing basis with the primary objective of limiting the extent to which interest expense could be affected by adverse movements in interest rates.

To mitigate the Group's exposure to fluctuation in interest rates, the Manager has locked in a proportion of the Group's and the Trust's borrowings at fixed interest rates. As at 31 December 2025, the Group's and the Trust's borrowings at fixed rates are 84.0% (FY 2024: 85.0%) while the remaining balances are on floating rates.

The investments in financial products are mainly short-term in nature and not held for trading or speculative purposes but are mainly placed as deposits with licensed banks which yield better returns than cash at bank.

Notes to the Financial Statements

Year ended 31 December 2025

23. Financial instruments (continued)

23.6 Market risk (continued)

23.6.1 Interest rate risk (continued)

The interest rate profile of the Group's and of the Trust's significant interest-bearing financial instruments, based on carrying amounts as at end of the financial year, is as follows:

		Group		Trust	
	Note	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
Financial assets					
Fixed rate instruments					
Deposits placed with licensed banks	8	58,844	71,432	51,688	64,758
Amount due from subsidiary	7	-	-	6,450	6,650
		58,844	71,432	58,138	71,408
Financial liabilities					
Fixed rate instruments					
Secured term loans	10	1,547,965	1,549,763	1,547,965	1,549,763
Unrated and secured MTN	10	300,000	300,000	-	-
Amount due to subsidiary	7	-	-	300,000	300,000
		1,847,965	1,849,763	1,847,965	1,849,763
Floating rate instruments					
Secured term loans	10	213,210	101,510	213,210	101,510
Secured and unsecured revolving credits	10	132,519	224,872	132,519	224,872
		345,729	326,382	345,729	326,382
		2,193,694	2,176,145	2,193,694	2,176,145

The exposure to interest rate risk is in respect of the floating rate instruments as reported above.

Interest rate risk sensitivity analysis

Fair value sensitivity analysis for fixed rate instruments

The Group and the Trust do not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the end of the financial year would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

An increase of 50 basis points (bp) (FY 2024: 50 bp) in interest rate at the reporting date would have increased the finance costs by RM1,729,000 (FY 2024: RM1,632,000) per annum. A decrease in 50 bp in interest rate would have an equal but opposite effect. This analysis assumes that all other variables remain constant.

Notes to the Financial Statements

Year ended 31 December 2025

23. Financial instruments (continued)

23.6 Market risk (continued)

23.6.2 Currency risk

As the assets of the Group are currently based in Malaysia, there is little or no foreign exchange exposure from operations. The Group borrows in Malaysian Ringgit from domestic banks and debt capital market hence creating a perfect currency match for the Group's and the Trust's assets and liabilities. At the end of the financial year, the Group and the Trust are not exposed to any significant foreign currency risk.

23.7 Fair value information

The carrying amounts of cash and cash equivalents, trade and other receivables, amount due from/(to) subsidiary and trade and other payables approximate their fair values due to the relatively short-term nature of these financial instruments.

The fair value of the floating rate borrowings approximates its carrying amount as it reprices to market interest rates for liabilities with similar risk profiles.

The fair value of the fixed rate borrowings at initial recognition approximates its carrying amount as its effective interest rate is considered to be the market rate.

The fair values of the financial liabilities, together with the carrying amounts shown in the statements of financial position, are as follows:

	Carrying amount 2025 RM'000	Fair value 2025 RM'000	Carrying amount 2024 RM'000	Fair value 2024 RM'000
Group				
Tenants' deposits	132,916	129,224	115,863	113,162
Fixed rate secured term loans	1,547,965	1,562,846	1,549,763	1,544,163
Unrated and secured MTN	300,000	298,722	300,000	299,123
Trust				
Tenants' deposits	132,820	128,505	115,767	112,610
Fixed rate secured term loans	1,547,965	1,562,846	1,549,763	1,544,163
Amount due to subsidiary	300,000	298,722	300,000	299,123

The fair values of the tenants' deposits are categorised as Level 2 and the remaining financial liabilities are categorised as Level 3.

Notes to the Financial Statements

Year ended 31 December 2025

23. Financial instruments (continued)

23.7 Fair value information (continued)

The above fair values, which are determined for disclosure purposes, are calculated based on the present value of future cash flows discounted at the market rate of interest at the end of the financial year. Interest rates used to determine fair values are as follows:

	2025	2024
Group and Trust		
Tenants' deposits	2.1%	2.5%
Fixed rate secured term loans	4.2%	4.5%
Unrated and secured MTN	4.4%	4.6%
Amount due to subsidiary	4.4%	4.6%

24. Capital management

The Group's objectives when managing capital are to maintain a strong capital base so as to maintain investor, creditor and market confidence and to ensure optimal returns to unitholders, while maintaining flexibility in respect of future capital expenditure and acquisitions. The Manager continues to rigorously monitor the cash position and borrowings of the Group with the view of strengthening its capital structure and competitive position.

The Manager maintains an optimal gearing ratio, which is defined as total borrowings divided by total asset value, that complies with regulatory requirements and financing covenants. Under the SC's REIT Guidelines, the gearing ratio of the Group should not exceed 50.0% at the time the borrowings or financing facilities or deferred payment arrangements are incurred. As at 31 December 2025, the gearing level of the Group stood at 39.0% (FY 2024: 41.3%) and has maintained the gearing ratio below the statutory threshold during the financial year.

	2025 RM'000	2024 RM'000
Group		
Total assets value (before final income distribution)	5,620,841	5,267,982
Total borrowings (excluding unamortised transaction costs)	2,193,694	2,176,145
Gearing ratio (%)	39.0	41.3

There was no change in the Group's approach to capital management during the financial year.

Notes to the Financial Statements

Year ended 31 December 2025

25. Related parties

Identity of and transactions with related parties

For the purposes of these financial statements, parties are considered to be related to the Group if the Group or the Trust has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group or the Trust and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

During the financial year, other than those disclosed elsewhere in the financial statements, the following related party transactions were carried out in the normal course of business under normal commercial terms:

	Group		Trust	
	2025 RM'000	2024 RM'000	2025 RM'000	2024 RM'000
The Manager				
CapitaLand Malaysia REIT Management Sdn. Bhd.

Nusajaya Tech Park Sdn. Bhd.				
- Earnest deposit for acquisition of investment property	-	2,700	-	2,700
- Balance purchase consideration for acquisition of investment property	24,300	-	24,300	-
- Gated development service charges	47	-	47	-

Notes to the Financial Statements

Year ended 31 December 2025

26. Operating segments

The Group's Chief Operating Decision Maker (CODM) has identified Retail as a reportable segment for the purpose of performance assessment.

Segment revenue comprises mainly income generated from its tenants. Segment net property income represents the income earned by the segment after allocating property operating expenses. Segment performance is measured based on the segment net property income.

Segment result include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated expenses comprise mainly non-operating and trust expenses.

	Retail RM'000	Others RM'000	Total RM'000
Group			
Segment profit for the year ended 31 December 2025

Interest income			2,894
Fair value gain on investment properties			32,607
Unbilled lease income receivable			(12,128)
Unallocated expenses			(31,924)
Finance costs			(98,887)
Profit before taxation			181,564
Taxation			(3,501)
Profit for the financial year			178,063
Segment profit for the year ended 31 December 2024			
Gross revenue	447,000	7,239	454,239
Net property income	257,144	6,293	263,437
Interest income			2,418
Fair value gain on investment properties			62,533
Unbilled lease income receivable			(5,575)
Unallocated expenses			(29,562)
Finance costs			(98,479)
Profit before taxation			194,772
Taxation			(8,143)
Profit for the financial year			186,629

No segment assets and liabilities information is prepared as the Group's CODM assesses the segment's performance based on the segment's net property income.

No geographical segment information is prepared as the Group's properties are all located in Malaysia.

27. Significant events during the financial year

The following significant events occurred during the financial year:

- On 5 February 2024, MTrustee Berhad as trustees for CLMT ("CLMT") entered into a conditional sale and purchase agreement with Nusajaya Tech Park Sdn. Bhd. for the proposed acquisitions of two semi-detached factories with mezzanine office and with guard posts and one detached factory with mezzanine office with a guard post in Taman Teknologi Nusajaya, Iskandar Puteri, Johor (Iskandar Puteri Facilities) for a total purchase consideration of RM27,000,000 ("SPA"). For further details, please refer to our announcement made on 5 February 2024 to Bursa Malaysia Securities Berhad ("Bursa Securities").

On 8 October 2025, CLMT announced to Bursa Securities that the acquisition had been completed in accordance with the terms and conditions of the SPA.

27. Significant events during the financial year (continued)

The following significant events occurred during the financial year (continued):

- On 2 December 2024, CLMT entered into a conditional sale and purchase agreement to acquire a freehold automated logistics property from PTT Logistics Hub 1 Sdn. Bhd. for RM180.0 million ("SPA"). The property is located within Elmina Business Park, an established industrial and business park in Selangor (Synergy Logistics Hub). For further details, please refer to our announcement made on 2 December 2024 to Bursa Securities.

On 26 November 2025, CLMT announced to Bursa Securities that the final stage of completion of the SPA was completed.
- On 5 February 2025, CLMT signed an agreement to acquire three freehold industrial properties, (Senai Airport City Facilities) from Rainbow Entity Sdn. Bhd., a subsidiary of Gromutual Berhad which is listed on Bursa Malaysia, for a total purchase consideration of RM72,000,000. For further details, please refer to our announcement made on 5 February 2025 to Bursa Securities.

On 4 September 2025, CLMT announced to Bursa Securities that the acquisition had been completed, in accordance with the terms and conditions of the SPA.
- On 3 June 2025, CLMT announced to Bursa Securities that the Manager proposed to undertake a placement of up to 435,400,000 new Units, representing up to approximately 14.9% of the total number of Units-in-issue to raise gross cash proceeds of up to RM250.0 million at an issue price to be determined later by way of bookbuilding ("Proposed Placement").

On 8 August 2025, CLMT announced to Bursa Securities that the proposed placement had been completed following the listing of and quotation for 409,836,000 placement units on the Main Market of Bursa Securities based on the issue price of RM0.61 per unit. Net proceeds, net of issuance costs, of approximately RM246.6 million was raised.
- On 22 December 2025, CLMT entered into three conditional sale and purchase agreements with Greenhill SILC Sdn. Bhd. and two conditional sale and purchase agreements with Pentagon Land Sdn. Bhd. to acquire a total of five units of single-storey detached factories annexed with double storey office building together with ancillary buildings, to be constructed on five (5) parcels of freehold land located within i-TechValley, Phase 3, Southern Industrial and Logistics Clusters, Iskandar Puteri for a total cash consideration of RM220,800,000. For further details, please refer to our announcement made on 22 December 2025 to Bursa Securities.

Manager's Report

CapitaLand Malaysia REIT Management Sdn. Bhd.(CMRM), the Manager for Capitaland Malaysia Trust (CLMT or the Trust), has pleasure in presenting its report together with the audited financial statements of the Group and of the Trust for the financial year ended 31 December 2025.

CLMT is a Malaysia domiciled real estate investment trust (REIT) constituted by a deed dated 7 June 2010 (which was amended and restated on 13 July 2021) (the Deed) entered into between CapitaLand Malaysia REIT Management Sdn. Bhd. (the Manager) and MTrustee Berhad (the REIT Trustee). The Deed was registered with Securities Commission Malaysia (SC) on 20 September 2021. CLMT is regulated by the SC's Guidelines on Listed Real Estate Investment Trusts (REIT Guidelines), the Listing Requirements of Bursa Malaysia Securities Berhad (Bursa Securities) and other relevant laws and regulations.

Under the Deed, the principal activity of CLMT is to invest, on a long-term basis, in a portfolio of income-producing real estate as deemed fit by the Manager, that are used for retail, commercial, office and industrial purposes, or such other non-real estate investments, as may be permitted under the Deed, the REIT Guidelines or by the SC, with a view of providing unitholders with long-term and sustainable distribution of income and potential capital growth.

The Manager is of the view that CLMT has made continued progress in growing its diversified portfolio to strengthen income resilience for the financial year ended 31 December 2025. Except as disclosed in the financial statements, there was no change in the strategies and policies employed during the financial year.

Directors

The Directors of the Manager who have held office during the financial year until the date of this report are as follows:

Tan Boon Peng
Yong Su-Lin (Appointed on 1 February 2025)
Foo Wei Hoong
Tan Ming-Li
Goh Gek Hiang (Wu Yuxian)
Datin Hayati Aman Binti Hashim
Wong Kar Ling (Appointed on 1 May 2025)
Tan Choon Siang (Resigned on 1 February 2025)
Dato' Ng Tiong Lip (Resigned on 1 January 2026)
Lim Cho Pin Andrew Geoffrey (Resigned on 1 January 2026)

Directors' benefits

Neither at the end of the financial year, nor at any time during that year, did there subsist any arrangement to which the Manager was a party, whereby the Directors of the Manager might acquire benefits by means of the acquisition of units in or debentures of CLMT.

Since the end of the previous financial year, no Director of the Manager has received or become entitled to receive any benefit (other than a benefit included in the aggregated amount of remuneration received or due and receivable by the Directors), by reason of a contract made by the Manager or a related corporation with any Director of the Manager or with a firm of which the Director of the Manager is a member of, or with a company in which the Director of the Manager has substantial financial interest.

Manager's Report

Directors' interests

According to the register of Directors' unitholdings kept by the Manager under Section 59 of the Companies Act 2016 in Malaysia, the interests of Directors of the Manager in office at the end of the financial year in units in CLMT during the financial year were as follows:

	At 1.1.2025 Unit	Addition Unit	Sold Unit	At 31.12.2025 Unit
Dato' Ng Tiong Lip	-	66,700 ²	-	66,700
Tan Boon Peng	-	46,500 ²	-	46,500
Foo Wei Hoong	-	65,100 ²	-	65,100
Tan Ming-Li	-	49,700 ²	-	49,700
Lim Cho Pin Andrew Geoffrey ¹	53,489	1,836 ³	-	55,325

Notes:

¹ Units held through nominees.

² Acceptance of Units as part payment of director's fee for the year ended 31 December 2024.

³ Subscription of Units under the Distribution Reinvestment Plan (DRP).

	At date of appointment Unit	Granted Unit	Vested Unit	At 31.12.2025 Unit
Contingent Award under Performance Unit Plan¹				
Yong Su-Lin (Baseline award of 1,004,416 Units)	-	0 to 2,008,832	-	0 to 2,008,832

Note:

¹ The final number of Units to be released will depend on the achievement of pre-determined targets over a 3-year performance period. The final number of Units that will be released could range from 0% to 200% of the baseline award. The Units released, if any, will be delivered in a combination of Units and cash.

The other Directors of the Manager in office at the end of the financial year did not have any interest in units in CLMT during the financial year.

Soft commission

There was no soft commission received by the Manager during the financial year from any broker or dealer by virtue of transactions conducted for CLMT.

Other information

- (a) Before the financial statements of the Group and of the Trust were made out, the Manager took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
 - (ii) to ensure that any current assets which were unlikely to be realised in the ordinary course of business have been written down to an amount which the current assets might be expected so to realise.

Manager's Report

Other information (continued)

- (b) At the date of this report, the Manager is not aware of any circumstances:
- (i) which would render the amount written off for bad debts or the amount of the allowance for doubtful debts in the Group and the Trust inadequate to any substantial extent, or
 - (ii) which would render the values attributed to the current assets in the financial statements of the Group and of the Trust misleading, or
 - (iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Trust misleading or inappropriate, or
 - (iv) not otherwise dealt with in this report or financial statements that would render any amount stated in the financial statements of the Group and of the Trust misleading.
- (c) As at the date of this report, there does not exist:
- (i) any charge on the assets of the Group and of the Trust that has arisen since the end of the financial year which secures the liabilities of any other person; and
 - (ii) any contingent liability of the Group or of the Trust that has arisen since the end of the financial year.
- (d) In the opinion of the Manager:
- (i) except for those already disclosed in the financial statements, the results of the operations of the Group and of the Trust during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature;
 - (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Trust for the financial year in which this report is made; and
 - (iii) no contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group or of the Trust to meet their obligations as and when they fall due.

Other significant events

Except for those already disclosed in the financial statements, there are no significant events during the financial year and up to the date of this report.

Changes in material litigation

The Manager is not aware of any pending litigation which is material since 31 December 2025 up to the date of this report.

Auditors

The auditors, Deloitte Malaysia PLT (formerly known as Deloitte PLT), have indicated their willingness to continue in office.

Manager's Report

Auditors' remuneration

The amount paid/payable as remuneration of the auditors of the Group and of the Trust for the financial year ended 31 December 2025 amounted to RM207,200 and RM190,200, respectively.

Signed on behalf of the Directors of the Manager in accordance with a resolution of the Board of Directors dated 27 February 2026.

Statement by the Manager

The Manager acknowledges its responsibility for the preparation of the annual financial statements of CapitaLand Malaysia Trust and its subsidiaries (the Group). In the opinion of the Directors of the Manager, CapitaLand Malaysia REIT Management Sdn. Bhd., the financial statements set out on pages 124 to 172 are drawn up in accordance with the provisions of the Deed dated 7 June 2010 (which was amended and restated on 13 July 2021), the Securities Commission Malaysia's Guidelines on Listed Real Estate Investment Trusts, Malaysian Financial Reporting Standards and International Financial Reporting Standards so as to give a true and fair view of the financial position of the Group and of the Trust as at 31 December 2025 and of their financial performance and cash flows for the financial year then ended.

Signed on behalf of the Directors of the Manager in accordance with a resolution of the Board of Directors dated 27 February 2026.

Statutory Declaration

I, **Soon Yeong Chyan**, the officer of CapitaLand Malaysia REIT Management Sdn. Bhd., primarily responsible for the financial management of CapitaLand Malaysia Trust, do solemnly and sincerely declare that the financial statements set out on pages 124 to 172, are, to the best of my knowledge and belief, correct and I make this solemn declaration conscientiously believing the declaration to be true, and by virtue of the Statutory Declarations Act, 1960.

Subscribed and solemnly declared by the abovenamed Soon Yeong Chyan, MIA CA12084, at Kuala Lumpur, Wilayah Persekutuan on 27 February 2026.

Soon Yeong Chyan

Before me:

Trustee's Report

To the Unitholders of CapitaLand Malaysia Trust
(Established in Malaysia)

We have acted as Trustee of CapitaLand Malaysia Trust (CLMT) for the financial year ended 31 December 2025. In our opinion and to the best of our knowledge, CapitaLand Malaysia REIT Management Sdn. Bhd., the Manager of CLMT, has managed CLMT in accordance with the limitations imposed on the investment powers of the Manager and the Trustee under the Deed dated 7 June 2010 (which was amended and restated on 13 July 2021) (the Deed), the Capital Markets and Services Act, 2007, Securities Commission Malaysia's Guidelines on Listed Real Estate Investment Trusts and other applicable laws during the financial year then ended.

We have ensured that valuation has been carried out on all the properties of CLMT in accordance with the Deed and any other regulatory requirements.

We also confirm that the income distributions declared and paid during the financial year ended 31 December 2025 are in line with and are reflective of the objectives of CLMT.

For and on behalf of the Trustee,
MTrustee Berhad

Nurizan Binti Jalil
Chief Executive Officer

Date: 27 February 2026

Independent Auditors' Report

To the Unitholders of CapitaLand Malaysia Trust
(Established in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of CapitaLand Malaysia Trust (Trust) and its subsidiaries (Group), which comprise the statements of financial position as at 31 December 2025 of the Group and of the Trust, and the statements of profit or loss and other comprehensive income, statements of changes in net asset value and statements of cash flows of the Group and of the Trust for the year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 124 to 172.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Trust as at 31 December 2025, and of their financial performance and their cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Trust in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), as applicable to audits of financial statements of public interest entities and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Trust for the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters of the Group and of the Trust.

Valuation of investment properties

Refer to Note 2(d) – Material accounting policy: Investment properties and Note 4 – Investment properties.

The key audit matter

The Group and the Trust own a portfolio of investment properties comprising shopping malls, logistics and industrial assets located in Malaysia. Investment properties represent the single largest category of assets on the statements of financial position, at RM5,490,300,000 and RM5,484,300,000 of the Group and of the Trust respectively as at 31 December 2025.

These investment properties are stated at their fair values based on independent external valuations.

The valuation process involves significant judgement in determining the appropriate valuation methodology to be used, and in estimating the underlying assumptions to be applied. The valuations are highly sensitive to key assumptions applied such as the capitalisation rates i.e. a small change in the assumptions can have a significant impact to the valuation.

This is a key audit matter because of the inherently subjective nature of investment property valuations arising from the use of assumptions in the valuation methodology and the financial significance of those balances to the Group and the Trust.

Key Audit Matters (continued)

How the matter was addressed in our audit

We performed the following audit procedures, among others:

- We obtained an understanding of the management's process for reviewing the work of the independent valuers and evaluated the design and implementation of the relevant controls.
- We evaluated the qualifications, competency, independence and objectivity of the external valuers.
- We obtained an understanding of the methodology adopted by the external valuers in estimating the fair value of the investment properties and assessed whether such methodology is consistent with those used in the industry.
- We interviewed the external valuers to understand their processes, judgements and observations in determining the property related data used as input and assumptions applied in their valuations.
- We evaluated the reasonableness of the capitalisation rates used in the valuation by involving our internal specialist.
- We tested data used in the valuation, on a sample basis to the underlying lease agreements and other supporting documents.
- We evaluated the adequacy of the disclosures in the financial statements, in describing the inherent degree of subjectivity and key assumptions in the estimates.

Information Other than the Financial Statements and Auditors' Report Thereon

CapitaLand Malaysia REIT Management Sdn. Bhd. (Manager) is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Trust and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Trust does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Trust, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Trust or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager and Trustee for the Financial Statements

The Manager is responsible for the preparation of financial statements of the Group and of the Trust that give a true and fair view in accordance with the Securities Commission Malaysia's Guidelines on Listed Real Estate Investment Trusts, Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Group and of the Trust that are free from material misstatement, whether due to fraud or error. The Trustee is responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

In preparing the financial statements of the Group and of the Trust, the Manager is responsible for assessing the ability of the Group and of the Trust to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Group or the Trust or to cease operations, or have no realistic alternative but to do so.

Independent Auditors' Report

To the Unitholders of CapitaLand Malaysia Trust

(Established in Malaysia)

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Trust as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Trust, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Group's and of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group or of the Trust to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group or of the Trust or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Trust, including the disclosures, and whether the financial statements of the Group and of the Trust represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Manager with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Manager, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Trust for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our auditors' report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

This report is made solely to the unitholders of the Trust, as a body, in accordance with the Securities Commission Malaysia's Guidelines on Listed Real Estate Investment Trusts and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Independent Practitioners' Limited Assurance Report on CapitaLand Malaysia Trust's (the "Company") Selected Sustainability Indicators for the financial year ended 31 December 2025 presented in its Annual Report 2025

Conclusion

We have performed a limited assurance engagement on whether the Company's selected sustainability indicators ("Selected Sustainability Indicators") for the financial year ended 31 December 2025 listed below have been prepared in accordance with the Company's definition and calculation methodologies as set out on page 48 in the Company's Annual Report 2025 ("Applicable Criteria"):

No.	Selected Sustainability Indicators	Amount	Boundary
1	Total Energy Consumption (within the organisation) (kWh)	71,570,108 kWh	• Gurney Plaza • East Coast Mall • The Mines • 3 Damansara • Queensbay Mall
2	Total Energy Intensity (within the organisation) (kWh/m ² /month)	12.11 kWh/m ² /month	• Gurney Plaza • East Coast Mall • The Mines • 3 Damansara • Queensbay Mall

Based on the procedures performed and evidence obtained, nothing has come to our attention to cause us to believe that the Selected Sustainability Indicators for the financial year ended 31 December 2025 presented in the Company's Annual Report 2025 are not prepared, in all material respects, in accordance with the Applicable Criteria.

Our conclusion on the Selected Sustainability Indicators does not extend to any other information that accompanies or contains the Selected Sustainability Indicators and our report.

Basis for conclusion

We conducted our engagement in accordance with Malaysian Approved Standard on Assurance Engagements (“ISAE”) 3000 (Revised), *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information*. Our responsibilities under this standard are further described in the *Our responsibilities* section of our report. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Our Quality Management and Independence

Our firm applies Malaysian Approved Standard on Quality Management, ISQM 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*, which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We have complied with the independence and other ethical requirements of the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Restriction on distribution and use of our report

Our report has been prepared for the Board of Directors of CapitaLand Malaysia REIT Management Sdn. Bhd. (“CMRM”) (the “Directors”) solely in accordance with the terms of our engagement letter.

Our report should not therefore be regarded as suitable to be used or relied on by any party wishing to acquire rights against us other than the Company for any purpose or in any context. Any party other than the Company who obtains access to our report or a copy and chooses to rely on our report (or any part of it) will do so at its own risk. To the fullest extent permitted by law, we will accept no responsibility or liability in respect of our report to any other party, other than the Company, for our work, for the assurance report we will issue, and for the conclusion we reach.

Without affecting, adding to or extending our duties and responsibilities to the Company or giving rise to any duty or responsibility being accepted or assumed by or imposed on us by any other party, we consent to the inclusion of this report in the Company’s Annual Report 2025, to assist the Directors in responding to their governance responsibilities by obtaining an independent limited assurance report on the Selected Sustainability Indicators.

Our conclusion is not modified in respect of this matter.

Independent Limited Assurance Report

To the Unitholders of CapitaLand Malaysia Trust

(Established in Malaysia)

CapitaLand Malaysia Trust (the “Company”)
*Independent Practitioners’ Limited Assurance Report on the Company’s
Selected Sustainability Indicators for the financial year ended 31 December 2025
presented in its Annual Report 2025
27 February 2026*

Responsibilities for the Selected Sustainability Indicators

The management of CMRM (the “Management”) is responsible for:

- (a) Designing, implementing and maintaining internal control relevant to the preparation of the Selected Sustainability Indicators such that they are free from material misstatement, whether due to fraud or error;
- (b) Selecting or developing suitable criteria for preparing the Selected Sustainability Indicators and appropriately referring to or describing the criteria used, including who developed them, when not readily apparent from the engagement circumstances;
- (c) Preparing and properly calculating the Selected Sustainability Indicators in accordance with the Applicable Criteria;
- (d) Preventing and detecting fraud; and
- (e) Selecting the content of the Selected Sustainability Indicators, including identifying and engaging with intended users to understand their information needs.

Inherent limitations

Due to the inherent limitations of any internal control structure, it is possible that material misstatement, whether due to fraud or error, may occur and not be detected in the Selected Sustainability Indicators.

Our responsibilities

We are responsible for:

- (a) Planning and performing the engagement to obtain limited assurance about whether the Selected Sustainability Indicators are free from material misstatement, whether due to fraud or error;
- (b) Forming an independent conclusion, based on the procedures we have performed and the evidence we have obtained; and
- (c) Reporting our conclusion to the Directors.

Summary of the work we performed as the basis for our conclusion

We exercised professional judgement and maintained professional skepticism throughout the engagement. We designed and performed our procedures to obtain evidence about the Selected Sustainability Indicators that is sufficient and appropriate to provide a basis for our conclusion. Our procedures selected depended on our understanding of the Selected Sustainability Indicators and other engagement circumstances, and our consideration of areas where material misstatements are likely to arise. In carrying out our engagement, we have performed the following procedures, amongst others:

- (a) Enquired Management to gain an understanding of the processes established from which the Selected Sustainability Indicators are derived;
- (b) Interviewed relevant staff responsible for preparing and presenting the Selected Sustainability Indicators in the Company’s Annual Report 2025;
- (c) Compared the Selected Sustainability Indicators presented in the Company’s Annual Report 2025 to underlying sources on a sample basis; and
- (d) Read the Selected Sustainability Indicators presented in the Company’s Annual Report 2025 to determine whether they are in line with our overall knowledge of, and experience with, the sustainability performance of the Company.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Other matter

We previously expressed a conclusion over the Selected Sustainability Indicators for the financial year ended 31 December 2024, and our report dated 28 February 2025 included an unmodified conclusion.

Our conclusion is not modified in respect of this matter.

Independent Market Overview

Prepared by: Knight Frank Malaysia Sdn. Bhd.

Date: 27 February 2026

1.0 General Market Outlook

1.1 Macroeconomic & Demographic Overview

The Malaysian economy expanded by 6.3% in 4Q 2025 (4Q 2024: 4.9%), supported by sustained household spending amid positive labour market conditions, strong investment growth, growing exports growth led by exports of electrical & electronics (E&E) goods and information and communication technology (ICT)-related services, as well as robust tourism activity. Overall, the economy grew 5.2% in 2025 (2024: 5.1%).

Bank Negara Malaysia (BNM) projects economic growth in 2026 to be between 4.0% to 4.5%, supported by resilient domestic demand and exports. Household spending is expected to remain supported by positive labour market condition, alongside policy measures. Investment activity is anticipated to be driven by the progress of multi-year projects across both the private and public sectors, the continued realisation of approved investments, and the implementation of national master plans. Export growth will be underpinned by steady global demand, particularly for E&E goods. Additionally, increased tourism activities following the launch of Visit Malaysia Year 2026 will also support growth.

Labour market conditions remained stable, as the unemployment rate improved to 2.9% in December 2025, improving from 3.2% in 2024. Employment rose by 4.6% YoY to 17.1 million, reflecting sustained labour demand across major sectors, including services, manufacturing and construction. Labour supply also remained healthy, with the labour force participation rate edging up to 70.9% in (2024: 70.6%). In terms of demographics, preliminary figures estimate Malaysia's population have increased 0.5% YoY to 34.2 million in 2025.

Inflation remained stable, recording 1.4% in 2025 (2024: 1.8%). Domestic policy reforms implemented during the year, including the expansion of the Sales and Service Tax (SST)¹ and adjustments to utility tariffs, were reported to have had a modest overall impact on price levels. Looking ahead, the Ministry of Finance Economic Report 2026 projects headline inflation to range between 1.3% and 2.0% in 2026.

Household income in Malaysia remained resilient in 2024, supporting consumer spending and broader economic activity. According to the Household Income and Expenditure Survey (HIES) 2024, mean monthly household income reached RM9,155 in Malaysia, reflecting a 3.9% CAGR since 2022, underpinned by income growth across the economy. Urban households saw stronger gains, with earnings averaging RM10,145 across the country. Disposable household income averaged RM7,584, up 3.2% from 2022, indicating that a substantial portion of earnings remains available for both essential and discretionary expenditure.

In terms of monetary policy, BNM Monetary Policy Committee (MPC) maintained the Overnight Policy Rate (OPR) at 2.75% during its January 2026 meeting, following a reduction from 3.00% in July 2025. This marked the third consecutive meeting where the policy rate was left unchanged, with BNM assessing the stance as supportive of economic growth while remaining consistent with prevailing inflation and growth conditions.

Meanwhile, tourism activity continued to strengthen, with Malaysia recording 26.6 million tourist arrivals in 2025, representing an increase in 6.4% from 2024. Visitor arrivals were largely driven by neighbouring ASEAN markets, led by Singapore, China, Indonesia, Thailand and India. Looking ahead, preparations for Visit Malaysia 2026 are underway, with the campaign targeting 47 million international visitors.

¹ Further revisions have been made to the Sales and Service Tax (SST) on 5th January 2026 and will be effective 1st January 2026 onwards. This includes a revision of the service tax on rental and leasing services reduced from 8% to 6%.

2.0 Retail Market Overview

2.1 Market Overview

Retail sales in Malaysia, as recorded by the Department of Statistics Malaysia (DOSM), grew 6.1% YoY in December 2025, reaching RM811.5 billion, up from RM764.9 billion in 2024. This strong growth was primarily driven by an increase in retail sales in retail trade not in stores, stalls or markets¹ (7.3%), retail sale in non-specialised stores² (7.0%) and retail sale of food, beverages and tobacco in specialised stores (6.8%). Among these categories, retail sales in non-specialised stores is the largest contributor to total retail trade at 38.7%.

Malaysia Retail Sales Growth, 2021 – 2025, YoY change (%)

Sources: Department of Statistics Malaysia (DOSM), Knight Frank Malaysia Research

2.2 Retail Property Sector: Malaysia

As of 9M 2025, total retail supply in Malaysia – comprising shopping centres, retail arcades and hypermarkets, stood at 185.9 million sq ft, a 3.9% decline from the corresponding period in 2024. The contraction likely reflects the cessation of operations, repurposing or conversion of older and underperforming retail assets. Shopping centres continued to dominate the retail landscape, accounting for 76.6% of total retail space. WP Kuala Lumpur and Selangor remained the two largest contributors, representing 22.8% and 22.7% of national retail stock respectively, followed by Johor (13.5%) and Penang (10.2%).

Notes:

- ¹ Retail trade not in stores, stalls or markets includes retail sale by mail order, over the Internet, via television, radio and telephone; by direct sales or door-to-door sales persons, vending machines, and others.
- ² Retail sale in non-specialised stores includes provision stores, supermarkets, mini markets, convenience stores, department stores, and hypermarkets.

On a per capita basis, Malaysia's total retail stock moderated to 5.4 sq ft per person in 9M 2025, from 5.7 sq ft per person in 9M 2024, in line with the reduction in overall supply. Similarly, shopping centre space per capita eased slightly to 4.2 sq ft per person, from 4.3 sq ft per person over the same period. This moderation suggests a gradual rationalisation of retail space, which may support healthier occupancy levels and a more balanced supply-demand dynamic in the longer term.

Across major states, shopping centre stock per capita was broadly stable. Penang was the key exception, with shopping centre stock per capita rising slightly to 8.1 sq ft per person from 7.7 sq ft per person in 2024.

Existing Retail Stock and Shopping Centre Stock per capita in Malaysia and Selected States, 9M 2025

2.3 Retail Property Sector: WP Kuala Lumpur & Selangor

Retail Supply

As of 9M 2025, the cumulative retail supply in Klang Valley (WP Kuala Lumpur and Selangor) comprised 269 properties, contributing to circa 77.4 million sq ft. By total retail space, Selangor made up 52.4% while WP Kuala Lumpur made up the remaining 47.6%. By retail property type, shopping centres made up the majority (83.8%), followed by hypermarkets (12.0%) and arcades (4.2%).

Independent Market Overview

In 2025, the Klang Valley (WP Kuala Lumpur and Selangor) recorded the completion of four notable retail malls, adding approximately 2.6 million sq ft of new retail space. These included KLGCC Mall (240,000 sq ft) within the Kuala Lumpur Golf & Country Club (KLGCC) Resort, Hextar World @ Empire City (1.8 million sq ft), Sunsuria Forum Mall (256,000 sq ft) and Sunway Square Mall (320,000 sq ft).

Looking ahead, the Klang Valley retail market is expected to see further supply growth over the next two years, with an estimated 3.1 million sq ft of additional retail space in the pipeline.

Expected Completions of Shopping Centres, WP Kuala Lumpur & Selangor

Future Supply	Estimated Completion Year	Net Lettable Area (sq ft)
WP Kuala Lumpur		
118 Mall		808,000
Ombak KLCC		420,000
Pavilion Damansara Heights (Phase 2) ⁽¹⁾	2026	530,000

Note:

(1) A select number of retailers at Pavilion Damansara Heights Phase 2 have commenced operations ahead of the official launch.

Retail Transactions

The Klang Valley retail sector saw several major acquisitions in 2025, highlighting sustained investor confidence in well-located, primarily neighbourhood-oriented retail assets. Key transactions included Arcoris Plaza in Mont Kiara, KIPMall Desa Coalfields, Bukit Tinggi Shopping Centre, Paradigm Mall Petaling Jaya and Jaya Shopping Centre. Most acquisitions were undertaken by REITs, targeting malls that serve established residential communities and township clusters, with the exception of Paradigm Mall Petaling Jaya, a larger regional asset.

Sources: Jabatan Penilaian Dan Perkhidmatan Harta (JPPH), Company announcements on Bursa Malaysia, Knight Frank Malaysia Research

Notes:

- (1) The acquisition of Arcoris Plaza entails the acquisition of 38 stratified retail units and 1,432 car park bays as part of Arcoris Plaza Development.
- (2) The purchase of Pavilion Bukit Jalil Mall included an NLA of 1.8 million sq ft and 4,800 car park bays.
- (3) The sale of KIPMall Desa Coalfield, a 2½-storey retail centre, together with a single-storey drive-thru building.
- (4) MRCB, via its wholly owned subsidiary MRCB Sentral Properties, disposed Plaza Alam Sentral Mall and the adjoining land to PKNS for RM178 million. The retail mall, which is a seven-storey shopping mall with four basement levels is valued at RM150 million, while adjoining vacant land has a market value of RM28 million.
- (5) Rubberex Corporation subscribed RM180 million for a 20% equity stake in Alliance Empire, the owner of Empire City Mall, based on an independent valuation of RM1.0 billion.

2.4 Retail Property Sector: Penang

Retail Supply

The cumulative retail supply in Penang comprised 100 properties, making up 21.1 million sq ft, as of 9M 2025. By retail property type, shopping centres made up the majority (69.2% of total existing space), while the remainder was fairly distributed between hypermarkets (15.6%) and arcades (15.3%). No completion of notable retail shopping centres was recorded in 2025.

2.5 Retail Property Sector: Pahang

Retail Supply

As of 9M 2025, the cumulative retail supply in Pahang comprised 40 retail properties, offering a modest 4.5 million sq ft. By retail property type, shopping centres made up the majority (83.9% of total existing space), followed by hypermarkets (13.3%) and arcades (2.8%). There were no notable completions of retail supply recorded in 2025, and no new supply expected in the near term.

2.6 Retail Market Outlook

The retail market is expected to remain resilient, underpinned by steady employment conditions, moderated inflation and easing financing costs following recent monetary policy adjustments. A firmer Ringgit Malaysia (RM), together with sustained job creation across major urban centres, has supported household spending capacity. Demand continues to be anchored by essential retail and everyday F&B trade categories across mall formats.

According to Retail Group Malaysia (RGM), retail sales outperformed expectations in 3Q 2025, growing by 4.9% YoY, underpinned by resilient private consumption despite rising retail prices for groceries and discretionary goods. As a result, RGM upgraded its full-year retail sales forecast to 3.6% in 2025, supported by continued government cash assistance, civil servant salary adjustments and lower fuel prices. Looking ahead, RGM projects retail sales to grow by 4.0% in 2026, supported by ongoing fiscal support measures and the anticipated uplift from the Visit Malaysia Year (VMY) 2026 campaign.

In response to evolving retail demand, mall operators are increasingly sharpening asset-level strategies to reinforce relevance within their respective catchments, with a clearer emphasis on experience-led attractions, stronger essentials anchoring and community-oriented tenant curation. Experience-driven concepts, including large-format indoor attractions and live event venues, are being introduced to support dwell time and broaden catchment appeal, as seen with the GameON Theme Park and Kin+Zo Land in The Mines and Idea Live Arena in 3 Damansara. In parallel, enhancements to supermarket and value-led anchors continue to underpin daily visitation, including a refreshed Cold Storage at Sungei Wang Plaza, while selective tenant remixing and targeted marketing efforts, such as at East Coast Mall in Pahang and Gurney Plaza in Penang – reflect a more catchment-led approach to retail asset management.

At the consumer level, AI is reshaping retail discovery and purchasing patterns, with 58% of Malaysian consumers using AI tools, according to the Adyen Retail Report 2025; alongside evidence from Lazada, which has reported higher engagement and order values following the introduction of its AI-enabled shopping assistant. In parallel, retailers such as the newly launched Xiaomi Store at The Exchange TRX and Nanjing Dajing Que Tang Yu Fang in Pavilion Bukit Jalil are adopting smarter omnichannel models that integrate physical and digital channels through IoT-enabled and AI-driven experiential formats, signalling a shift towards more data-led, experience-oriented retail environments.

In the Klang Valley, recent retail completions such as KLGCC Mall and Sunway Square Mall illustrate this trend, reflecting a move towards integrated, community-focused formats that prioritise lifestyle offerings, convenience, and placemaking over traditional big-box concepts. These malls feature experiential attractions, F&B-led anchors, supermarkets, and mixed-use integration to support diversified and resilient footfall. At the same time, the concentration of new supply within a relatively short period may lead to overlapping catchments, prompting more selective tenant demand and heightened competition among malls.

In Penang, the upcoming Waterfront Shoppes in 2026 is expected to intensify competition among prime retail assets on the island. Nevertheless, the market is projected to remain broadly stable, supported by sustained consumer spending, the continued entry of new retail brands, and positive spillover effects from state-level tourism initiatives as well as national campaigns such as VMY 2026.

Independent Market Overview

3.0 Industrial Market Overview

3.1 Market Overview

In 2025, Malaysia's industrial landscape was shaped by an increasingly complex global trade environment, where heightened tariff pressures and geopolitical uncertainties prompted businesses to reassess supply chains and export strategies. Manufacturers and exporters faced cost and competitiveness challenges as elevated trade policy risks added to existing operational pressures, encouraging firms to diversify export markets and strengthen regional supply chain links.

Nevertheless, the Industrial Production Index (IPI) rose 3.6% YoY to 136.9 in 2025, marginally slower than the growth rate recorded over the same period in 2024. Growth continued to be driven by the manufacturing sector, which rose 4.5% YoY, supported by sustained expansion in export-oriented industries, particularly the manufacture of computer, electronics and optical products.

Manufacturing output continued to be underpinned by export-oriented industries, supported by firm external demand, particularly for electronics and selected resource-based products. Recent months indicated improving momentum in export-linked manufacturing activity, broadly aligned with stronger manufactured exports. Domestic-oriented industries also recorded steady expansion, driven mainly by food processing and metal-related activities.

Industrial Production Index (IPI), Malaysia, 2021 – 2025

Sources: Department of Statistics Malaysia (DOSM), Knight Frank Malaysia Research

Approved Manufacturing Investment

As of 9M 2025, Malaysia recorded RM285.2 billion in total approved investments, marking a 13.2% YoY growth. Spanning 4,874 projects across key sectors, these investments demonstrate Malaysia's continued investment resilience amid global economic headwinds and reflects strong investor confidence in the nation's long-term economic direction. Of the total approved investments, domestic investments accounted for RM134.4 billion, representing 47.1%, while foreign investments contributed RM150.8 billion, or 52.9%.

Malaysia's manufacturing sector also demonstrated continued strength, securing RM93.8 billion in approved investments across 885 projects, which made up 32.9% of total approved investments in 9M 2025. Within this, foreign investments led with RM73.1 billion, representing 77.9% of total manufacturing investments, while domestic investments remained significant at RM20.7 billion, or 22.1%. Top performing industries included electrical and electronics (E&E), chemical and chemical products and transport equipment.

By state, Johor led approved manufacturing investments, accounting for 19.9% of the national total and rising 132.8% YoY to RM18.6 billion, supported by the Johor-Singapore Special Economic Zone (JS-SEZ) and the state's strategic proximity to one of Asia's most advanced economies. Penang followed with RM15.8 billion in approved manufacturing investments, representing 16.8% of the total and increasing 30.0% YoY, underpinned by its mature electronics ecosystem. In contrast, Klang Valley (WP Kuala Lumpur and Selangor) saw a decline in approved manufacturing investments, down 30.0% YoY to RM10.7 billion, contributing 11.5% of the national total.

Approved Manufacturing Investments in Klang Valley, Penang and Johor, 2021 – 9M 2025

Sources: Malaysian Investment Development Authority (MIDA), Knight Frank Malaysia Research

3.2 Industrial Property Sector: Malaysia

As of 9M 2025, total industrial supply across Malaysia reached 124,308 units, representing a 1.2% YoY increase, in line with the continued expansion of the industrial property market. In terms of geographic distribution, Selangor, Johor and Pulau Pinang collectively accounted for 58.7% of total existing supply, led by Selangor at 35.0%, followed by Johor (15.7%) and Pulau Pinang (8.0%).

Selangor remains the primary driver of industrial supply growth in Malaysia, accounting for 2,592 units, or 33.0% of total future supply. Of this, 63.7% (1,651 units) are currently under construction, while the remaining 36.3% (941 units) are at the planning stage. This is followed by Melaka, with 1,540 units (19.6%), and Negeri Sembilan, with 1,160 units (14.8%).

In terms of market activity, industrial property transactions increased in 9M 2025, with transaction volume rising by 3.2% YoY from 9M 2024 to 6,525 units, while transaction value grew by 14.6% to RM23,681.10 million. The stronger growth in value relative to volume suggests a continued tilt towards higher-value assets and larger-scale transactions.

3.3 Industrial Property Sector: WP Kuala Lumpur & Selangor

Policy & Infrastructure

Selangor has launched the IoT-Enabled Industrial Park (IEIP) initiative to accelerate Industry 4.0 adoption across selected industrial parks, promoting the integration of IoT, AI, automation and smart utilities. The IEIP is intended to support high-value industries, enhance operational efficiency and sustainability, and strengthen Selangor's attractiveness to domestic and foreign investors.

The East Coast Rail Link (ECRL) is also progressing on schedule and is expected to be 90% complete by December 2026, with operations expected to begin in 2027 from Kota Bahru to Gombak, Selangor. Upon completion, the ECRL is expected to strengthen the state's competitiveness as a regional distribution hub, lowering logistics costs and improving supply chain efficiency.

At present, the West Coast Expressway (WCE) is partially operational, with several remaining sections in Selangor, including the Shah Alam Expressway (SAE) (Section 3) and Assam Jawa (Section 7), still under construction. Full completion is targeted by 1Q2027.

Additionally, Malaysia has intensified efforts to modernise and expand Port Klang to meet growing global trade demands and reinforce its position as a pivotal regional trade hub, following its ranking as the 10th busiest port in Lloyd's¹ 2025 Top 100 Ports list. A major expansion at Westports is underway, with Phase 1 land reclamation of over 260 hectares targeted for completion by 2028, while subsequent phases are expected to commence from 2027 to further strengthen terminal infrastructure and handling capacity.

Industrial Supply

As of 9M 2025, the cumulative industrial supply in Klang Valley (WP Kuala Lumpur and Selangor) stood at 48,679 units. Selangor continues to dominate, with 1,651 industrial units in the pipeline, in addition to another 941 units in the planning stage. In contrast, WP Kuala Lumpur's planned supply remained limited at 37 units, all of which are terraced factories.

Selangor continues to record large-scale industrial development activity, with new supply concentrated in the western Klang Valley, notably Klang, Pulau Indah and Elmina, where land availability and connectivity continue to support industrial expansion.

Independent Market Overview

Industrial Transactions

In terms of market activity, the Klang Valley recorded 2,476 industrial property transactions in 9M 2025, with a total transaction value of RM11,366.37 million. This represented a YoY increase of 12.5% and 4.8% in transaction volume and value respectively (9M 2024: 2,201 transactions, RM10,843.49 million).

Notable Developments in the Industrial & Logistic Sectors

Klang Valley continues to strengthen its position as a key logistics and industrial hub in Malaysia, driven by a mix of global occupier investments, domestic strategic projects and industrial park expansions. Major supply chain investments such as YCH Group's investment in Sime Darby's Supply Chain City Malaysia in Bandar Bukit Raja and Nestlé's integrated logistics hub at Port Klang reflect growing demand for high-specification, technology-enabled distribution infrastructure.

Meanwhile, collaboration between industrial players is extending into smart logistics infrastructure beyond traditional warehousing models. Chin Hin's joint venture with PTT Synergy, and SP Setia's collaboration with Taiwan's Ally Logistic Property Co Ltd (ALP) to develop smart warehouses and digital logistics platforms signals broader adoption of automation and data-driven operations, a trend that is expected to enhance service quality and attract technology-driven tenants.

Global logistics operators are also deepening their footprint in the Klang Valley. This is seen with Maersk's recent opening of its Mega Distribution Centre in Shah Alam which adds significant pallet capacity and automation capability, while Jaya Grocer's investment of over RM100 million in a new automated warehouse highlights the increasing domestic uptake of advanced logistics solutions tailored for retail and FMCG supply chains.

In addition, strategic industrial park announcements such as the set up of the Chery Smart Auto Industrial Park in Hulu Selangor and the launch of Selangor Aero Park @ KLIA Aeropolis are further enhancing the investment narrative for Klang Valley. The Malaysia Semiconductor Integrated Circuit (IC) Design Park 2 in Cyberjaya was also launched, strengthening the region's position as a potential regional semiconductor hub.

3.4 Industrial Property Sector: Penang

Policy & Infrastructure

Penang continues to progress key infrastructure initiatives that are expected to support industrial and economic activity. The expansion of Penang International Airport (PIA) is advancing steadily, and the overall project remains on track for completion by 2028. The upgrade includes apron expansions, taxiway rehabilitation and ancillary buildings – capabilities that will benefit export-oriented manufacturing and logistics operations in the northern region.

Independent Market Overview

In parallel, the construction of the Penang Mutiara Light Rail Transit (LRT) project is scheduled to begin early 2026. Spanning 29.5km with 21 strategically located stations, the line connects key locations including the Penang Silicon Island, Penang International Airport, Bayan Lepas Free Industrial Zone, and George Town – improving accessibility between industrial nodes, logistics hubs and urban centres.

Meanwhile, reclamation and infrastructure development at the Penang Silicon Island continues to make progress, with more than 80 hectares reclaimed to date and phased connectivity improvements planned via the forthcoming Pan Island Link 2A (PIL2A) highway and bridge link, enhancing land supply for future industrial and mixed-use development.

Industrial Supply

As of 9M 2025, Penang's cumulative industrial supply stood at 9,974 units – with the majority comprising terraced (53.0%), semi-detached (20.7%) and detached factories (20.1%). Incoming supply totalled 223 units, with the majority comprising semi-detached factories (67.7% or 151 units), followed by detached factories (23.3% or 52 units) and terraced factories (8.1% or 18 units).

Supply of Industrial Properties in Penang, 2021 – 9M 2025

	Existing Supply (No. of Units)				Future Supply (No. of Units)		
	2021	2022	2023	2024	9M 2025	Incoming	Planned

Industrial Transactions

In terms of market activity, Penang recorded 327 industrial property transactions in 9M 2025, with a total transaction value of RM1,310.18 million. This represented a YoY decline of 12.3% in transaction volume, while transaction value increased by 6.4% (9M 2024: 373 transactions; RM1,231.75 million), suggesting continued demand for higher-value industrial assets despite softer transaction activity.

Notable Developments in the Industrial & Logistic Sectors

Penang's industrial landscape is advancing on multiple fronts, anchored by strategic public-private collaborations and major infrastructure initiatives. In Seberang Perai, S P Setia and the Penang Development Corporation (PDC) will jointly develop approximately 350 acres within the Setia Fontaines township into a green-themed industrial park.

Additionally, the Silicon Island project has unveiled Phase 1 of the Green Tech Park – the flagship industrial precinct of the project. The project is on track to welcome the construction of the first factories in 2026, with operations to begin as early as 2027.

Penang's logistics ecosystem is also gaining momentum with developments at the Penang International Logistics Aeropark (PILA), a 42-hectare future-ready air cargo and logistics hub planned adjacent to Penang International Airport. PDC has signed memorandums of understanding (MoUs) with global logistics operators FedEx and DHL to establish integrated logistics and air freight facilities within PILA.

Global logistics service providers are also strengthening their footprint in Penang. UPS has opened a new 20,000 sq ft package centre in Penang Science Park North and expanded its airport hub to boost processing capacity and delivery efficiency for express and freight services. Furthermore, Sin-Kung Logistics Berhad has signed an MoU with PDC to explore the possibility of leasing within PILA in bids to strengthen its operations in Penang.

3.5 Industrial Property Sector: Johor

Policy & Infrastructure

The Johor-Singapore Special Economic Zone (JS-SEZ) remains a key catalyst for Johor's industrial market, supported by targeted incentives aimed at attracting high-value manufacturing and services activities. Key measures include preferential tax rates for qualifying investments and knowledge workers, fast-tracked regulatory approvals via the Invest Malaysia Facilitation Centre-Johor, and enhanced funding support for talent development and strategic co-investment. Together with improving cross-border connectivity and logistics infrastructure, these initiatives are expected to strengthen Johor's competitiveness as a regional industrial and investment hub.

Additionally, the Port of Tanjung Pelepas (PTP) is advancing its expansion plans with the development of a new berth to increase handling capacity over the next few years. The port's growth outlook is further strengthened by Maersk's decision to designate PTP as its main transshipment hub in Asia. Reflecting this momentum, Alphaliner ranked PTP as the world's fastest-growing port, recording a 15.4% growth rate in the first half of 2025.

Independent Market Overview

Industrial Supply

As of 9M 2025, Johor's existing industrial stock was predominantly made up of terraced factories (43.0%), followed by semi-detached factories (25.4%) and detached factories (22.4%). Incoming supply totalled 799 units, with terraced factories accounting for the largest share at 39.4%, followed by semi-detached factories (32.8%) and cluster factories (16.5%).

Supply of Industrial Properties in Johor, 2021 – 9M 2025

	Existing Supply (No. of Units)				Future Supply (No. of Units)

Industrial Transactions

In terms of market activity, Johor recorded 1,164 industrial property transactions in 9M 2025, with a total transaction value of RM6,411.30 million. This represented a significant YoY increase of 30.4% in transaction value, alongside a 0.6% decline in transaction volume (9M 2024: 1,171 transactions; RM4,916.57 million). The rise in transaction value, despite slightly fewer transactions, reflects a shift towards higher-value deals, with the average value per transaction increasing to RM5.51 million, up 31.9% (9M 2024: RM4.18 million).

Notable Developments in the Industrial & Logistic Sectors

Johor's industrial property landscape continues to attract significant strategic investments and partnerships. A landmark development is the Eco Business Park 8 in Kulai, a 381.24-hectare integrated industrial park located within the Johor-Singapore Special Economic Zone (JS-SEZ). Other notable industrial parks include the MS Industrial Park @ Kulai – a 419-acre joint venture project between Mah Sing Group Berhad and KKK Land, and MB World Group Bhd's 732-acre MBW Innexus Industrial City in Tanjung Langsat. The project is a freehold heavy industrial development with an estimated GDV of RM2.03 billion located within the Forest City Special Financial Zone (SFZ) under the JS-SEZ.

On the logistics front, Johor continues to attract strong interest from global supply chain operators. At 103° Free Commercial Zone in Sunway City Iskandar Puteri, Singapore-headquartered Equalbase and Sunway Group have secured full long-term lease commitments for Phase I. Global logistics provider DB Schenker Logistics has committed to approximately 830,000 sq ft of warehouse space, while GXO Logistics has taken the entire 720,000 sq ft of Warehouse 2.

In addition, Barry Callebaut, in partnership with AP Moller-Maersk, has opened a purpose-built cocoa bean warehouse in Pasir Gudang, Johor, marking one of the largest cocoa storage facilities in the Asia Pacific region.

Local logistics developers are also active: ISP Group has broken ground on its RM80 million ISP Victory logistics hub in Senai. Located on a 10.22-acre industrial site, the project comprises a dual-storey logistics and manufacturing facility with a total built-up area of approximately 263,000 sq ft..

Beyond parks and logistics hubs, notable manufacturing investments continue to reinforce Johor's industrial base. Significant capital commitments include:

- Gold Peak Technology Group's RM670 million investment in advanced manufacturing and R&D in JS-SEZ;
- Biocon Ltd's RM1.1 billion investment in biopharmaceutical operations in Iskandar Malaysia;
- FerroTec Power Semiconductor's RM550 million investment in Pasir Gudang; and
- Southern Catalyst Sdn Bhd's AgroPolis project aimed at enhancing agro-industrial capacity in Sedenak. The project is expected to draw up to RM500 million in investments.

These large-scale investments are expected to drive long-term demand for industrial space across various manufacturing and logistics segments.

3.6 Industrial Market Outlook

Looking ahead, Malaysia's industrial sector is expected to maintain its momentum, supported by improving global demand, particularly in the electronics and AI-related segments and further supported by domestic policy measures. National frameworks such as the New Industrial Master Plan (NIMP) 2030, the National Energy Transition Roadmap (NETR) and the Johor–Singapore Special Economic Zone (JS-SEZ) are expected to enhance Malaysia's competitiveness as a regional industrial and logistics hub.

Key infrastructure projects, including the East Coast Rail Link (ECRL), the West Coast Expressway (WCE) and Johor Bahru–Singapore Rapid Transit System (RTS) are anticipated to further enhance connectivity and support demand along strategic transport corridors. Strategic engagements and trade agreements are also expected to benefit major industrial hubs, boosting investor confidence and driving demand for logistics and high-specification industrial spaces. Recent trade developments include the signing of the Malaysia–EFTA Economic Partnership Agreement (MEEPA) with Switzerland, Norway, Iceland and Liechtenstein, followed by new agreements with New Zealand and South Korea, alongside the resumption of free trade negotiations with the European Union.

Increasingly, technology and sustainability adoption are becoming critical to the sector's evolution. The deployment of 5G connectivity in industrial zones, growing adoption of AI and automation, and emphasis on green building practices are reshaping how industrial spaces are designed, operated, and valued. ESG-driven industrial developments, smart warehouses, and AI-enabled logistics hubs are emerging as top investment priorities, attracting both domestic and global tenants seeking sustainable and future-ready facilities.

The Klang Valley industrial market is expected to remain resilient, underpinned by its mature infrastructure, strategic location and deep concentration of modern,

automation-ready industrial parks. Many of these developments are designed to support higher operational efficiency and sustainability, aligning with occupier demand from higher-value industrial segments such as advanced manufacturing, e-commerce logistics and semiconductor-related activities, which are expected to continue driving space absorption.

Meanwhile, Penang's industrial sector continues to benefit from its strategic role in the E&E supply chain, ongoing infrastructure upgrades, and sustained investor interest. Major initiatives, including the Penang South reclamation project and the expansion of Penang International Airport, are expected to reinforce the State's position as a key industrial hub, attracting high-value manufacturing and logistics investments. The strategic location of Penang within regional supply chains continues to underpin demand for modern industrial space, particularly with the development of new industrial parks such as Setia Fontaines and the Green Tech Park within Silicon Island.

Johor's industrial sector is poised for sustained growth with the Johor–Singapore Special Economic Zone (JS-SEZ) as a key structural driver of future investment and industrial land demand. The JS-SEZ's targeted incentives, coupled with proactive co-investment and talent development support, are expected to attract high-value manufacturing, advanced logistics, and technology-intensive services, anchoring longer-term industrial growth in the southern corridor.

Beyond policy support, Johor's evolving industrial landscape is characterised by a growing pipeline of strategic developments that reinforce its appeal to both global and domestic occupiers. Notable projects such as the Eco Business Park 8 and MS Industrial Park @ Kulai are enhancing modern industrial capacity, while major logistics leases point to strong demand for high-specification distribution and supply chain infrastructure. At the same time, significant manufacturing investments across various advanced manufacturing segments are broadening the state's industrial base.

Key ESG Data Summary

(All data reported is as at 31 December of the Financial Year unless stated otherwise)

The ESG data summary list is aligned with Bursa Malaysia's sustainability reporting requirements in accordance with the sustainability reporting framework with the National Sustainability Reporting Framework (NSRF).

ENVIRONMENTAL DATA

1 For more information on CLMT's GHG emissions methodology and scope, please refer to the GHG Emissions Data Methodology section on page 218 of CLMT Annual Report 2025.

2 Scope 3 comprises Scope 3 categories deemed to be material and/or optional to CLMT, and is based on currently available data. CLMT will continue working to improve the coverage, accuracy and clarity of its Scope 1, 2, and 3 emissions disclosures.

3 Includes tenant emissions of CLMT-owned and CLI-operationally managed properties, and landlord and tenant emissions of CLMT-owned but third-party operationally managed properties.

This has been externally assured by KPMG PLT. Please refer to pages 184 to 187 for the independent assurance report.

9 Figure is 71% as at 1 Jan 2026 following the resignations of Dato' Ng Tiong Lip (Dato' Jeffrey Ng) and Lim Cho Pin Andrew Geoffrey

GHG Emissions Data Methodology

CLMT's methodology for computing Scope 1, 2, and 3 GHG emissions are listed below.

GHG Emissions Data Methodology	
Approach	CLMT computes Scope 1, 2 and 3 emissions using Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (2004), and Greenhouse Gas Protocol Corporate Value Chain (Scope 3) Accounting and Reporting Standard (2011), unless otherwise stated. CLMT uses the operational control approach as defined by the GHG Protocol, and determined that it has operational control over the properties that CLI-operationally manages. Gases included in computation are carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs), and sulphur hexafluoride (SF₆), where applicable, and where the relevant emission factor inclusive of these gases is available in the emission factor databases used by CLMT.
Scope 1 GHG emissions	Scope 1 GHG emissions relate to direct emissions from direct fuel combustion (Diesel). Emission and Conversion factors UK Government GHG Conversion Factors for Company Reporting 2025. Changes in reporting period No changes.
Scope 2 GHG emissions	Scope 2 GHG emissions relate to indirect emissions from purchased electricity. Emission and Conversion factors IEA 2025 v1.1 (AR6 Applied). Changes in reporting period No changes.
Scope 3 GHG Emissions	<u>Cat 3 Fuel- and energy-related activities</u> Relates to emissions from the production and transmission and distribution of fuels and energy consumed by CLMT, that are not accounted for in Scope 1 and 2. Emission and Conversion factors WTT and transmission and distribution loss emission factors used for computation of emissions were from UK Government GHG Conversion Factors for Company Reporting 2025. UK Government GHG Conversion Factors for Company Reporting 2021 where country-specific emission factor was unavailable in the 2025 database. Changes in reporting period No changes. <u>Cat 5 Waste generated in own operations</u> Relates to emissions from the disposal of landlord and tenant waste generated at properties. For non-recycled waste, the waste disposal method is landfill. For recycled waste, emissions were computed for recycled paper, metal, plastic, glass, e-waste, food waste, and other recycled waste. Emission and Conversion factors US EPA Emission Factors Hub 2025. Changes in reporting period No changes. <u>Cat 6 Business travel (air travel)</u> Relates to emissions from corporate air travel by CLMT employees based on air travel distance provided by air travel agency. Emission and Conversion factors UK Government GHG Conversion Factors for Company Reporting 2025. Changes in reporting period No changes <u>Cat 13 Downstream leased assets (Landlord and tenant emissions of owned properties not accounted for in Scope 1 and 2)</u> Relates to tenant emissions of CLMT-owned and CLI-operationally managed properties, and landlord and tenant emissions of CLMT-owned but third-party operationally managed properties. Emission and Conversion factors IEA 2025 v1.1 (AR6 Applied). UK Government GHG Conversion Factors for Company Reporting 2025. Changes in reporting period No changes.

			Social and Relationship Capital	75-77
GRI 414: Supplier Social Assessment 2016	414-1	Suppliers screened using social criteria	Human Capital	67-74
			Social and Relationship Capital	75-77
			CLMT requires its main contractors of its development sites to be ISO 14001 and ISO 45001 certified (or equivalent), or to be audited by an independent accredited assessor for EHS legal compliance. CLMT leverages these third-party certifications to ensure that the EHS conditions on site follow the best practices in the industry. The management system requires risks and opportunities to be evaluated to prevent work related injury and ill-health to workers.

This report may contain forward-looking statements. Forward-looking statement is subject to inherent uncertainties and is based on numerous assumptions. Actual performance, outcomes and results may differ materially from those expressed in forward-looking statements. Representative examples of factors which may cause the actual performance, outcomes and results to differ materially from those in the forward-statements include (without limitation) changes in general industry and economic conditions, interest rate trends, cost of capital and capital availability, availability of real estate investment opportunities, competition from other companies, shifts in customers' demands, changes in operating conditions, including employee wages, benefits and training, governmental and public policy changes and the continued availability of financing in the amounts and the terms necessary to support future business. You are cautioned not to place undue reliance on these forward-looking statements, which are based on current view of management of future events.

Notice of Annual General Meeting

CapitaLand Malaysia Trust

[Established in Malaysia under the trust deed dated 7 June 2010 (as amended and restated on 13 July 2021) entered into between CapitaLand Malaysia REIT Management Sdn. Bhd. (200801018055 (819351-H)) and MTrustee Berhad (198701004362 (163032-V))]

NOTICE IS HEREBY GIVEN that the Annual General Meeting ("**AGM**") of the holders of units ("**Units**") ("**Unitholders**") of CapitaLand Malaysia Trust ("**CLMT**") will be held on Wednesday, 8 April 2026 at 10.00 a.m. at Nusantara Ballroom, Level 2, Sheraton Imperial Kuala Lumpur Hotel, Jalan Sultan Ismail, 50250 Kuala Lumpur to transact the following businesses:

Ordinary Business

1. To receive the report of MTrustee Berhad, as trustee of CLMT (the "**Trustee**"), the report by CapitaLand Malaysia REIT Management Sdn. Bhd., as manager of CLMT (the "**Manager**"), and the Audited Financial Statements of CLMT for the financial year ended 31 December 2025 and the Auditors' Report attached thereon.

(Please see Explanatory Note 1)

Special Business

To consider and, if thought fit, to pass with or without any modification, the following resolutions:

2. **PROPOSED AUTHORITY TO ALLOT AND ISSUE NEW UNITS PURSUANT TO PARAGRAPH 6.59 OF THE MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD ("PROPOSED AUTHORITY 1")** **Ordinary Resolution 1**

"**THAT** pursuant to the Main Market Listing Requirements ("**Listing Requirements**") of Bursa Malaysia Securities Berhad ("**Bursa Securities**"), provisions of the trust deed dated 7 June 2010 (as amended and restated on 13 July 2021) and the approval of the relevant regulatory authorities, where such approval is required, authority be and is hereby given to the Manager to allot and issue new units in CLMT ("**New Units**") from time to time to such persons and for such purposes as the Manager may in its absolute discretion deem fit and in the best interest of CLMT and its Unitholders, **PROVIDED THAT** the aggregate number of New Units issued pursuant to this resolution, when aggregated with the number of units in CLMT issued during the preceding 12 months, must not exceed 20% of the total number of units issued in CLMT for the time being;

AND THAT the Proposed Authority 1 shall be effective and continue to be in force from the date of receipt of all relevant authorities' approval or the date the Unitholders pass this resolution, whichever may be the later, until:

- (a) the conclusion of the next AGM of the Unitholders at which time it shall lapse, unless by a resolution passed at the meeting, the authority is renewed; or
- (b) the expiration of the period within which the next AGM of the Unitholders is required by law to be held; or
- (c) the Proposed Authority 1 is revoked or varied by the Unitholders in a Unitholders' meeting, whichever occurs first ("**Validity Period**");

AND THAT the New Units to be issued pursuant to the Proposed Authority 1 shall, upon allotment and issuance, rank pari passu in all respects with the existing Units except that the New Units will not be entitled to any distributable income, right, benefit, entitlement and/or any other distributions that may be declared before the date of allotment and issuance of such New Units;

AND THAT authority be and is hereby given to the Manager and the Trustee, acting for and on behalf of CLMT, to give effect to the aforesaid Proposed Authority 1 with full powers to assent to any condition, variation, modification and/or amendment in any manner as the Manager and the Trustee may deem fit and in the best interest of CLMT and its Unitholders and/or as may be imposed by the relevant authorities, and to deal with all matters relating thereto;

AND FURTHER THAT authority be and is hereby given to the Manager and the Trustee, acting for and on behalf of CLMT, to take all such steps and do all acts, deeds and things in any manner (including execute such documents as may be required) as they may deem necessary or expedient to implement, finalise, complete and give full effect to the Proposed Authority 1."

(Please see Explanatory Note 2)

3. PROPOSED RENEWAL OF UNIT BUY-BACK AUTHORITY TO REPURCHASE UP TO TEN PERCENT (10%) OF THE TOTAL NUMBER OF UNITS ISSUED ("PROPOSED RENEWAL OF UNIT BUY-BACK MANDATE") **Ordinary Resolution 2**

"THAT subject to the Listing Requirements of Bursa Securities, provisions of the trust deed dated 7 June 2010 (as amended and restated on 13 July 2021), and any prevailing laws, guidelines, rules and regulations issued by the relevant authorities, the Board of the Manager ("**Board**") shall be authorised to repurchase the Units in CLMT for and on behalf of CLMT through Bursa Securities, subject to the following:

- (a) the aggregate number of Units in CLMT which may be repurchased shall not exceed ten percent (10%) of the total number of Units issued at the time of purchase and the compliance with the public unitholding spread requirements as stipulated under the Listing Requirements;
- (b) the maximum funds to be allocated by CLMT for the purpose of repurchasing the Units shall not exceed the aggregate of the retained profits of CLMT based on the latest audited financial statements of CLMT available at the time of purchase;
- (c) the authority conferred by this resolution shall be effective and continue to be in force from the date the Unitholders pass this resolution, until:
 - (i) the conclusion of the next AGM of the Unitholders at which time it shall lapse, unless by a resolution passed at the meeting, the authority is renewed; or
 - (ii) the expiration of the period within which the next AGM of the Unitholders is required by law to be held; or
 - (iii) the authority is revoked or varied by the Unitholders in a Unitholders' general meeting, whichever occurs first;

THAT where the Manager has repurchased the Units, the Board shall cancel the Units so repurchased immediately.

AND THAT authority be and is hereby given to the Board, for and on behalf of CLMT, to sign and execute all documents, and do all acts and things as may be required for or in connection with and to give effect to, and to implement the Proposed Renewal of Unit Buy-Back Mandate with full power to do all such acts as they may consider necessary or expedient in the best interest of CLMT and its Unitholders so as to give full effect to the same with further power to assent to any condition, modification, variation and/or amendment as may be required or imposed by the relevant authorities."

(Please see Explanatory Note 3)

Notice of Annual General Meeting

4. PROPOSED RENEWAL OF AUTHORITY TO ALLOT AND ISSUE NEW UNITS PURSUANT TO THE DISTRIBUTION REINVESTMENT PLAN THAT PROVIDES THE UNITHOLDERS OF CLMT AN OPTION TO REINVEST THEIR CASH DISTRIBUTION INTO NEW UNITS ("PROPOSED AUTHORITY 2") Ordinary Resolution 3

"**THAT** pursuant to the Distribution Reinvestment Plan ("**DRP**") established at the deferred AGM of CLMT held on 19 June 2020, provisions of the trust deed dated 7 June 2010 (as amended and restated on 13 July 2021) and the approval of the relevant regulatory authorities, where such approval is required, authority be and is hereby given to the Manager to allot and issue New Units ("**DRP New Units**") from time to time as may be required to be allotted and issued pursuant to the **DRP** until the conclusion of the next AGM of CLMT, upon such terms and conditions and to such persons as the Manager may in its absolute discretion deem fit and in the best interest of CLMT and its Unitholders, **PROVIDED THAT** the issue price shall not be more than 10% discount to the volume weighted average market price ("**VWAMP**") of the Units for the five (5) market days immediately preceding the price-fixing date. The VWAMP shall be adjusted ex-distribution(s) before applying the aforementioned discount.

THAT the **DRP New Units** shall, upon allotment and issuance, rank equally in all respects with the existing Units in issue, save and except that the holders of the **DRP New Units** will not be entitled to any distributable income, right, benefit, entitlement and/or any other distributions that may be declared before the date of allotment of the **DRP New Units** issued pursuant to the **DRP**.

AND THAT authority be and is hereby given to the Board to do all such acts and things and enter into all such transactions, arrangements and agreements and to execute, sign and deliver for and on behalf of CLMT, all such documents and impose such terms and conditions or delegate all or any part of its powers as they may consider necessary or expedient in order to give full effect to the Proposed Authority 2 and **DRP**, with full power to assent to any condition, modification, variation and/or amendment including amendment, modification, suspension and termination of the **DRP** (irrespective of whether an election to exercise the distribution reinvestment has been made by the Unitholders), as the Board may, in their absolute discretion, deem fit and in the best interest of CLMT and its Unitholders and/or as may be imposed or agreed to by any relevant authorities."

(Please see Explanatory Note 4)

Enclosures:

1. **Explanatory Notes**
2. **Proxy Form**

cc: MTrustee Berhad
Securities Commission Malaysia

NOTES:

1. Pursuant to Paragraph 8.29A(1) of the Listing Requirements of Bursa Securities, all resolutions shall be put to vote by way of a poll.
2. Only Unitholders whose names appear in the Record of Depositors on 31 March 2026 are entitled to participate and vote at the AGM or appoint proxy to participate and vote instead of him.
3. Any Unitholder entitled to participate at the AGM may appoint up to two (2) proxies to participate at the AGM and vote in the Unitholder's place. A Unitholder holding 10,000 Units or less shall be entitled to appoint one (1) proxy (whether a Unitholder or not). A Unitholder holding more than 10,000 Units shall be entitled to appoint up to two (2) proxies (whether a Unitholder or not).
4. Where a Unitholder is an authorised nominee as defined under the Securities Industry (Central Depositories) Act 1991, it may appoint one (1) proxy for each securities account that holds 10,000 Units or less standing to the credit for the said securities account and up to two (2) proxies for each securities account that has more than 10,000 Units standing to the credit for the said securities account.
5. Where a Unitholder appoints two (2) proxies in accordance with such provision, the appointment shall be invalid unless he specifies the proportions of his holdings to be represented by each proxy.
6. If the Proxy Form is submitted in hard copy, it must be in writing under the hand of the Unitholder or of his duly appointed attorney or, if the Unitholder is a corporation, either under the seal or under the hand of an authorised officer or attorney duly authorised by a valid instrument.
7. The Proxy Form appointing a proxy and the power of attorney or other authority, if any, under which it is signed or a notarially certified copy of that power or authority, must be deposited at the Poll Administrator's office, Boardroom Share Registrars Sdn. Bhd. at 11th Floor, Menara Symphony, No. 5, Jalan Prof Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor Darul Ehsan, Malaysia or at its website at <https://investor.boardroomlimited.com> ("**eProxy Lodgement**"), not less than 48 hours before the time appointed for holding the AGM or any adjournment thereof; in default of this provision, the Proxy Form shall not be treated as valid. Please refer to the Administrative Details for the AGM for the steps on the eProxy Lodgement.

Personal Data Privacy:

By submitting an instrument appointing a proxy(ies) and/or representative(s) to participate and vote at the AGM and/or any adjournment thereof, a Unitholder (i) consents to the collection, use and disclosure of the Unitholder's personal data by the Manager and MTrustee Berhad (or their agents) for the purpose of processing and administering the proxies and representatives appointed for the AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the AGM (including any adjournment thereof), and in order for the Manager and MTrustee Berhad (or their agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "**Purposes**"), (ii) warrants that where the Unitholder discloses the personal data of the Unitholder's proxy(ies) and/or representative(s) to the Manager and MTrustee Berhad (or their agents), the Unitholder has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Manager and MTrustee Berhad (or their agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the Unitholder will indemnify the Manager and MTrustee Berhad in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the Unitholder's breach of warranty.

Explanatory Notes:

Ordinary Business

1. **Audited Financial Statements of CLMT for the financial year ended 31 December 2025 together with the Reports of Trustee, Manager and Auditors thereon**

The Audited Financial Statements are laid before the unitholders for discussion only pursuant to Paragraph 13.18(b) of the Guidelines on Listed Real Estate Investment Trusts. The Audited Financial Statements do not require a formal approval of the unitholders. Hence, this matter will not be put forward for voting.

Notice of Annual General Meeting

Special Business

2. Ordinary Resolution 1 – Proposed Authority 1

The Proposed Ordinary Resolution 1, if passed, would enable the Manager to allot and issue New Units from time to time provided that the aggregate number of the New Units to be issued during the Validity Period, when aggregated with the number of units issued during the preceding 12 months must not exceed 20% of the total number of units issued in CLMT for the time being.

The Proposed Authority 1 will allow the Manager the flexibility to allot and issue New Units to raise funds to finance future investments, acquisitions and capital expenditure to enhance the value of CLMT and/or to refinance existing debt as well as for working capital purposes, subject to the relevant laws and regulations. With the Proposed Authority 1, delays and further costs involved in convening separate general meetings to approve such issue of New Units to raise funds can be avoided. Any allotment and issuance of New Units pursuant to the Proposed Authority 1 will be subject to the relevant approvals of Securities Commission Malaysia and Bursa Securities.

The Proposed Ordinary Resolution 1 is a renewal of the previous year's mandate. As at the date of this Notice, no New Units have been issued pursuant to the mandate granted to the Manager at the previous AGM of CLMT.

3. Ordinary Resolution 2 – Proposed Renewal of Unit Buy-Back Mandate

Unitholders are advised to refer to the Statement to Unitholders dated 10 March 2026, which is available on CLMT's website at www.clmt.com.my for further information.

4. Ordinary Resolution 3 – Proposed Authority 2

The Proposed Authority 2, if passed, will give authority to the Board to allot and issue the DRP New Units pursuant to the DRP upon such terms and conditions and to such persons as the Manager may in its absolute discretion deem fit and in the best interest of CLMT and its Unitholders, and such authority shall expire at the conclusion of the next AGM of CLMT.

CLMT had applied the DRP to the final income distribution for the period from 1 July 2024 to 31 December 2024 (2024 Final Income Distribution) which was declared on 22 January 2025. A total of 33,856,268 New Units were issued under the 2024 Final Income Distribution on 17 March 2025 and subsequently, listed on the Main Market of Bursa Securities on 19 March 2025. The net proceeds raised from the 2024 Final Income Distribution were utilised for working capital and capital expenditure purposes.

CLMT had also applied the DRP to the final income distribution for the period from 7 August 2025 to 31 December 2025 (2025 Final Income Distribution) which was declared on 28 January 2026. Upon the closing time for submitting the distribution reinvestment form on 16 March 2026, the New Units to be issued under the 2025 Final Income Distribution will be issued on 25 March 2026 and listed on Main Market of Bursa Securities on 26 March 2026. The net proceeds to be raised from the 2025 Final Income Distribution will be utilised for working capital and capital expenditure purposes.

The Proposed Authority 2 is a renewal of the previous year's mandate. With Proposed Authority 2, delays and further costs involved in convening separate general meetings to approve such issue of New Units can be avoided. If such authority is renewed at the forthcoming AGM, any proceeds raised from the issuance(s) of New Units pursuant to the Proposed Authority 2 shall be utilised for working capital and capital expenditure purposes.

PERSONAL DATA PRIVACY:

By submitting an instrument appointing a proxy(ies) and/or representative(s) to participate and vote at the AGM and/or any adjournment thereof, a Unitholder (i) consents to the collection, use and disclosure of the Unitholder's personal data by the Manager and MTrustee Berhad (or their agents) for the purpose of processing and administering the proxies and representatives appointed for the AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the AGM (including any adjournment thereof), and in order for the Manager and MTrustee Berhad (or their agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "**Purposes**"), (ii) warrants that where the Unitholder discloses the personal data of the Unitholder's proxy(ies) and/or representative(s) to the Manager and MTrustee Berhad (or their agents), the Unitholder has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Manager and MTrustee Berhad (or their agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the Unitholder will indemnify the Manager and MTrustee Berhad in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the Unitholder's breach of warranty.

General

The Manager shall be entitled to reject any Proxy Form which is incomplete, improperly completed, illegible or where the true intentions of the appointor are not ascertainable from the Proxy Form submitted. The Manager may reject any Proxy Form if the Unitholder, being the appointor, is not shown to have Units entered against his/her name in the Record of Depositors as at 31 March 2026.
